MUST REPUDIATE THE LABOR MEN WHO PREACH SEDITIONS DOCTRINE

Important Speech by the President of the Canadian Manufacturers' Association at the Annual Meeting Which Opened Today at Toronto—All Parts of Canada Represented—Russian Doctrines are Not Wanted in Canada.

Toronto, June 10.—"If this country is to retain confidence in organized labor, the trades and labor unions will have to denounce any of their members who hold and preach seditious doctrines that are repugnant to the common sense of the Canadian People," said W. J. Bulman, of Winnipeg, president of the Canadian Manufacturers' Association in the course of his address at the forty-eighth annual meeting of the Association which opened here today. All parts of Canada are represented in the gathering, although the attendance from the western provinces was smaller than usual owing to industrial disturbances.

**EXTREMISTS AMONG EMPLOYEES HAVE MADE
THEIR APPEARANCE AND ARE HARD TO DEAL WITH**

The President reminded the Association that while Canada had passed through the war and part of the demobilization there was still a period of readjustment from war to peace. While the general result of negotiations between employers and employees had been satisfactory extreme elements revolutionary in methods and speech, had made their appearance and were hard to deal with. The Manufacturers Association does not take the view that the Canadian Industrial System is perfect, said the President, but prefers to improve upon it by the British, not the Russian way.

Public ownership of Railways was declared by Mr. Bulman on a "Great experiment," and the opinion was expressed that it might be found necessary for the Government to take over the Grand Trunk also. The extension of the principle of Government ownership to the C. P. R. would, however, endanger the success of the whole undertaking, by preventing competition, he said.

**EXPORT TRADE OF CANADA MUST INCREASE FOR
HER WAR OBLIGATIONS ARE TO BE PAID**

The work of the Canadian mission to London was eulogized by the President. Canada's export trade must be greatly increased, said the President, if her war debts are to be paid and the only satisfaction of the Canadian people, he said, lies not in doing class work, as advocated by some people but in thrift and a greatly increased industry on the part of all classes of the people, of the country. "We can state from our experience during the past six months," said Mr. Bulman, "our firm belief that the majority of Canadian Industrial workers are reasonable people, and that the views can be met without undue hardship to industry."

**LABOR EXTREMISTS IMPREGNATED WITH IDEA
WHICH BROUGHT ABOUT DOWNFALL OF RUSSIA**

While the general result of our negotiations with employees has been satisfactory, in one particular, we have failed entirely, and that is in dealing with the extreme element which has made its appearance for the first time in Canadian history. These extremists are impregnated with the ideas which brought about the Russian trouble. Briefly, they consider that only certain manual laborers have any rights either to control property or to have any share in the Government. They believe that all other classes should be abolished, or brought under the control of their committees. They do not believe in private property, or bank interest or capital. All these things should be abolished. If this country is to retain confidence in organized labor, the trades and labor unions will have to denounce any of their members who hold and

NO REDUCTION IN PRICES FOR CLOTHING

Hamilton, Ont., June 10.—Clothing manufacturers and retailers here say the report sent out by the Labor Department at Ottawa that prices are likely to be materially reduced and that cloth manufacturers have reduced their prices are incorrect. LUMBER BURNED AT NEWCASTLE

Newcastle, June 9.—A serious fire broke out in the lumber yard of the Edward Sinclair Lumber Co. this afternoon about 1.30 and was so serious that a call for assistance was sent to Chatham for fire apparatus, which was quickly responded to. Together with the Newcastle department the firemen fought gallantly against the blaze, with the result that late this evening the fire was well under control. Fortunately the flames did not reach the mill, but were confined by the efforts of the fire fighters to the lumber piles. The loss is about \$50,000. The mill has been in operation since May 6. The lumber yard was only partly destroyed.

THE POLICE FORCE OF WINNIPEG IS NOW BEING REORGANIZED

**All Policemen Who Refused to Take an Oath That They Would
Not Join a Sympathetic Strike Were Discharged—Returned
Soldiers are Acting.**

Winnipeg, Man., June 10.—Reorganization of the Winnipeg police force was begun today, the city having discharged late yesterday all policemen who refused to sign an oath not to join a sympathetic strike hereafter.

Meanwhile protection was being given by several hundred special constables recruited from returned soldiers.

At a storm meeting of the City Council which lasted until after midnight, \$150,000 was appropriated to pay the special police force. During the debate one alderman, a labor leader, admitted that many union men had already returned to work. Further desertions from the ranks of the strikers were predicted today by members of the Citizens' Committee.

The sympathetic strike of Winnipeg iron workers, which began on May 15, was considered broken today so far as its effort upon civil welfare and convenience is concerned. It was estimated that about one-third of the men and women involved in the sympathetic walkout have returned to work and that many others have applied for their former positions.

**Impression Prevails in Parliamentary Circles that
He will Find that it is in Order—Should His
Decision be Otherwise, no Vote Can be Taken
on the Amendment—Grain Growers Prepared
to go Farther Than Liberals in Demand for
a Tariff Revision Downwards.**

Ottawa, June 10.—The impression prevails in parliamentary circles today that the Speaker of the Commons will rule that the debate on Mr. A. R. McMaster's amendment to Sir Thomas White's tariff proposals is in order and may be proceeded with. Should the decision of the Speaker be otherwise the amendment would have to be dropped and could not be replaced by another because of the tariff resolution moved by Mr. McMaster and debated earlier in the session. This would mean that no vote could be taken.

**WESTERN FREE TRADERS ARE NOT SATISFIED
WITH THE BUDGET OR McMASTER AMENDMENT**

The western unionists' low tariff group are not satisfied either with the tariff proposals in the budget or Mr. McMaster's general amendment. They are in a quandary because under the rules of the House an amendment to an amendment cannot be introduced on the motion to into committee on ways and means. If a sub-amendment cannot be moved, the grain growers would be prepared to go considerably further than Mr. McMaster has gone, but they are tied up by the rules.

The Speaker's ruling, which is expected when the House resumes this afternoon, is being awaited with considerable anxiety by the members. If the Franchise Act is laid over, the House will prorogue about July 1st.

WANTS A DOWNWARD REVISION.

The debate in the House yesterday was featured by the introduction by A. R. McMaster, of Brome, of a namendment criticising the budget proposals and calling for free food, free machinery for the development of natural resources, free raw material for manufacture, reduction of customs duties on necessities of life, as may be expedient and just to all interests, acceptance of the reciprocity agreement with the United States, and a general revision downward of the tariff.
