THE WAR LOAN.

Canadians responded nobly to the numerous calls for money with which to win the war. They provided the money liberally and the war was won. But with the cessation of hostilities the money needs of the nation did not stop also. At the present time Canada needs ready money as she never did before. Obligations incurred by the great conflict have to be met and must be attended to through the Victory Loan 1919.

It is from the savings of the Canadian people, that these obligations will be handled. Money must be lent to the nation in order that war debts can be disposed of. The people are called upon to advance the money. Their own best interests demand it, prosperity cannot last unless they do.

Previous Victory Loans helped materially to win the war. The Victory Loan 1919, is required to keep the war won. Dollars are decisive now. Canadians must finance their own country in order to prevent economic depression. They will become richer by doing so and undoubtedly become much poorer should they neglect to do so.

The people of the cities and the people of the farms are equally concerned. They must unite in a great response to the call of the Victory Loan 1919. Subscribers must include all classes of the community for mutual benefit. They will render a distinct national service while at the same time serving themselves in the best manner possible.

SLAUGHTER OF DUCKS.

In commenting on a report that the Prince of Wales and party bagged 500 ducks during a recent hunting trip in Saskatchewan, the Toronto Saturday Night makes this comment:

One reads with no great amount of enthusiasm that the Prince and his party, while duck hunting in Saskatchewan, made a bag of 500 ducks; that the party began shooting before dawn and shot until eight o'clock at night, with only brief intervals for meals, and that many birds falling in the rushes were not retrieved. In other words the "bag" of 500 ducks meant the killing or wounding of possibly several hundred more. We are quite aware that on English estates in the autumn one goes out with beaters, a lunch basket, a camp chair and a rug, scares up a lot of "fowl" that have been carefully fed and other wise attended to for a year or so; bangs into them with a double-barrelled shotgun, and thinks he is having a whale of a time. Perhaps he is, but it is not a Canadian's idea of sport, any more than is the slaughter of 500 wild ducks by one small party. Over here we call it "pot hunting," indulged in by those who, where the law permits, hunt for the market. It is not a commendable practice for a Prince or for any other gentleman to indulge in.

MIXED ON LOCAL GEOGRAPHY.

A St. John paper announces that four of the American journalists who have been hunting big game in Nova Scotia will "go into the New Brunswick woods with Harry Allen in the Cairns river district." In a headline it says they are "going into the Canadian woods," and at the end of the article we are informed that they are "going into the Canadian woods to see the big game possibilities of New Brunswick." The newly organized New Brunswick Tourist, Fish and Resources Association has work to perform in making St. John newspaper writers acquainted with the geography of our own province. In this case it might be explained that the American visitors plan to hunt on Rocky Brook, a tributary of the Southwest Miramichi, in the County of York.

In response to a Macedonian cry sent out by the Tories and so-called Independents of Carleton-Victoria, Hon. Arthur Meighen, Minister of the Interior, and Senator Gideon Robertson, Minister of Labor, have arrived in the constituency to speak on behalf of Col. Melville. The situation must be desperate when two ministers of the crown would journey from Ottawa for the sake of spending one day in the constituency.

Daylight Saving time passes out with the close of the present week, and there is reason to believe that it will not come back. Farmers through-

TORTURED BY TERRIBLE ECZEMA

Suffered Three Years Until She Tried "FRUIT-A-TIVES"

DAME PETER LAMARRE

Pointe St. Pierre, P. Q.

"I think it my duty to tell you how much your medicine has done for me. I suffered for three years with terrible Eczema. I consulted several doctors and they did not do me any good.

Then, I used one box of 'Sootha-Salva' and two boxes of 'Fruit-a-tives' and my hands are now clear. The pain is gone and there has been no return. I think it is a marvelous cure because no other medicine did me any good and I tried all the remedies I ever heard of, without benefit until I used 'Sootha-Salva' and 'Fruit-a-tives'.

'Fruit-a-tives' cooled the blood and removed the cause of the disease, and 'Sootha-Salva' completed the cure."

out the country are strongly opposed to the daylight saving scheme, and now that they have become a potent factor in politics and have made their influence felt, the government will probably decide to leave the clock alone.

POPULATION EXAGGERATED

Artificial Enhancement of Moncton's Population—Seventeen Thousand and Fair Estimate.

(Moncton Transcript)

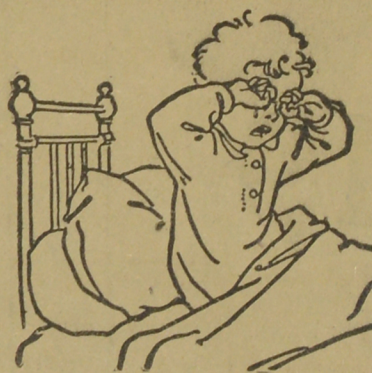

Nothing could be more unfortunate to Moncton than an artificial enhancing of price of real estate, and so too nothing could be more unfortunate to its real progress than extravagant statements as to the growth of population in Moncton. For any person speaking in an official capacity to place the population of Moncton at 20,000 is unfortunate. It only injures the town to have its population overstated, especially by one speaking in an official capacity. It is hoped that in the year 1921 when the census is taken that the population of Moncton will be 20,000 and even then the growth will be something phenomenal but it is not wise to be over-sanguine. Moncton has a large floating population at the present moment, employed in a class of labor which may not remain many years, and to count that class of labor today prevents the city from getting credit for its real permanent growth in coming years, when permanent residents are coming here in connection with new enterprises for which construction work is only now being done. A moderate statement of the population of the city of Moncton would be about 17,000 exclusive of suburbs.

No Agreement Reached.

Mayor Hanson stated today that no agreement had yet been reached in the Minto conciliation matter. The board met at St. John yesterday.

DAYLIGHT TIME ENDS SUNDAY, OCTOBER 26TH

Railway Clocks and Watches Will be Set Back One Hour, from 2 a. m. to 1.00 a. m.

The Canadian National Railways will on Sunday at 2.00 a. m., set back clocks and watches to 1.00 a. m. and change from Daylight Saving to regular Standard time.

This makes no real difference in the train schedules. The standard of time is simply changed, the same as before Daylight Time went into effect. Trains will be operated as shown in time tables, under Atlantic Standard Time, or Eastern Standard Time, according to the locality affected.

Travellers are advised to note the change from Daylight Time to regular time.

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.
