Let's not jump to any rash conclusions because some of the German people seem to want the old Kaiser back home. They may desire to throw decayed vegetables at him.

## OF INTEREST TO WOMEN

CAKE SUGGESTIONS.

If you do not want to use as many eggs as the recipe calls for, substitute for one of the eggs a level tablespoonful of cornstarch, which should be sifted with the flour and added at same time.

If you use butter or oleomargarine in making cakes and want to save time in creaming it with the sugar, add two tablespoons of boiling water and deduct this from the liquid called for later. This will melt the butter and will make it possible to cream the sugar and butter in short order.

To prevent cakes from burning, first grease in the usual way and then dredge the pans with flour or, better still, bran.

If the cake sticks after you have turned the pan bottom-side-up, wring a cloth out of cold water and lay it over the bottom of the tin while the latter is still hot. Let it remain a few minutes, then remove and the cake will drop out.

If, in spite of precautions, the cake is burned on the bottom, apply a grater while the cake is still hot, rub gently and the black will come off, leaving a smooth surface which can then be iced.

In order to keep layer cake from slipping apart after being iced, put a toothpick at either side and allow it to remain till the frosting has hardened a little. Be sure to remember to remove it.

In baking a loaf cake, remember that you need quite a slow oven. The temperature should be adjusted before putting the cake in the oven and the doors should be opened as little as possible. Test by spearing with a clean broom straw. If the straw comes out clean the cake is done.

When doing any baking, always think first how many eggs you will need and then break them all at once. If, for instance, you need one egg for the centre of the cake, the white or one for the icing and the yolk for custard or mayonnaise, it is better to break them first, for if you do not make a clean job of separating the white and yolk you can use this inside the cake.

### Spiced Drop Cakes.

Prepare a cake mixture and add 3 tablespoons cocoa, 1 teaspoon of cinnamon, one-half teaspoon of nutmeg, one-half teaspoon of allspice.

Beat to mix and then fill well greased muffin pans half full of the mixture, adding a few currants to each muffin. Bake in a moderate oven for twenty minutes. Ice with chocolate icing.

### Chocolate Icing.

One-half cup of sugar, four tablespoons of cocoa, one tablespoon of cornstarch, one tablespoon of butter and sufficient boiling water to spread.

### For Shortcake.

Bake the cake in an oblong pan in a moderate oven. Cool, split and fill with crushed fruit and top with a meringue made as follows:

Place in a bowl white of one egg, one-half glass of jelly. Beat until very stiff and then pile on the cake. Dust lightly with cinnamon.

Once upon a time a man invented a monstrous lie and clothed it in the habiliments of probability. It went abroad and made the rounds. Later after he had forgotten his invention, it came back to him as the naked truth and he believed it.

## LIFT OFF CORNS!

Freezone is magic! Corns lift off  
with fingers without pain

Hurt? No, not one bit! Just drop a little Freezone on that touchy corn, instantly it stops aching, then you lift that bothersome corn right off. Yes, magic! Costs only a few cents.

Try Freezone! You druggist sells a tiny bottle, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the mysterious other discovery of a Cincinnati genius.

## DEBATE ON BUDGET NEARLY COLLAPSED

Continued from Page Two.

uralization uniform with that of the United Kingdom.

The bill was read a first time.

Nothing in Report.

Sir Robert Borden told Mr. Mackenzie that he knew nothing of a report that the arrested strike leaders of Winnipeg were to be brought to Kingston Penitentiary.

Government counsel at Winnipeg been instructed, he said, that it should take no proceedings for the arrest of these men save under the authority of the Minister of Labor. That authority had evidently been granted.

Nearly Collapsed.

Mr. Wright, Battleford, continuing the budget debate, stated, as an old conservative, it might be argued that he could consistently support the measure of reduction on the tariff contained in the proposals of the government. Coming from a farming constituency, and regarding the interests of the farmer as of prime importance, he could not express satisfaction with the budget. On the other hand, he did not believe that there was one ounce of sincerity in the proposals put forward by the opposition in the McMaster amendment. Therefore, believing that the budget promised a measure of relief, he proposed to support it.

At the conclusion of Mr. Wright's speech, the speaker asked if the House was ready for the question. He was about to put the question, when Mr. W. D. Euler, North Waterloo, arrived in time to save the debate from collapse.
