Her clothes were in a heap close at hand. Her husband who returned home at 2:30 a. m.. said that until daylight he had walked the streets hunting for his wife. A Delegation Will Urge Lloyd George to Bring About a Complete Nationalization of Mines— Mr. J. H. Thomas is Head of the Delegation-Premier on Record as Being Opposed to Acceptance of Coal Commission's Report.

London, Oct. 9.—With the country not yet fully recovered from the effects of the railroad strike, British miners will take the stage today, when a deputation will call on Premier Lloyd

son, Thomas W. Sansom, 113 George mittee. This step was taken in accordance with a resolution adopted at the recent Trades Union Congress, which pledged the Congress to co-operate with the Miners' Federation in compelling the government to accept the majority report submitted by the coal commission headed by Sir John Sankey.

COUNTRY MAY SOON BE CALLED UPON TO FACE ANOTHER PERIOD OF INDUSTRIAL FERMENT

It will be recalled that the Premier, before parliament adourned, announced the government's decision not to accept the majority report, which recommended shorter hours, higher wages and reform in ownership, but said the government would merely nationalize minerals, with a sort of joint control of the

If Mr. Lloyd George reiterates this decision today and refuses to accept nationalization, as it is assumed he will, a special trades union congress will be convened to decide upon the action to be taken by the miners to enforce their demands.

The situation is commented upon speculatively in the light of the recent railroad strike, opinions differing as to whether the country may be called upon to face another period of in-. dustrial turmoil. The Mail's labor correspondent says:
