THE HOUSING OF WORKERS.

The contention that it is the "duty" of large employers of labor to provide decent housing for their workers has been freely combatted. Another argument is coming to the fore, that is likely to be more convincing because it is based on practical considerations, namely, that it is greatly to their advantage. One manufacturer who has adopted this method of "prosperity sharing" has confessed that whereas before housing accommodation was provided the labor turnover was 400 per cent, at present it is practically nil and labor unrest is a thing of the past.

It is being proved also that the new method of housing workers is susceptible of important economies and the ease for home life such as have hitherto been the privilege of the rich.

The engineering firm of Ruston and Hornsby, Lincoln, Eng., have acquired an estate of 370 acres, near Lincoln, in the vicinity of a lake known as the Swanpool and are there building an industrial garden suburb with provision for 3,000 houses. The estate is being laid out on "garden city" lines, with ample provision for shops, for schools, institutes, recreation grounds, allotment gardens and other amenities. The housing will be managed on co-partnership principles and will not be confined to the employees of the firm.

One feature has special interest. It is proposed to carry out from a central station a communal supply of electricity and hot water for domestic purposes. It is claimed by the engineers that great economy may be secured by combining the production of electricity with the utilization of the waste heat from the generating plant for the supply of hot water, which will be circulated among all the houses throughout the area. The development has already begun and some of the houses are ready for occupation.

When Mr. J. K. Flemming was an opposition critic in the Legislature, he used to say that a live agricultural department should assist the farmers in finding profitable markets for their produce. New Brunswick has a live agricultural department today, and largely through its efforts the farmers of the St. John Valley have been able to dispose of their surplus apples at good advantage in the Montreal market this year. There is no better apple in America today than the McIntosh Red, and nowhere can it be grown to better advantage than in the St. John Valley. Some barrels of this variety grown in Douglas brought as high as \$12 per barrel in the Montreal market this season. As a fruit growing belt there is certainly a great future before the St. John Valley.

SHORT OF BREATH APPLE CROP

Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?"

Now when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N. S., writes: "I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

ful preparations for it. Meanwhile the former Emperor continues to cut trees, to hunt and to enjoy such other pleasures as life at Amerongen provides, and month passes into month.

Returned From Amherst

Hon. J. F. Tweeddale, Minister of Agriculture, has returned from the Amherst Winter Fair which he pronounces to be a fine show particularly in sheep and other livestock branches. The war period has not injured the industry to the extent expected. Hon. Mr. Tweeddale saw Mr. W. R. Reek, formerly deputy minister for New Brunswick. Mr. Reek expects to visit Fredericton shortly.

Menaced by Go Preachers

Maritime Baptist: Rev. L. J. Tingley pastor-at-large is now engaged in a campaign on the Hoyt Station field, assisting Pastor W. J. Richardson. He spent two Sundays at Bear Island and held services on the nights intervening. The welfare of the church there has been seriously menaced by the presence and activity of the "go-preachers." It is to be hoped that their divisive work has been neutralized. When will our churches learn to exercise a little more care and commonsense in regard to permitting strangers to hold services in their churches.

PRODUCED A GOOD RETURN

Springhill Orchards Averaged \$5.05 per bbl.—Open Market in Montreal Gave Excellent Prices.

Springhill Orchards of which Mr. S. B. Hatheway is manager in the business in apples done this season with the Montreal market gives an excellent example of what can be done in fruit-growing in the St. John Valley with modern methods.

The last lot shipped by Springhill Orchards consisted of 104 barrels of Nos. 1, 2 and 3 and Domestic, with McIntosh Reds the predominating variety. The shipment brought \$815 in the open market at Montreal with a maximum price of \$11 per barrel and a minimum price of \$6. The net price for the grower f. o. b. Fredericton averaged \$6.36 per barrel.

Season's Return

During the season this fruit-growing firm shipped 367 barrels of apples beginning with Duchess and ending with Ben Davis for a total of \$1,854.17 and the price per barrel f. o. b. Fredericton averaged \$5.05.

Springhill Orchards like all the other fruit growing enterprises which are proceeding on modern lines, has a considerable acreage of young orchards which have not yet begun to yield. Some six thousand trees are in that class. This is an indication of what can be expected in apple production and income from this crop.

Cooperative Selling

The apples of Springhill Orchards were marketed cooperatively the apples being graded and shipped under the supervision of the New Brunswick Fruit Growers' Association of which Mr. A. G. Turney Provincial Horticulturalist is the chief.
