A BRITISH AVIATOR MAKES A SUCCESSFUL FLIGHT TO NORWAY

Covered a Distance of 2,450 Miles in 40 Hours and 40 Minutes—Made Demonstration of the Commercial Use of the Flying Boat—Exhibition and Passenger-Carrying Flights were Carried Out—Valuable Results Expected.

London, Sept. 4.—The air ministry states that the demonstration flight recently carried out to Scandinavian countries by a flying boat of the Royal Air Force proved to be remarkably successful.

Starting from Felixstowe and proceeding via Dundee, the machine flew direct to Norway and landed at Christiansand, this being the first occasion on which this journey has been accomplished by a British flying boat. From Christiansand the trip continued by stage to Christiania, Copenhagen, Stockholm, Gossburg, Esbo, and back to Felixstowe, a total distance of 2,450 sea miles, covered in a total flying time of 40 hours and 40 minutes.

THE FLYING BOAT HAD THE QUEEN OF NORWAY FOR A PASSENGER ON TWO OCCASIONS

The flight was made entirely as a demonstration of the commercial use of the flying boats, and it is noteworthy because no mishap of any kind occurred, despite the fact that from its departure until its return to Felixstowe the machine spent a total of twenty-seven days in the water or in the air.

Exhibition and passenger carrying flights were carried out at Christiania, Christiansand and Copenhagen. A very good impression was created in each of the Scandinavian towns visited, and it is hoped valuable results will accrue to the British aircraft industry in opening up what is perhaps the best market in the world for water-going craft.

The first exhibition flights were made before the King and Queen of Norway, and as the Queen expressed a great desire to fly she was taken up on two occasions seated beside the pilot.

CONTAGIOUS DISEASES SAID TO BE RAGING THROUGHOUT SIBERIA

Ottawa, Sept. 3.—Typhoid, cholera and other contagious diseases are raging throughout Siberia, hospital supplies are pathetically short, food and clothing are difficult to obtain, and stores that in happier times were well stocked with provisions are now almost as bare as Mother Hubbard's cupboard and altogether conditions throughout the whole of Russia are in a most pitiable state. An outline of these conditions was given yesterday to Premier Borden and later to newspapers by Lieut. Col. Douglas D. Young, of Toronto, an officer in the Royal Canadian Dragoons, who has just returned from Siberia, where he went last January as a member of the British military mission, and while there acted as the representative of the Canadian Red Cross Society.

THE PRINCE'S RIGHT HAND GAVE OUT

Algoma, Ont., Sept. 4.—The Prince of Wales at Sudbury yesterday was compelled to give up shaking with the right hand, owing to it's painful condition caused by the heartiness of the grip of the hundreds of Montrealeers who had greeted him yesterday. He had to greet his admirers in Sudbury with a shake of his left hand and give the right a rest.

The same thing occurred after his Toronto visit, though he was not compelled to use his left hand until today. It is said the Duchess of Devonshire, in Ottawa, had to treat the Prince's right hand with a lotion as a consequence of the experience of the Toronto grip.

One of the English journalists yesterday cabled his paper that the Prince of Wales was suffering from the Canadian "grip."

Montreal, Sept. 4.—When the Canadian Pacific Ocean Steamships liner Pretorian sailed from Montreal at day-break this morning, she went as a prison ship for interned Germans, who are being returned to their native country without any particular idea that they will ever come back to Canada. The Pretorian left here with a cargo of grain and package freight, but no passengers. At Quebec she will take on a party of 400 German war prisoners, who are being sent back to the Fatherland. Half of these prisoners of war have come from the internment camp at Kapuskasing and the other half from the internment camp at Amherst, N. S.

A FIFTEEN-YEAR-OLD HUSBAND HALED TO COURT FOR NON-SUPPORT

A Touch of Romance in the Montreal Police Court—Wife is Nineteen—Judge Thought It a Case for the Juvenile Court and Dismissed It.

Montreal, Sept. 4.—There was a touch of romance in the police court here yesterday, when a fifteen-year-old husband appeared on a charge of non-support laid by his nineteen-year-old wife, and the case was dismissed, Judge Lanctot, who presided, deciding that the accused was a fit subject for the juvenile court. According to what was stated before the court by counsel of both sides, as no evidence was heard, it appears that in April last, Rene Jutras, fifteen years old, met the young woman while emerging from a moving picture house on St. Ladrence boulevard, and invited her to witness another performance with him. The invitation was accepted.

The couple became infatuated with each other, and after a few days of courtship Rene Jutras and the girl, Lina Gatten, eloped. They took a train to Quebec, where, after a stay of two weeks, they were married by a priest of St. Roch's parish.

The honeymoon was short, and the young couple soon had to return to Montreal. On their arrival here the young husband was summoned before the juvenile court on a charge laid by his mother. He appeared before Judge Choquet, who on being given evidence that a regular marriage had taken place, advised the mother to put up with it.

Then Rene Jutras went to his mother's shelter and took to making bread, as he was a baker by trade. This arrangement did not agree with the young woman, who had also to go back to her parents. The result was that a complaint for non-support was laid, which led to the appearance in court yesterday of the fifteen-year-old husband before Judge Lanctot.

HUNS DO NOT LOOK WITH FAVOR ON ALLIED PROPOSAL TO ALTER THEIR CONSTITUTION

Berlin, Sept. 4.—The Tagleische Rundschau declares today that the demand by the Entente that the German constitution be altered, is hardly calculated to induce the German people to respect their new charter, and warns the Supreme Council of the danger of precipitating a new internal disruption.

BRITISH OFFICER SAYS THAT AFFAIRS IN NORTH RUSSIA ARE MORE SATISFACTORY THAN LAST YEAR

London, Sept. 4.—Some interesting details have been received by Reuters regarding the present situation of the Murmansk expeditionary force from a British officer, who recently returned from North Russia for demobilization.

The troops are now in excellent spirits, he says, and the splendid summer weather, which is so much appreciated after the dreary Arctic winter, has had a very encouraging effect on the morale of the whole force.

The general state of affairs in north Russia appears more satisfactory than last year, while the railway services on the Murmansk front have been greatly improved by the importation of a number of engines.

Summary vengeance exacted by the British for the murder of a British officer, whose body was found shot and frozen stiff in a ditch at Murmansk last Christmas morning, has had an excellent effect upon the lawless element of the civil population. Three men confessed to the crime and were condemned to death and sentence was carried out by a joint Russian and British firing party.
