MUST PRADTICE ECONOMY IN USE OF BITUMINOUS COAL

Only Way That Canadian Industries Can Keep Going During the Winter Months—Not a Ton of Soft Coal Has Come in From United States During November—The Export Has Been Stopped.

Ottawa, Nov. 16—According to advices received here only the utmost economy on bituminous coal reserves in Canada will enable the various industries dependent upon that coal to keep going all winter. Production of bituminous coal in the United States will not be normal for a month and perhaps longer, and many miners are refusing to return to work. The bituminous coal received by Canada from April 1 to October 31, this year was \$600,000 tons, only seventy per cent of the amount received in the same period last year. More than that, not a ton has come in since November 1. To supply needs in Western Canada from Regina east only, 1,400,000 tons came in through the Great Lake terminals at Fort William, from mines in the Eastern United States, as against 1,600,000 tons the previous year and 2,330,000 tons in 1917. As soon as navigation closes this source of supply will be closed. The situation is made worse in that the Alberta fields only supplied half the usual output on account of labor troubles. In October the railroads carried thirty per cent more than in the same period last year. If this is kept up the situation may be saved in the eastern and western coal fields. Miners are working steadily as yet.

The Dominion Government will only permit exports to the United States in the same proportion as the United States lets bituminous enter central Canada. Ships will be allowed to bunker at Canadian ports to encourage the dominion foreign trade.

Export Stopped

Ottawa, Nov. 16—In view of the critical fuel situation, export of coal to all destinations has been prohibited except under license issued upon the recommendation of the Canadian Trade Commission. Exportation of coal to Europe will cease immediately. As the prohibition includes coal for all purposes, licenses will have to be obtained in the usual way for bunker coal. In the case of coal already loaded for export, the Canadian Trade Commission announces that consideration will be given applications for licenses by telegraph.

Slight Concession

Washington, Nov. 16—Negotiations of a new wage scale in the soft coal industry stood in much the same situation tonight when operators and miners met in Buffalo in September to frame a contract to replace the Washington wage agreement.

This time, however, there was no threats of a strike and both sides were ready to assume their conference tomorrow in the hope of reaching a quick settlement.

The demands submitted to the operators yesterday reaffirmed the six-hour day, but omitted reference to "from bank to bank," Lewis explained.

The miners now are asking a maximum of six hours working time into the mines. The time required to go down into the mines and return to the surface would add an average of about half an hour to the day, Lewis said.

PERSONAL.

Mr. D. G. Woods of Chatham is in the city.

Mr. H. N. Whiston of St. John is a guest at the Queen.

Dr. F. W. MacDonald of Blissfield is at the Barker House.

Mr. Edward B. Stratton of Boston is in the city.

Mr. F. C. McLean of Woodstock is a guest at the Barker House.

Mrs. R. E. Hoyt of Worcester Mass., is at the Barker House.

Appreciation of Rev. Mr. Boyer

The New Brunswick auxiliary of the Canadian Bible Society met last week and adopted a resolution of appreciation of the faithful services of Rev. H. R. Boyer, recent district secretary, in which it was stated that the success of the society in recent years was largely due to his faithful, zealous and energetic services. The wish that he may have lasting health and strength to enable him to meet the responsibility of his new pastorate was expressed.

Record Class

In all the student body of the University of New Brunswick numbers about 175 students. This number is fairly equally divided among the three courses Arts, Forestry and Engineering while a number of returned men are taking special courses. The Freshmen class is the largest in the history of the college some eighty four students including special course students being enrolled.

With Other Institutions

Prof. Wilfrid E. Blampin who held the chair of English at the University of New Brunswick last year is now on the staff of Western University, London, Ont. Prof. A. F. Baird who filled the chair of Mechanical Engineering is now professor of Physics at Macdonald College, Ste. Anne de Bellevue, Que. Prof. C. E. Popplestone who was professor of Modern Languages is in Halifax.

Miss O'Leary of New Maryland, a daughter of Mr. Thomas O'Leary is at the Victoria Hospital undergoing treatment for an abscess.

Late Miss Georgina Jouett

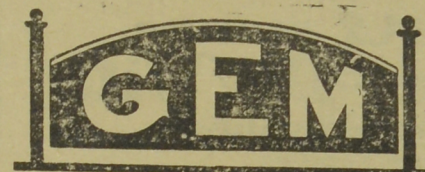

Miss Georgina Jouett died on Saturday night at the home of her brother, L. A. W. Jouett, in this city after a lingering illness. She was seventy-four years of age. Her surviving relatives are: one brother, L. A. W. Jouett, and one sister, Miss Josephine Jouett, both of Fredericton. The funeral took place this afternoon with service at the late home, George Street at 2.30. The body was taken to Christchurch Cathedral where service was conducted by Very Rev. Dean Neales. Interment was made at Forest Hill Cemetery.

If it be true that cows give ten per cent more milk when listening to a phonograph concert, we see where a lot of canned music will hereafter be used to fill milk cans.

WHICH DID YOU CHOOSE ?

Luxuries for yourself, or Victory Bonds to help those who fought for you?
