

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. OF INTEREST TO WOMEN

WHY SPITE YOURSELF?

Why Do So Many Pretty Girls Take a Delight in Unbecoming Coiffures and Ugly Hats?

"And she always dresses," concluded the woman who was describing a modern young thing, "as though she wanted to spite herself. She defiantly chooses the most unbecoming hats, the sloppiest great loose baggy coats, the worst possible textures for her skin, and of course with her ugly tortoiseshell rims and her wild color schemes she narrowly misses being downright. Why is it that so many pretty girls take such delight in unbecoming coiffures and such defiantly ugly hats?"

It is true, as anyone will acknowledge who gives the matter a moment's thought, that each season fashion offers one or more modes that most women should shun as they would a pestilence—modes that many women should not adopt unless they have a real "spite" against themselves.

The same is true of fashionable colors. As sure as a color of exacting characteristics becomes the rage, it appeals almost more forcibly to the women who wear it atrociously than to the few whom it appears to advantage.

Now the color that has just arrived on the horizon and that is pretty sure to look smart right through the autumn and perhaps in the winter is "citron"—which, of course is not the color of the kind of citron that we cut up in little pieces and put into fruit cake, but the color of the French citron, which is a lemon.

Now lemon color is charming on the woman of dark, rich coloring. There are some radiant blondes who can wear it; but for the blonde women of the usual sort, or for the woman of rather drab coloring—and a surprisingly large number of Canadian women belong to this class—this new smart color is as unbecoming as anything very well could be. Likewise almost any girl looks positively grotesque in lemon color when she is wearing a healthy coat of tan or sunburn.

For outdoor wear the woman of just the right coloring is charming in white and citron—and for evening she is divine in black and citron; but beware—don't drag this new shade into the dust of every day.

It was the same way with henna. In spite of all that dressmakers said, henna did not become the majority of women. It took the color out of lifeless hair and if you had even a single freckle it appeared legion when you wore a henna hat.

A HINT OR TWO.

To Soften Boots and Shoes—Hardened by water, these are softened by rubbing kerosene into the leather with a cloth.

Bisque Ice Cream—In making bisque ice cream add the crumbs when nearly frozen.

To Clean Brushes—A little soda dissolved in warm water and ammonia cleans brushes nicely.

Raise Velvet—A hot iron covered with a wet cloth and applied to velvet while damp will raise the pile.

Mildew—A teaspoon of chloride of lime in a quart of water strained twice will remove mildew from cloth. Lay cloth in sun.
