

ENCOURAGING THE SHEEP INDUSTRY

INDUCEMENT TO USE A PURE BRED RAM AT THE HEAD OF YOUR FLOCK OF SHEEP.

THE NEW BRUNSWICK DEPARTMENT OF AGRICULTURE are co-operating with the Dominion Live Stock Branch encouraging the use of Pure Bred Rams.

Persons Eligible.

Any sheep raiser who purchases a pure bred registered ram and who has not before at any time used a pure bred ram in his own flock, shall be entitled to a premium of ten dollars the first year, five of which will be paid by the New Brunswick Department of Agriculture and five by the Dominion Live Stock Branch, and an additional premium of five dollars the second year, payable by the Live Stock Branch. Applications for premiums to be sent in to Live Stock Division, Department of Agriculture, Fredericton, not later than December 1st.

Co-operative Purchasing of Pure-bred Stock.

The Dominion Live Stock Branch will pay the travelling expenses to any point east of Fort William, Ontario, of any accredited man appointed by a Society, group of Societies or group of farmers who have orders to purchase at least twenty-five pure bred rams for farmers never having used a pure bred before. This same person has the privilege of making purchases of other live stock or rams for any farmer while on the trip, so long as the minimum of twenty-five rams are purchased as outlined above.

Grading of Pure Bred Rams in New Brunswick.

The services of Professor Sackville, of Ontario Agricultural College, have been secured to visit each pure bred breeder in the province and classify the rams offered for sale into three grades, superior, average and common. By purchasing your rams in the province, farmers can write any breeder of pure bred sheep and be sure of getting the class of ram he applies for. New Brunswick is the first province to adopt this classification system. Breeders and purchasers stand to gain by it. The number of rams for sale, together with the price and grade, will be listed with the local Live Stock Division.

Boys' and Girls' Sheep Clubs.

In order to create a deeper interest among our farm boys and girls in the business of sheep raising, arrangements have been completed to organize Sheep Clubs in the province. Members must be between the ages of ten to eighteen years. Ten members will constitute a Club. Two grade Shearling ewes will be the number allotted to each. Members can get credit from any bank for purchase price of sheep for one year at 6 per cent. interest. The Department will loan a pure-bred ram to any Club with twenty ewes.

For information on any of the above policies, write

HON. J. F. TWEEDDALE,
Minister,
Fredericton, N. B.

MOVEMENTS
OF THE STARS
IN FILM LAND

Francis X. Bushman and Beverly Bayne have returned to the screen via a big Vitaphone feature called "Daring Hearts."

Eileen Percy, who played the role of the Shower of Gold in Benjamin B. Hampton and Eltinge F. Warner's picture "The Desert Gold" is being showered with congratulations and good wishes following the announcement of her marriage in Los Angeles to Ulrich Busch, grandson of the late Adolphus Busch.

A musical interpretation of the Paramount-Briggs comedies, which are based on the stories told in the Briggs cartoons of child life, "When a Feller Needs a Friend," is being published by one of the Broadway music houses.

Mrs. Sidney Drew and a company of players are at Lake George, N.Y., staging scenes for a new Paramount-Drew comedy entitled "A Sisterly Scheme."

John Cumberland plays the role of Jimmie, Mrs. Drew appears as Jimmie's sister Jolly and Nell Tracy, who made her picture debut in "Bunkered," plays Angie.

J. Stuart Blackton has changed the title of the first production of his new organization from "Moonshine and Shadow" to "My Boy." The latter was considered a more appropriate title for the human interest story involved, the former title giving rise to the belief that the feature was prohibition propaganda, which it is not.

Physicians are not uncommon on the stage and screen. But here is a real doctor in the films who never acted the part of one. Harry Hilliard, formerly Theda Bara's leading man, now appearing in support of Dorothy Phillips in her latest picture, "Destiny," was educated at Miami College, Cincinnati before he decided to become an actor.

Director Wesley Ruggles is back from a vacation and already under way with "Piccadilly Jim," which will be Owen Moore's first star production. Mr. Ruggles recently returned from the war.

An interviewer was told the other day by Geraldine Farrar that to see

THE LADY
AND THE GOLF
TEACHER

(Detroit Free Press)

"Now," said the golf professional to the sweet young thing, "remember you are not chopping wood or handling a flail. It's a golf ball you are trying to hit."

"I know. Isn't it queer that I can't do as you tell me. You've told me a thousand times what I ought to do and I can repeat every word you've said backwards. I know these instructions as well as you do and yet when I get up to hit the ball I seem to forget everything. I suppose I'm the dullest pupil you have."

"Not at all, not at all. You're doing very nicely. Now then slow back with the club. Remember that, slow back."

"There, I did it again. I know better than that. Do you think I will ever learn to play this game?"

"You know I ought to be able to play golf. I've been athletic all my life. I used to throw a ball like a boy; I can row a boat and swim and play tennis, and strength—I'm a regular ox for strength!"

"All right now. Don't drag the club with your body; just throw it at the ball. Here try to hit me—that's your line."

"I really feel that if ever I hit that ball it will go a mile. It's funny I just can't catch that swing."

"You're doing splendidly. Remember to look at the ball please."

"I'm big and husky and seem never to get tired. I ought to be able to play this game as well as Mrs. Whatser-name. You know I was watching her play yesterday. She hasn't any style at all, and yet she certainly does get distance. She just wallops at it and it seems to go. But she digs into the ground, drops her shoulders, and does everything that's wrong. I can't see why she gets such good results when I'm taking lessons and learning how to do it properly and yet the ball doesn't go anywhere."

"Perhaps she follows through. But now try again. Slow back and remember to turn over your wrists."

"Oh yes, my wrists—they're strong and wiry. Perhaps that comes from playing the piano. I could play by the hour, and my wrists would never notice it at all. The other day after I got through with my golf lessons, though, I noticed that my wrists ached. That's funny too. Mrs. Bilson tells me she never thinks about her wrists."

"Just do as I tell you and you'll be able to play all right. Not so fast, not so fast."

"Isn't that queer. It always seems to me that if I am to hit the ball hard I must get force into it."

"That's right lady, but you know the ball isn't on the back of your neck; it's on the ground."

"Of course, how silly of me. I just know I'll never learn to do it."

"Yes, you will."

"I don't want to be an Elaine Rosenthal or a Mrs. Flisk or a regular champion I just want to play well enough to beat Mrs. Mutti. She made 18 holes in 133 the other day and went all over the club bragging about it. She said it would have been 120 easily if she had not taken a twelve on the eighteenth hole, and several other double numbers. Oh dear, is the lesson over already? I wonder if I've learned anything today?"

"I think so. Just practice what I've taught you."

"All right. I'll be here again at 10 o'clock Friday."

SEARCH FOR
BANDITS BEING
CARRIED ON

Sept. 20.—With all the secret and public police services in the country, in the case, the search for the bandit who stole one hundred thousand dollars from the mail coach at the Ottawa limited near Harlaka on Thursday morning, took on renewed vigor yesterday afternoon by the addition of more operatives, who are now scouring the countryside all round Harlaka, Berthier and Montmagny, the scene of the robbery and the getaway of the bandits.

All the authorities admit that no clue whatever has as yet been found to link anybody with the crime.

ceed one must practice rigid economy, toil incessantly and above all be perfectly natural and human. "Why," she laughed, "I still have to work hard. Only this morning I arrived at the studio at ten minutes past seven—the first player here—and I expect to do a lot more hard work. Of course I don't have to get here that early every morning, but you understand what I mean when I say work. I have done that all my life. It pays."

PROGRAM WAS
INTERRUPTED
BY RAIN

Columbus, O., Sept. 20.—With practically a two day card on hand, the Grand Circuit races will start at noon today in the hope of finishing before dark. Left over from yesterday's program, which was interrupted by heavy rain, are the 2.03 pace, not touched, and the 2.15 pace and 2.13 trot with only one heat run.

In addition there are the 2.11 pace, 2.09 trot and the 2.20 trot. Dan J. and Leo Todd will enter the field today with first heats of the 2.15 pace and 2.13 trot already checked up to their credit. The track is expected to be heavy.

SHOPLIFTERS
MADE A HAUL

Montreal, Sept. 20.—That shoplifters take a yearly toll of \$300,000 from the big stores of the city was the estimate of Mr. J. J. Fitzgerald, manager of the Merchants' Association, of Montreal, speaking at a luncheon of the Montreal Publicity Association at Freeman's Hotel yesterday.

PERSONAL.

Dr. A. S. Estey of Calgary, formerly of Keswick Ridge, York County, is spending a few days in the city renewing old acquaintances.

Mr. Walter Irvine left Friday evening for Toronto to take a course at the Toronto Dental College.

Mrs. Mary S. Jones of Moncton who was the guest of Mrs. Mary E. Clark, Brunswick Street, during the exhibition left for Gagetown on Saturday morning.

ADDITIONAL REGULATIONS OF PUBLIC HEALTH DEPT.

(Continued from Page Two)

Board, or any officer appointed or authorized by such Board so to do.

72. Every dairy cow shall be kept clean.

73. In every dairy stable there shall be a sufficient number of windows for its adequate lighting and ventilation. The floor shall be sound and well drained, and the mangers, stall partitions, walls and ceilings, shall be kept clean and whitewashed at least every six months.

74. Drinking troughs or individual drinking basins used for the watering of cows, shall be frequently drained and cleaned.

75. Manure shall be removed from stalls and gutters not less than twice daily, but not within two hours preceding the commencement of milking.

76. Horse manure shall not be used for bedding.

77. In order to prevent dust from settling in the milk, dry fodder shall not be supplied to the cows during, or just before, milking.

78. Manure shall not be permitted to unreasonably accumulate in the barnyard, nor shall it be piled against the stable.

79. No privies shall be allowed within fifty feet of any stable or well.

80. The hands or teats shall not be moistened with milk when milking any cow.

81. Milk strainers shall be kept clean and scalded before using, and if cloth strainers are used, several of them shall be provided in order that they may be frequently changed during the straining of the milk.

82. The pails used for milking shall have as small openings as can be conveniently used, in order to minimize the collection of dust.

83. No can or other receptacle for the containing or handling of milk shall be washed in water, in, or from, any trough, or other receptacle from which any animals are allowed to drink.

84. Milk shall not be strained in the stable.

85. All milk shall be cooled to a temperature of 55 degrees F. immediately after being drawn, and kept thereafter below that temperature.

86. No dairymen or other person shall use any preservative or coloring matter in any milk.

87. No milk drawn from any cow for thirty days before the expected time of parturition, or five days after parturition shall be sold or used as food for man.

88. Cows sick of any disease or suffering from any septic discharges, shall be at once removed from the milking herd.

89. The foregoing regulations numbered from fifty to eighty-eight inclusive, shall apply to dairies and dairymen only, and shall constitute a minimum requirement in any and all regulations relating to milk and dairies, and dairymen, which may be formulated by sub-district Boards under the provisions of the Public Health Act or of these regulations.

Slaughter Houses.

90. No abattoirs or slaughter-houses shall be erected or maintained in any sub-health district unless duly licensed by the sub-district Board of Health concerned.

91. No such license shall be granted or continued by any sub-district Board unless the following minimum conditions are put into being and maintained in connection with the abattoir or slaughter house in question.

92. Every proprietor or occupier of an abattoir or slaughter-house shall cause every animal brought to such place to be slaughtered and confined in any pound, stall, pen or lair, previously to being slaughtered, to be provided during such confinement with a sufficient quantity of wholesome water for drinking purposes.

93. Every such proprietor or occupier shall cause that every practicable means be taken to render the act of slaughtering as painless to the animal as possible.

94. Every such proprietor or occupier shall cause the means of ventilation provided in, or in connection with, such abattoir or slaughter house, to be kept at all times in proper order and efficient action and so that the ventilation shall be by direct communication with the external air.

95. Every such proprietor or occupier shall cause the drainage provided in, or in connection with such abattoir or slaughter house, to be kept at all times in proper order and in efficient action. Said drainage shall be such as to effectually render such abattoir or slaughter house sanitary, in the opinion of the sub-district Board concerned, and the effluent of such drainage shall be so disposed of as not to create a nuisance.

96. Every such proprietor or occupier shall cause every part of the internal surface of the walls and floor or pavement of such abattoir or slaughter-house, to be kept at all times in good order and repair, so as to prevent the absorption therein of any blood or liquid refuse or filth which may

TENDERS FOR COAGULATING BASIN
