THE VICTORY LOAN

The Canadian people have shown their aptitude for doing things in a big way in war as well as peace. Their war effort in proportion to their population has won the admiration of the whole world. Their generosity to the returned soldier in this epoch of reconstruction is unexampled in other lands. They have been able to do these things because they are not only an enthusiastic but a thoroughly business like people. They have so managed their affairs that a splendid war effort in Europe has gone hand-in-hand with prosperity at home. The financial policies of the government have resulted in a great expansion of Canadian trade which did not shrink so any serious extent after the advent of peace. But these policies would have been useless and abortive had the thrifty people of Canada not shown confidence in their country by vast subscriptions to popular loans.

Canadians must continue to do things in a big way. They cannot say "We will quit now" any more than the cwner of a great industry can afford to suddenly shut up shop. To enable Canada to carry on, the Victory Loan of 1919 must be subscribed on a large scale: and it is up to every Canadian the cause along with his cash, his enthusiasm and his optimism.

### + AN OLD TIME LIBERAL.

The Woodstock correspondent of the St. John Standard on Oct. 13th had the following to say of Mr. Caldwell the U. F. O. candidate who won the by-election this week:

"A new and untried contestant "tosses a hat into the ring in the "United Farmers. They are pushing "forth a candidate in the person of "Thomas Caldwell, who is at the head "of that organization. He is a rugged "Liberal of the old school, who had "much rather talk Liberalism than "discuss the best methods of making "two blades of grass grow where one "formerly blossomed. He was always "looked upon as a rank partisan. When "his candidacy was first announced the "old school of Liberals chuckled and "felt all was safe. In fact, it was "quietly talked that Liberals would "unite in support of the farmers' can-

Fortunate possessors of Victory Bonds (and that means all of us) are cutting a melon on November 1st. Eighteen million dollars in interest is being distributed to buyers of bonds There is only one thing to do with that money. Put it back where it came from-let it earn more money. No matter how small, the interest cheque can be used. The easiest way is to make it the basis for the purchase of another bond. If everyone did this as an addition to their regular purchases, a hundred millions extra would be loaned to the country for the purchase of wiping off war bills and building up business.

Montreal Star: The average Canadian constituency does not like to elect members for the opposition benches. The government's chances in a byelection on any issue are easily two to one better than in a general contest, when its fate is in jeopardy. By all the rules and precedents of the political game yesterday's verdict means the death sentence of the Federal government as at present constituted if band. its policies are persisted in.

Philadelphia Record: Hugh Walpole, the English novelist, who has just arrived in this country, has rather neatly expressed a great truth. In an interview he said: "The glory and the heroism of the deaths of men who

### REBELLION IN STOMACH

'Pape's Diapepsin' at once ends Indigestion and Sour, Acid Stomach

Lumps of undigested food cause sour; head dizzy and aches; belch Pape's Diapepsin to help neutralize acidity and in five minutes you wonder what became of the pain, acidity, indigestion and distress, If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless stomach antacid is Pape's Diapepsin, which costs so little at drug stores.

saddening realization that the world, which they had thought would be finer through the sacrifices of young men like theirs, is not finer at all." There's the great pity of it.

Mr. J. L. McVey, who is described as a farmer candidate, was elected to the Kings County Council from the Parish of Norton on Tuesday. The St. John papers refer to it as an unusual thing. Here in York county the electors have been sending farmer candidates to the Municipal Council for over fifty years.

There's nothing truer than a sister's love for some other chap.

Slippery politicians are now inquir ng how they can get into the United Farmers' Association.

With the exception of a fussy woman here is nothing on earth so disagree able as a fussy man.

The success of the farmer in politics is likely to give an impetus to the back to the land movement.

Look on the bright side; with meat at the present price there will be none left over for hash. No woman's children were ever so bad and troublesome that this influ-
