## IMPERIAL GOVERNMENT NOT LIKELY TO RESIGN AS RESULT OF VOTE

**Incident in the Commons on Thursday Evening Has Given the Government a Severe Shock—Parliament Merely Asserted Its Independence and Revolted Against the Dictation of Ministers—Sir Edward Carson One of the Bolters.**

London, Oct. 24—Members of the Lloyd George cabinet conferred with some of their supporters in the House of Commons today relative to the situation which has arisen through the defeat on Thursday of the government amendment to the alien bill. It was stated during the day that an understanding had been reached by a new clause in the bill which would be acceptable to the government would be moved by members of the house. It is expected in this way to surmount the difficulty which brought about the defeat of the former amendment and to avoid the abandonment of the bill.

### OVER ONE HUNDRED SUPPORTERS OF COALITION VOTED AGAINST THE ADMINISTRATION

Political experts and the editorial utterances in the papers this morning, generally express the view that no one expects the government to resign as a result of the adverse vote in the house of commons yesterday and that the cause of the defeat of the Pilots amendment in no wise need entail such a step. The incident, however, is regarded on all sides as one of which has given the administration a severe shock, a repetition of which it could hardly survive.

The vote is generally described as an assertion of the independence of the house of commons and a revolt against the alleged dictation of ministers—a determination to reassert the supremacy which the commons surrendered to the cabinet during the war.

More than one hundred supporters of the coalition, among whom Sir Edward Carson was conspicuous, voted against the government. These represented the intense anti-alien feeling prevailing among the Conservative coalitionists and the fear that the government is trying in the present stage of the bill to annul amendments which those hostile to aliens secured in the committee stage.

Some surprise is expressed that the labor members and the so-called free Liberals joined in the vote against the government on this issue, thereby identifying themselves with the anti-alien faction, contrary to the avowed principles of their leaders.

## HON. MR. FOSTER WATCHING THE G. T. P. BILL

Ottawa, Oct. 24.—Hon. W. E. Foster, Premier of New Brunswick, now in Ottawa, is keeping in close touch with the developments in connection with the debate on the Grand Trunk bill. His chief interest is to know how it will affect the prosperity of the port of St. John, and other ports of New Brunswick, and to get assurances from the government of a positive character as possible that Canadian Atlantic ports shall be used as much as they can be.

The government, it is believed, indicates that only general instructions of that character can be given to the new board to be appointed if it is to have the freedom as to policy and management that has been promised. Other things being equal, however, Canadian ports will get the preference.

This, it is thought here, will hardly satisfy public opinion in the Maritime Provinces, and it is pointed out that Canadians in general should not be satisfied with it. The suggestion has been made that prompt steps should be taken—especially by the Federal members from the Maritime Provinces—to get a clear and concise declaration of the government's policy in the matter.

## HARMFUL TO CHRISTIANITY

Ottawa, Oct. 25.—Rev. G. C. S. Wallace, of Montreal, president of the Ontario and Quebec Baptist Association, in a sermon at the opening session last night, denounced the spread of what he termed rationalism or "naturalism" in the country. He stated this doctrine was totally opposed to Christianity and one which was becoming more difficult to fight as the years passed. The speaker also criticized theoretic orthodoxy, saying the influence of this school of thought was undoubtedly affecting a great many church members. Mr. Wallace deplored the new popular habit of secularizing the week-end by taking outings to summer bungalows instead of attending church.

## LITTLE HOPE OF AVERTING COAL STRIKE

Washington, Oct. 25.—The nation took stock of its coal bins today, for a strike of five hundred thousand miners in the chief bituminous fields loomed up six days distant more menacing than ever before.

All apparent hope of averting the strike set for November 1st, the eve of winter, vanished last night, when Secretary of Labor Wilson's four day conference with the scarle committee of the Miners and Operators broke up despite the appeal of President Wilson from his sick bed to them to brush aside the old animosities and start negotiations anew, with arbitration as a last resort.

Representatives of the miners and Operators today continued to charge each other with having ensued the ending of negotiations, but the fact remained that instructions were going out today to all locals of the United Mine Workers of America to suspend work at midnight next Friday.

## CHEAPER SHOES NOT EXPECTED IN NEAR FUTURE

**Leather Cost More This Fall Than It Did Last Spring—Some Misleading Stories.**

Cheaper shoes in the near future are a myth according to a manufacturer of boots and shoes in this city. The reason why there can be no reduction in price he says is that leather has advanced in price and the advance will be reflected directly in the price of the finished product. Stock which is being worked up into goods now for the spring trade cost the manufacturer fifty per cent more than did stock made up into goods sold for the trade this autumn.

This statement is not in accordance with the published accounts of lower prices for hides and leather. The manufacturer in question states that there is no basis for such stories and the public is being misled by them.

## PROTESTS AGAINST SMOKING BY WOMEN CAUSED A BIG UPROAR

New York, Oct. 25.—Protests against smoking by women caused an uproar at the closing session of the International Conference of Women yesterday. An elderly American woman physician said that smoking was an industrial disease and that the conference should pass a resolution in favor of abolition of the use of tobaccos. The dissent was prompt, vigorous and in a variety of languages simultaneously. During it's height the anti's left the room.

The conference recommended physical examination of both sexes before marriage and the establishment of an international bureau of hygiene under the league of nations.

Resolutions were passed favoring sex instruction in normal schools, medical colleges and in universities, and urging the "single standard" of morality.

It was resolved that support of illegitimate children should be shared by both parents, according to the economic status of each, and that the child should not be stigmatized because of the circumstances of it's birth.

The conference went on record as favoring "educational and economic conditions" which make early monogamous marriage possible.

Another resolution denounced "regulation" of vice. Announcement was made of the establishment of the women's foundation for social health, which will work in co-operation with existing organizations.

## Reply to Peace Note is Moderate in Tone and Adheres to the Clauses Concerning the League of Nations and Labor—Protests Against Sum Demanded in Indemnities—No Modifications are Considered Likely.

Paris, Oct. 25.—Bulgaria's answer to the terms of peace presented to her by the Allied and Associated powers is moderate in tone and adheres unreservedly to the clauses concerning the League of Nations and labor. It accepts the principle of the protection of minorities in Bulgaria on condition that the same measures are applied to other Balkan states.

On the other hand, the reply makes reservations regarding reparations, and protests especially against the total sum demanded of Bulgaria. It asks for the suppression of interest charges and requests an extension of the time limit for payment. Regarding the military clauses, Bulgaria objects to the voluntary enlistment system, maintaining that conscription alone can produce sufficient forces to maintain order.

### VON DER GOLTZ SCORED BY GERMAN FOREIGN MINISTER FOR MEDDLING IN POLITICS

Berlin, Oct. 25.—In the course of a long address before the National Assembly, which consisted mainly of a protest against recent addresses by Premier Clemenceau and what was called the "militaristic tendency" of France toward Germany, as well as the inconsistent spirit shown in the formation of the League of Nations, Foreign Minister Mueller insisted today upon the necessity for a speedy German evacuation of Lithuania and Latvia. He said this step was necessary to convince the world of Germany's sincere desire for peace.

"The German government disapproves of the telegrams sent by General Von Der Goltz recently, congratulating Colonel Avaloff-Bermond on his success in the fighting near Riga," he declared, "and I hope this will be the last case of a Prussian General meddling in politics. We are not friends of the Bolshevik."
