

# Come on Everybody! Shove the Indicator Forward

**Y**OU dare not let Canada's Prosperity Indicator slip back; you must keep shoving it forward. Every dollar added shoves it over that much nearer to Continued Prosperity.

Great Britain is prepared to place large orders in Canada, but she is temporarily unable to pay cash for them.

Canada can get these orders if she gives Great Britain credit. Canada can give this credit if you provide the money to pay the workers on these orders.

You will provide the money through your purchase of Victory Bonds.

Therefore the more Victory Bonds you buy the more orders Canada will get—the more money there will be to distribute among our workers—the more money there will be put in circulation for the benefit of all.

Canada's Prosperity will be in proportion to Canada's purchase of Victory Bonds.

There are only five more days.

Shove the indicator over into Continued Prosperity.

### SHORT OF BREATH

Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?"

Now when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford N. S., writes: "I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them, three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### WORKMEN IN SWEDEN ARE PROSPEROUS

Hal. O'Flaherty cables the Chicago News as follows:

Stockholm, Sweden, Nov. 3—Sweden profiting by the lessons of the Russian revolution, is working harder and more contentedly than at any other time since 1914, with prospects for the future as bright as, if not brighter than, those of any other nation in the world. Coming here from England, after viewing nearly a year of continual industrial strife, during which time I have watched the whole community suffer, while this trade union or that gained technical points in the matter of wages or hours through the use of strike weapons, Sweden appears to me a haven of peace. No workmen are striking nor are there signs of strikes ahead. Every industry is leaping forward in production, unable to fill a fraction of the orders.

At this time a year ago Sweden suffered intensely as a result of the food shortage, but that condition has been speedily remedied. Every food shop in Stockholm displays such an abundance of good things that it is hard to believe that the Swedes have ever had to eat black bread or do without sugar and butter.

#### Watch Events Across Baltic

It is almost unbelievable to Americans and Englishmen coming here that any country can enjoy such a large measure of prosperity in view of world conditions. Especially is it surprising to find that Swedish labor, hitherto strongly socialistic in its tendencies has not absorbed some bolshevist propaganda, but conditions prove that the men are steadfastly against anything like communism or sovietism. They have watched the progress of affairs across the Baltic and are now content to proceed along constitutional lines, with an organized representative government as their ideal.

Another indication of Sweden's prosperity, evident in almost every part of the country, is the vast amount of building under way. Stockholm undoubtedly has more new buildings under construction than all the rest of the capitals in Europe combined. The civic improvements extend in every direction. The skilled workmen employed in construction express only satisfaction over the conditions generally. They declare that it is possible to live comfortably and support their families upon their earnings. All they ask is that the government shall reduce prices so far as possible.

Swift action by the Swedish government to inaugurate the reforms asked for by the laboring classes is indicated by the program just outlined in the riksdag. It is proposed to alleviate the housing shortage by furthering building loans, building houses for state employees and getting city and state co-operation wherever the shortage is acute.

#### Country Without Profiteers

Now that world peace seems assured, Sweden expects to cut down military and naval training and to limit the conscription of students as well as to fit men. Broadly speaking Sweden is perhaps the only country in the world without profiteers, without restrictions on food, without strikes and without widespread unrest and misery.
