AGRICULTURAL SOCIETY ELECTS SAME OFFICERS; HONORARIUM FOR TREASURER AND SECRETARY

**Bonds Required for These Officials at Their Own Request—
Refund of Entrance Fees in Some Cases—Two New Di-
rectors Welcomed—Discussion Over the Expenses of Light-
ing—Other Matters Dealt With.**

The directors of Agricultural Society No. 34 met yesterday and elected officers for the ensuing year besides transacting other business. The same officers were re-elected. A new departure was the decision to give an honorarium to the secretary and treasurer for the alternate years in which no exhibition is held also to require bonds for those two officials. This latter was at the suggestion of the two officials concerned, Messrs Hooper and Chestnut.

Officers Elected

The officers re-elected are as follows:

Honorary President, John A. Campbell, ex-M. P. P.

President, William McKay.

Vice-President, W. E. Farrell.

Secretary, W. S. Hooper.

Treasurer, C. F. Chestnut.

President McKay in welcoming two new members to the directorate, W. A. VanWart and Ald T. S. Wilkinson, ex-

\$220 was for the Free-for-All and \$140 for the \$2.20.

To Bond Officials

Carrying out a bylaw adopted at the annual meeting of the Society it was decided to have the secretary and the treasurer held in fidelity bonds for \$2,500 each.

Matter of Lighting

A lengthy discussion took place on the question of who should pay for the lighting of booths and other exhibits at the exhibition—the Society or the exhibitor. Some of the exhibitors took the ground that the Society should pay all while the secretary maintained that the society might be called upon to pay ordinary lighting displays of greater or less extent. In conclusion the secretary was instructed to collect in full all accounts handed him by the Lighting Committee.

SERIOUSNESS OF FUEL SITUATION IN CANADA

Ottawa, Dec. 3—"The fuel situation in Canada was never as grave at any time during the war as it is at the present moment" declared C. A. Magrath, dominion fuel controller, in an appeal to the public for fuel conservation. He draws attention to the fact that Canada has received practically no soft coal during the month of November and that the allotment of 150 cars a day which has been made is extremely small as compared with normal imports. From present appearances, he says, all that can be expected is to keep the public utilities and in situations supplied with fuel, in addition to meeting the domestic needs. Many industries may have to close down before we are well into the winter.

Mr. Magrath draws attention to the fact that he could call upon the government to pass regulations limiting the use of fuel as was done during the war. He believes however that an appeal to the public setting forth the gravity of the situation will result in the fullest possible response, and he, therefore resorts to this means.

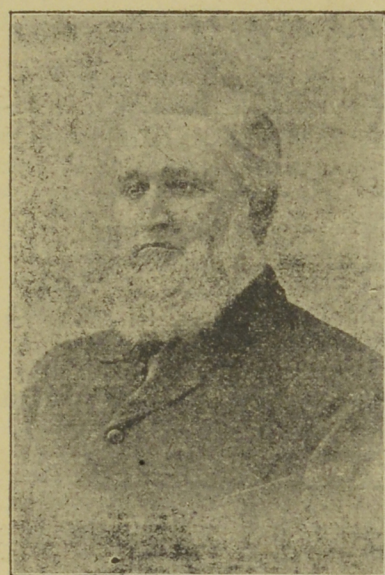

His Statement

The statement given out by him this evening follows:

"While I have made two appeals to the public to conserve fuel in every possible way in view of the existing coal strike in the United States I will admit that I believed that the dispute would have been settled before this. Finally I concluded to wait for three days in the present month and see if the miners would accept the increase of fourteen per cent offered, and effective from the first instant. There is no evidence of the miners returning to work and the public of central Canada depending upon supplies from the United States may as well face the facts.

"We have received practically no soft coal during the month of November and are now being allotted 150 cars per day whereas had no strike occurred we probably would have imported during the months of November and December at least two million tons. Even should the miners return to work in a few days, we have lost so much tonnage that the situation is now serious, and will become quite critical. It never was as grave at any time during the war as it is at the present moment; and there is but one thing for our people to do and that is to restrict the use of coal in every possible way. I could call on the government to pass regulations limiting the use of fuel as was done during the war, but I believe it is only necessary for me to make this appeal, and that the public will respond to the fullest extent. I assume for instance that sign displays have already disappeared. If not let the use of coal for such purposes cease immediately and street lighting likewise should be reduced to a minimum. I repeat the situation never was more grave. I have confidence that I have only to state the facts and there will be a prompt response. From present appearances all that can be expected is to meet the domestic needs and keep the public utilities and public institutions supplied with fuel. It is quite evident, however, that many industries may have to close down before we are well into the winter."

Mr. Olive Pugh of St. John is spending a few days with his parents Mr. and Mrs. George Pugh of Nashwaak-sis.

JOHN A. CAMPBELL
Honorary President, Agricultural Society No. 34.

pressed the hope that they would give better attention to the meetings and business than had some of the previous directors.

Honorariums Voted

In the past the Society in years in which no exhibitions were held did not pay salaries to the secretary and treasurer but after discussion it was deemed wise in view of the heavy increase in duties of both officials, to vote a small honorarium to both during the coming year.

Refund of Entrance Fees

The secretary reported that some intending exhibitors had been unable to attend the exhibition and some exhibits had been delayed in shipment until after the judging in their respective classes had been completed. In view of this statement it was considered advisable to refund the entrance fees in such cases.

For Park Association

In accordance with a resolution passed at a directors' meeting in June last the sum of \$360 was ordered to be paid to the Fredericton Park Association to make up the stakes in the Free-for-All and 220 Trot and Pace of the Exhibition Harness Meet. Of that sum

BAD COLD LEFT HIM WITH BRONCHITIS

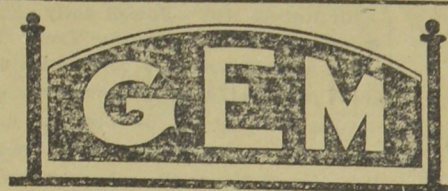

However slight a cold you have you should never neglect it; if you do it can have but one result. It leaves the throat or lungs, or both, affected.

Bronchitis is one of the most common affections of a neglected cold, and neglected bronchitis is the most general cause of consumption.

Dr. Wood's Norway Pine Syrup is just the remedy you require to cure the bronchitis. It does this by loosening phlegm and mucous, and stimulates the weakened bronchial organs, allays irritation and subdues inflammation, soothes and heals the irritated parts and thus prevents it becoming chronic.

Mr. R. P. Sundblad, Francis, Sask., writes: "I had a very bad cold which left me with bronchitis. I tried several cough remedies and oils of all kinds, but they all failed. At last I got Dr. Wood's Norway Pine Syrup and after using two bottles I have never had a sign of bronchitis since. I therefore can honestly recommend it for coughs and colds."

Don't accept a substitute for Dr. Wood's. The genuine is put up in a yellow wrapper; 3 piece tins the trade mark; price 25c. and 50c. Manufactured by The T. Milburn Co., Limited, Toronto, Ont.

"Bill Apperson's Boy"

From the story "That Woman," by Hapsburg Liebe,
Directed by Jas. W. Kirkwood.

A FIRST NATIONAL ATTRACTION

Out into the world he went, turning his back on his home and father, because he could not bear to see his dead mother's place taken by another woman.

Away from the home nest he faced the world of stern facts—suffered from hatred and envy, fought them with a fierce young enthusiasm and came at last to manhood's realization of life.
