IRELAND WELCOMES DARING AVIATORS WHO BRIDGED THE ATLANTIC

Great Crowd at Dublin Railway Station to Greet Them—Borne from Train to Waiting Automobiles—Capt. Alcock is None the Worse for His Thrilling Experience, but Lieut. Brown Seems to be Fatigued.

Dublin, June 16—A tumultuous welcome was given Capt. Alcock and Lieut. Brown on their arrival here tonight. When the train entered the Broad Street Station cheering crowds fairly mobbed the car, lifting them out and carrying them on sturdy shoulders to waiting automobiles. A procession was formed and traversed the Main Streets to a hotel where Alcock and Brown spent the night preparatory to their start for London tomorrow. On the train late today Captain Alcock looked remarkably well and was in buoyant spirits.

"If I am due for a reaction from the strain and excitement of the flight, it is a long time coming," he laughed in a matter of fact way. Then he scribbled an autograph for a girl. On the other hand Lieut. Brown seemed greatly fatigued, and frankly admitted it.

CAPT. ALCOCK SAYS THE AIRPLANE IS NOT THE PROPER MACHINE FOR TRANS-ATLANTIC FLIGHT

The biggest reception the aviators got along the road was at Mullinger, where the soldiers from the garrison with a band swelled the crowd of towns-people.

The outstanding conviction of the flight impressed upon Captain Alcock as he remarked to the correspondent, is that the airplane in its present state of development is not the type of machine for a trans-atlantic voyage. "The next time I cross the ocean," he said, "it will be in a flying boat. I foresee in flying boats a great future both as passenger and commerce carriers." On his side Lieut. Brown remarked that the lesson gained was that marine navigation is entirely applicable to airplanes.

"There is no little amount of luck in the success of the N. C. 4 or our flight," he declared, "so far as we are concerned, it could not have been worse in our case, for after the first hour we were smothered in fog until we landed in Ireland. Nevertheless, with only a sextant and a compass and a special device for determining the machine's speed and drift, we came through. And I am sure we could do it again."

PREMIER LLOYD GEORGE SENDS TELEGRAM OF CONGRATULATIONS TO THE INTREPID AVIATORS

London June 17—David Lloyd George, the Prime Minister, has sent from Paris the following telegram to Captain Alcock: "Heartiest congratulations to you and Lieut. Brown on your audacious and successful flight. It is a splendid achievement."

"I am especially delighted that two British officers who fought in the war should have been the first to link Europe and America in a single non-stop flight."

LIB. MAJORITY IN QUEBEC BY ACCLAMATION

Montreal, June 17.—Sir Lomer Gouin's Liberal government was practically returned to power yesterday at the nominations for the provincial elections. This is the first time in the history of the provincial or federal elections in Canada that a government has been able to secure a majority of the members by acclamation.

In some divisions where there are contests both or more candidates claim to be Liberals, either favoring the government or running as independent because of the fact that another Liberal has been officially endorsed as the candidate, but in these cases such independent Liberal candidates will probably join the government forces if elected to the Assembly.

Lack of organization due to the shortness of notice given, and the absence of means for a general contest, were responsible for the fact that there was no organized opposition to the Gouin forces or anything like a general fight.

With the exception of Hon. Napoleon Seguin, minister without portfolio, all the members of the government have been returned by acclamation.

There were over forty acclamations out of a house of 81 deputies. Only one Conservative was elected by acclamation.

The ministers elected by acclamation are Sir Lomer Gouin, Hon. Mr. Mercier, Hon. Walter Mitchell, Hon. J. A. Tessier, Hon. A. Gailpeau, Hon. L. A. Taschereau and Hon. J. E. Caron. The one Conservative is Brigadier General C. A. Smart, in Westmount.

STRAWBERRIES WILL BE HIGH.

Hamilton, Ont., June 17.—Since the canners have contracted for strawberries at 20 cents a box, it is said that the retail price will not go lower this year.

ONTARIO MAN HAS INVENTED A HYDROPHONE

Welland, Ont., June 17.—By the invention of a hydrophone that is said to pick up the faintest sounds through the water at a distance of from four to five miles, and to show the exact location of the vessels creating the sounds, J. A. Burgess, formerly science master of Bishop Ridley College, St. Catharines, Ont., is believed to have devised something that will not only take the sting out of a submarine, but in peace time warn ships of the location and proximity of icebergs or other vessels, rocks or shores in the case of fog.

CHILDREN PHYSICALLY DEFECTIVE

Montreal, June 17.—"Fifty-three per cent of the school children in Montreal are physically defective, according to the latest official statistics," said Dr. W. A. L. Styles, who has just returned from the national conference of science workers held in Atlantic City.

Dr. Styles stated that the United States, following the revelations along health lines that were made in the examination for the selective draft for the army, is conducting experiments in welfare work among the children of a school age.

FOR WOMAN SUFFRAGE.

Albany, N. Y., June 17.—The New York Legislature, without a dissenting vote, last night ratified the federal woman suffrage amendment. New York is the sixth state to ratify.

FOUR CHILDREN PERISH BY FIRE

Quebec, June 17.—Four children perished in a fire at St. Francois last Saturday night, when the home of the parents, Mr. and Mrs. P. Plante, was destroyed by fire. The parents were out working in a field and the house was in charge of a sick relative, who managed to escape. The fire was caused by a boy sprinkling petrol over a red hot stove pipe.

St. John Telegraph: Mrs. Wm. Clark, who has been visiting her father, T. C. Hastings, Millidge street returned last night to her home in Fredericton.

TELLS HOW TO COMBAT SPANISH INFLUENZA AS WELL AS PNEUMONIA

Dr. Charles H. Duncan Says They are no More to be Feared Than a Boil on the Neck—Describes His Method of Treatment.

New York, June 17.—Influenza and Pneumonia are no more to be feared than a boil on the back of your neck, according to Dr. Charles H. Duncan, one of the founders of the Volunteer Hospital, who in an address here today before the convention of the Allied Medical Association of America, described his method of combatting the Spanish influenza by means of immunizing a patient to his own person.

"Upon 246 patients ill with pneumonia and influenza last winter, Dr. Duncan said, he had used the treatment 'without a single failure or any complications.'"

"Briefly," said the physician, "I take one drachm of mucus from the infected area and pasteurize it in one ounce of filtered water, where it remains several hours. One cubic centimetre of this toxine, injected sub-cutaneously, will effect spontaneous extermination of Spanish influenza, pneumonia, catarrh or any similar localized infection. It will stop any cough except tuberculosis in four hours."

Winnipeg Strike Leaders Are Placed Under Arrest

ONLY HEAVIEST STORM CAN HURT APPLE CROP

Fruit Now Well Set—Early Varieties May Have Surplus—Strawberries Promise Well.

The Provincial Horticulturist, Mr. A. G. Turney, stated today that there were no reports which indicated that New Brunswick would have anything but a good apple year. The bloom period in even the latest sections of the province is now past and in the St. John Valley and other southern districts was over some nine or ten days ago. The orchards passed through that period without injury and reports now indicate that the fruit is setting well. Only exceptionally heavy storms can damage the crop.

Winter apples are expected to be a fair crop with the market in the province taking the fruit. The early varieties particularly the Duchess, may produce a surplus, which will be exported probably to Montreal.

Strawberries are reported in all sections to be heavily in bloom, indicating a good yield.

THE I. W. W. BEHIND THE BIG UNION

Toronto, June 17.—Documents which are said to prove conclusively that the Industrial Workers of the World and the "One Big Union" which has caused much of the labor unrest in Canada and other countries, are the same organization, have been seized by the Ontario Provincial police. It is known that the documents were taken in a raid made by provincial police a day or two ago, but at just what point the seizure was made is not at present being divulged.

The document which more than any other is regarded as showing the connection between the two bodies is a large chart on the back of a manifesto sent out over the signature of William D. Haywood, general secretary-treasurer, who last summer was sentenced to twenty years' imprisonment. The chart takes the form of a large scale form of a large circle above which is printed "One Big Union" and "Industrial Workers of the World."

The circle is divided into six divisions and the chart divulges the scheme by which the organizers hope to govern the Dominion, and ultimately the whole world under their proposal.

Had Narrow Escape

Two young boys had a narrow escape from drowning here last night when a canoe owned by Corp. Moxon which they took without permission upset in the river channel near the highway bridge. One boy clung to the canoe and the other swam. Mr. Henry Kincaid and others rescued them.

City Council Meeting

A special meeting of the City Council has been called for Wednesday night for the purpose of considering the purchase of a scarifier, a sand-heater and a concrete-mixer, which are required by City Engineer McDowell for street work. Opposition on the part of some of the aldermen is rumored.

Quietly Taken Into Custody This Morning and Spirited Away to the Country in Automobiles—The Authorities Take a Drastic Step—Rev. William Ivens is Among the Number—Men Submitted to Arrest Quietly.

Winnipeg, Man., June 17.—In the early hours of this morning many of the men prominently associated with the leadership of the strike here were quickly arrested by special police at their homes and spirited away in automobiles to some place in the country presumably Stony Mountain.

Following is an official list of those said to be taken into custody:

R. B. Russell, Rev. William Ivens, R. B. Bray, George Armstrong, Alderman John A. Heaps, and four agitators of Russian nationality. Ivens is Editor of the Western Labor News and pastor of the Labor Church, Bray, is leader of the pro-strike parades which visited the parliament buildings on a number of occasions recently.

THE DOMINION GOVERNMENT STRIKES A BLOW AGAINST SEDITION IN WESTERN PROVINCES

Russell is Secretary of the Metal Trades Council, and one of the inner circles of the strike committee. Armstrong is an official of the Brotherhood of Carpenters. Heaps is an upholsterer and a member of the city council for ward five.

Beyond expressing indignation at the presence of representatives of the law at their homes, the men taken into custody submitted to arrest quietly, it is understood.

The blow of the Dominion Government against sedition in the west fell between three and four o'clock this morning.

It was announced that the arrests were also to have been carried out in Calgary and other western points at the same time.

THE LABOR TEMPLE RAIDED BY MOUNTED POLICE AND SOME BOLSHEVIK LITERATURE SEIZED

Simultaneous with the arrests the labor temple from which the strike was directed was raided by the Northwest Mounted Police and literature said to be of a Bolshevik nature was seized. The building was thoroughly searched and doors and rooms that could be opened were broken down. Books and papers of all sorts were taken and thrown into waiting automobiles.

The raid was conducted by Inspector Green of the city police force, and Inspector Nead, of the Royal North West Mounted Police. For the purpose a cordon of special constables numbering several hundred were placed around the building.

RACING AT ASCOT IS RESUMED AFTER A LAPSE OF FIVE YEARS

London, June 17.—Another pre-war social function was revived today with a visit of King George, Queen Mary, the Prince of Wales and Princess Mary to the Ascot races, where they headed the semi-state procession in a four hour horse carriages with postilions and outriders.

"The Royal Ascot" is a designation of this weeks racing on the prettiest course in England, and is the opening event of the social revision in England. It is usually the signal for the display of the latest creations in dresses and after a lapse of five years through the display, the spectacle exceeded anything previously known in the matter of hats, dresses and general brilliancy.

An excellent programme has been arranged and Members of the Royal Family will be present each day this week. Today's chief event will be the Ascot Stakes old vase. On Wednesday, the hunt cup will be run and on Thursday the gold cup will be the feature.

SAILINGS ARE POSTPONED TO REPATRIATE COLORED MEN

London, June 16.—Owing to the strike of flatmen in Liverpool, great difficulty is being experienced in coaling Atlantic liners.

The sailings of the Baltic, Belgic and Vedic of the White Star line, and the Scandinavian, of the Canadian Pacific Ocean Services, have been indefinitely postponed. The ship owners' offer of arbitration has been refused.

OPPOSED TO HANGING RETURNING FROM SIBERIA

St. Catharines, Ont., June 17.—Lincoln county council yesterday went on record against hanging as a penalty for murder, and passed a memorial to the Minister of Justice asking that an amendment to the act be introduced naming electrocution as a substitute and providing that the Sheriff be relieved of all responsibility in the execution of criminal.

Victoria, B. C., June 17.—The balance of the Canadian Siberian Expeditionary Force aboard the Canadian Pacific liner Montague is expected here tomorrow night from Vladivostok. The Montague was in touch with the Eastvan wireless station yesterday.
