that prevents a man's slumbers from
being disturbed by his own snores.

A NEW ASSET IN POLITICS

The Toronto Saturday Night thinks the farmers of Eastern Canada are in a class by themselves as tax dodgers. It quotes the Toronto Globe as saying that tax collectors in the different provinces found only 4 farmers in New Brunswick with taxable incomes, 12 in Nova Scotia, 30 in Quebec and 396 in Ontario, while in Alberta they found 2,826 and in Manitoba 1,454. Those who are under the impression that the farmers of New Brunswick are rolling up wealth will be astonished to learn that only 4 of them last year had incomes in excess of \$2,500. It may be that the farmers misinterpreted the instructions sent out from Ottawa and prepared statements showing the net income instead of the gross income.

No matter how bad a man is, his wife firmly believes in his good intentions.

A woman who is popular with other women is seldom a reigning favorite with men.

"Wonderful strides have been made in lawn mowers," remarked the man on the car, "self-adjusting, self-sharpening and self-everything except self-pushing."

Germany's refusal to sign the peace terms would make a big news story; but unless the envoys are ambitious to do something more foolish than the men who started the war they will not refuse.

INSURANCE WILL EXTEND TO TRAFFIC IN THE AIR

An American Company Now Ready to Take Risks on Aerial Traffic—Was the First Company to Write an Automobile Policy—Aviation is Now a Practical Instrument of Commerce—Sky Flivvering May Soon Become Common.

New York, May 15.—American insurance companies are preparing to extend their business to the covering of all risks in aerial traffic. The first American company to write an automobile policy has already announced itself ready to insure those persons who are about to abandon the motor car and take to the air.

English insurance men were in the field first with air policies and English syndicates are offering to cover aircraft—that is, recognized makes of up-to-date machines flying between recognized airdromes—against damage from fire or accident, including rising or landing, at five shillings per cent upward, according to the flight. American companies, however, expect to be early in the field with a comprehensive air insurance programme.

Aviation flashed ahead during the war, and with the veil of war secrecy lifting, the public is coming to see that aviation is now most practical instrument of commerce, sport and pastime. Designers are now busily planning omnibuses, trucks and Fords of the air.

Flying for sport, aerial forest patrol, why every city should have its own air police, and the part to be played by aircraft in city flying are now topics of earnest matter-of-fact discussion. This being so, it is natural that the American insurance business feels itself at last compelled to take to the air.

Plane Flivvering to Come.

The prediction is freely made that the day has come when the man who owns an automobile will also want a plane. Sky-flivvering in the next few years is expected to assume all the importance of the old surface-flivvering. Insurance men, thus, say the motoring public, will find the first air-plane policies fashioned on the same lines as their automobile covers. The American business man had read much of the thrilling work of the "aces," or he went to war and became himself an "ace" and now his sporting blood is up for the king of sports, flying.

The Travelers Insurance Company has announced that it will write insurance policies. The Aetna Life is now drafting air policy forms. Other companies are bound, it is said, to follow in the footsteps of these pioneers.

Among the forms of proposed air covers are one-year term life insurance and accident insurance for owners, passengers and pilots; also compensation insurance for employees required to fly; public liability for injuries caused by planes because of landings or by articles dropped from a plane, and a property damage insurance for injuries to property of others.

TABLE OF WEIGHTS AND MEASURES.

4 teaspoons of a liquid equal 1 table-
spoon.
4 tablespoons of a liquid equal ½ gill
or ¼ cup.
½ cup equals 1 gill.
2 gills equal one cup.
2 cups equal 1 pint.
2 pints (4 cups) equal 1 quart.
4 cups of flour equal 1 pound, or 1
quart.
2 cups of butter, solid, equals 1 lb.
½ cup of butter, solid, equals ¼ lb.
or 4 ounces.
2 cups of granulated sugar equal 1 lb.
2½ cups of powdered sugar equal 1 lb.
1 pint of milk or water equals 1 lb.
1 pint of chopped meat equals 1 lb.
10 eggs, shelled, equal 1 pound.
4 tablespoons of flour equal 1 ounce.
8 eggs with shells equal 1 pound.
2 tablespoons of butter equal 1 ounce.
2 tablespoons of granulated sugar
equal 1 ounce.
4 tablespoons of butter equal 2 ounces
or ¼ cup.
4 tablespoons of coffee equal 1 ounce.
1 tablespoon of liquid equals a half
ounce.

price. Non-patented (free). THE WOOD
MEDICINE CO., TORONTO, ONT. (Toronto, Canada.)

Pimples Broke Out All Over Face, Arms and Neck

Pimples are a sure sign that the blood is not in its proper shape. While the skin is the seat of the irritating, unsightly pimples, the real disease is in the blood.

Medicated lotions and powders may allay the itching and irritation, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and the skin permanently injured by their use. The disease is more than skin deep; the entire circulation is poisoned.

Burdock Blood Bitters quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions.

B. B. B. cures permanently because it leaves none of the original poison to ferment in the blood and cause a fresh attack.

Mrs. E. M. Dendson Daysland, Alta., writes:—"Last summer I was greatly troubled with pimples breaking out all over my face, arms and neck. I was advised to try Burdock Blood Bitters, and after taking two bottles, the pimples had almost all disappeared. I shall always recommend this remedy to anyone afflicted with skin troubles."

B. B. B. is manufactured only by The T. Milburn Co., Limited, Toronto Ontario.

a tariff, but against high protection, is regarded as facilitating Sir Thomas White's troubles with the Western Unionists, who thus are given to understand that while the East may vary as to the degree of the tariff, both parties are committed to the principle.

While the Franchise Act has never been brought down or even decided by the government, the suggestion that it may go over till next year is not much entertained. With the war over, it is felt that the War Time Election Act needs to be repealed and replaced by another, even if certain of the present conditions are perpetuated.

No provision is yet made for women's votes, and other aspects suggest no delay in taking action, because there is no telling what political upheaval a year may bring forth.

Some sharp division in and out of the cabinet as to the form of the franchise has been reported, but the prospect is now said to be favorable to the reconciling of these diverse views.

The situation generally leads to the conclusion that after three months Parliament's work is far removed from the concluding stage.

Many a man lives a cat-and-dog life. He purrs in the parlor and barks in the kitchen.

Rules without exception are rare. As a contradiction to the idea that a thing of beauty is a joy forever, this column wishes once more to call attention to the Ben Davis apple.

DOMINION PARLIAMENT HAS MUCH WORK YET

Ottawa, May 15.—Apparently there is no rest for the weary in Parliament—at least it is not in sight.

The House has put on steam of late and made progress beyond the degree that it is credited with, but the evident inclination of the government to await Sir Robert Borden's return, the uncertainty of this and the really controversial business yet to come, suggest that, with the Premier's additional grist, the session will run into the summer.

There has been talk, as always, of cutting things short and having a fall session, but the government considers winter the proper time and is not inclined to an earlier date.

While Parliament is here, the proposal is that it complete what it has undertaken.

In many quarters, D. D. McKenzie's declaration the other day in favor of
