

STERN REMINDERS OF RHEUMATISM

Cold or Wet Weather may Start the Pains, but the Trouble is in the Blood.

Every rheumatic sufferer should realize that rheumatism is rooted in the blood and can only be cured by a treatment that will cleanse the blood of the rheumatic poisons. The old-time belief that rheumatism was caused by cold, damp weather, is now exploded. Such weather conditions may start the aches and pains, but is not the real cause. Liniments and outward applications may give temporary relief, but cannot cure the trouble, because they do not reach its source in the blood. The sufferer from rheumatism who experiments with outward applications is only wasting valuable time and good money in depending upon such treatment, the trouble still remains, and it is all the time becoming more firmly rooted—harder to cure when the proper treatment is applied. Treat this disease through the blood and you will soon be rid of the pains and tortures. As a cure for rheumatism Dr. Williams' Pink Pills are unequalled. They act directly on the impure, weak blood; they purify and strengthen it, and so root out the cause of rheumatism. Mr. D. Lewis, postmaster at Escuminac, N. B., says: "I was attacked with rheumatism, which settled in my elbow, shoulder and knee joints, and at times caused me great suffering. The trouble was particularly severe last spring and I decided to try Dr. Williams' Pink Pills. After taking the pills for some time the rheumatic pains and stiffness in the joints disappeared and I have not since had any return of the trouble." If you are suffering from rheumatism, or any trouble due to poor blood and weak nerves, you will find a cure in a fair use of Dr. Williams' Pink Pills. You can procure these pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Lemons Beautify!

Strain lemon juice well before mixing and massage face, neck, arms, hands.

Here is told how to prepare an inexpensive lemon lotion which can be used to bring back to any skin the sweet freshness of which it has been robbed by trying atmospheric conditions. Wind-chafe, roughness, tan and redness are washed off and those tell-tale lines of care or of age are softened away.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white, makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothen and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart of this sweetly fragrant lemon-lotion, and massage it daily into the face, neck, arms and hands, and see for yourself.

WON THE SKI CHAMPIONSHIP OF CANADA

Remarkable Race Won at Ottawa by Nephew of Mr. W. E. Seery, of Fredericton.

The following from the Ottawa Journal relates to the winning of the ski championship by E. C. Condon, a nephew of Mr. W. E. Seery, of this city:

E. C. Condon, a 17 year old lad, won the ski championship of the city Sunday morning on the heights of Kingsmere, covering the seven miles of icy course, through bush and clearings, in the remarkable time of an hour, 2 minutes and 19 seconds, defeating all the winners of the first meet at Ironsides and several ski veterans besides, thereby winning the great trophy cup made and donated by Sigurd Lockenberg. Labelle, another young skier of 19, came in second and O'Neill third. There was only a difference of three minutes between the first man and the fourth.

To say the result was a surprise is putting it mildly. Merritt Putnam, after his performance over the Ironside train, was looked upon as a sure winner, and perhaps would have fulfilled expectations had he not, at the last minute discarded his old and trusty boots to take new and untried ones. A dozen times during the race he had to go through the disheartening process of chasing his ski down a steep ravine and putting it on again.

Loa, who had strained his back in jumping during the week and was under the doctor's orders not to run, only went as far as the first gully and came home again.

Five men completed the race within ten minutes of the winner's time—Labelle, O'Neill, Putnam, Baker and Garlick. Specially creditable is Baker's time, who ran without the use of sticks.

But if luck favored young Condon by the fact that one of his most redoubtable opponents was badly handicapped, he nevertheless deserves great credit as his time was very good.

PROGRESS THE WATCHWORD

Sir Edmund Walker, President of the Canadian Bank of Commerce, in his annual address to the stockholders of that great financial institution, said:

"Progress appears to be the watchword in New Brunswick. The Department of Agriculture has the whole hearted support of the Government, and is giving the farmers of the province inspiring leadership. This is evidenced by a general increase in production, the amount of land cultivated in 1918 being 125,000 acres more than in 1917. Of this increase 33,000 acres were planted in oats, 34,000 acres (or 200 per cent increase) in wheat, and 13,000 acres in turnips and potatoes. The potato crop is estimated at 8,650,000 bushels, somewhat below the average, but 50 per cent. more than in 1917. The yield of hay was good and that of oats and wheat excellent, but of only fair quality owing to the bad weather which prevailed during harvesting. Reference was made in our report last year to the effort being made under government auspices to improve the quality and number of live stock. This policy has been continued, with specially good success in the case of sheep."

TO ADVERTISE THE PROVINCE

The New Brunswick Tourist Association is asking for the co-operation of all sections of the Province, in a plan to make the Province better known, by a general Forward Co-Operative Movement this year; in which special emphasis would be laid upon the opportunities for Tourists, Sportsmen and Hunters, as well as on the business opportunities contained in its Forests, Mines and Farms.

It is proposed early in May to hold a convention at a point to be decided upon, where the time would be devoted to the inspection of local attractions, to displaying moving pictures of

Forest, and Hunting scenes, as well as of farming, Lumbering, and Mining; to talks by outstanding men, and to a banquet at which there would also be stimulating addresses. The plan has the approval of the Provincial Authorities, who have promised to assist with screens covering the above resources.

The various boards of trade, Tourist Associations, and kindred organizations throughout the Province, are being asked to co-operate in the movement, the intention being to hold these meetings yearly at different points.

WE were among the first to put up tea in sealed packages.

We were the first to use automatic electric weighing machines so as to insure accurate weights.

We were the first to make known the qualities of the now world-famous ASSAM teas.

And we are now the first to adopt a new package for the better protection of these fine quality teas.

The lead package has served its purpose well for generations, but it was easily broken or torn, allowing not only a loss of tea from the package but exposing the tea to the air, odors and dust that it was so necessary to protect the tea against.

Our new package—the waxed board carton—is stronger, more secure and more completely air tight; altogether the best container for tea that has yet been devised.
