IS MATERIALISM DEFEATED, NOW THAT PRUSSIA HAS COLLAPSED?

It is easy enough, says a prominent journal, to see now, that the Prussianism that was whipped on the Hindenburg Line was Materialism with a gun in its hands; and that it was whipped by a spiritual idea similarly armed. The whole course of the war illustrates this fact in a thousand ways; and nowhere more clearly than in the action along the British, French and American fronts. But the collapse of the unclimbed proof of this assertion. The Hun had no soul to fight with or for. He ran away from his quest, because he could not get what material he set out to get. France beaten, would have backed away slowly, fighting every step, sure that somehow the bon Dieu would not let a mere woods hog trample out of existence a human soul. And Britain and America would have fought along with her in the same way and in the same faith.

Prussia collapsed, because Prussia had become not only essentially materialistic, but insolently so. In precept and in practice, individually and collectively, her people had cut all the cords that restrain a mortal from going straight after his fleshly desires. Prussia has fallen, not with a crash, but with a squish. There was no fibre to splinter. Prussia fell back from France as mud falls from a workman's shovel.

The lesson is plain. It is written across the face of the sky and has been from the beginning that "the things which are seen are temporal, but the things which are not seen are eternal." We knew this before the war. We know it better now. But the most of the world is already turning back to concern itself with things material. It is popularly hoped that development and prosperity will come to the victorious peoples in a wave that will melt the war debt like an April snow. But we must make our own hay while the sun of prosperity shines. After we have set a guard on the predatory Hun, we may leave it to the guard to see that gross Materialism never again threatens the earth. As for ourselves, let us hang a spiritual motto on our parlor wall, then go out and dig for gold.

PROGRESS THE WATCHWORD

Sir Edmund Walker, President of the Canadian Bank of Commerce, in his annual address to the stockholders of that great financial institution, said:

"Progress appears to be the watchword in New Brunswick. The Department of Agriculture has the wholehearted support of the Government, and is giving the farmers of the province inspiring leadership. This is evidenced by a general increase in production, the amount of land cultivated in 1918 being 125,000 acres more than in 1917. Of this increase 33,000 acres were planted in oats, 34,000 acres (or 200 per cent increase) in wheat, and 13,000 acres in turnips and potatoes. The potato crop is estimated at 8,650,000 bushels, somewhat below the average, but 50 per cent. more than in 1917. The yield of hay was good and that of oats and wheat excellent, but of only fair quality owing to the bad weather which prevailed during harvesting. Reference was made in our report last year to the effort being made under government auspices to improve the quality and number of live stock. This policy has been continued, with specially good success in the case of sheep."

WANTED THE WHOLE THING

A sergeant from a military camp was sitting in a train unoccupied till the boy with train literature came by. "Here yuh are—just what you want 'A Hundred Ways to Kiss a Girl,'" he said, thrusting the book into the hands of the sergeant.

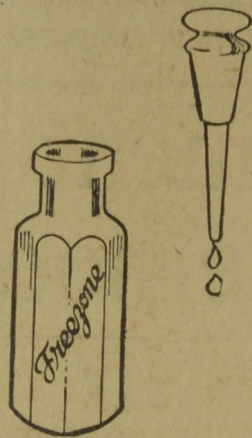

On coming back he found the sergeant turning the leaves of the book. "Well, do yuh want it?" the boy asked.

All the passengers, so the story goes, were waiting for the answer.

"I guess not," drawled the sergeant. "The thing's too darned incomplete."

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers—No pain!

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

AFTER CHRISTMAS.

Little sister broke her doll,
Brother bumped his nose,
Father smashed his brand-new pipe,
And that's the way it goes!

You may make fun of the Derby hat if you like, but men appear more important in one than in any other kind.

EXCLUSIVE SCOTCH CLUB ADMITS YANKS

Sporting Institution at Inverness Breaks With Tradition—Red Triangle the Cause.

London, Feb. 19—Without so much as a pair of golf stockings to show that they "belong" a group of Americans has broken into one of the most exclusive sporting institutions in the world, an English-Scotch institution at that. They have shattered a tradition almost a century old.

The famous North Meeting House at Inverness, Scotland, whose annual gatherings are one of the leading sporting events of the British Isles, is the victim of this invasion by the American Red Triangle. For more than ninety years the big landowners in the north of Scotland along with rich lessees of preserves and leaders of hunting associations, have met at Inverness each autumn for a three day jollification. Only once was this meeting omitted. That was at the time of the Boer war, when many of the sporting men of the island were in military service and Oom Paul's sharpshooters were giving the British Empire an uneasy time.

Used Only Three Days a Year

Three days a year the big stone meeting house—actually a luxurious country club—was used. For the rest of the year it was deserted, its great ballroom draped in covers and its billiard room, bar, library and sleeping chambers gathering dust. So when the Red Triangle looked about for a place as a headquarters at Inverness for its work with the boys of the American mine laying fleet it found the meeting house and its grounds an ideal place.

To the credit of the owners as real sportsmen, there was not a hitch in the arrangements. Clubhouse, stables, athletic field and all were turned over to the Americans without any red tape giving the unit the finest equipment in the British Isles. As soon as the first group of secretaries arrived residents of the district began volunteering as workers, the list growing until there were 400, mostly women and girls of course, "on call" for work night or day.

Women Helped

Only about 250 of these volunteers were used, the women working in six hour details. There the Y. M. C. A., surrounded by spirited prints of bear baitings, drinking bouts, prize ring contests, gambling sessions and like sporting diversions, has run its canteen and given movies, music and vaudeville concerts to the thousands of men in the naval service in that vicinity. Milk and ginger ale flow over the bar in the care and sandwiches.

TOOK SEVERE COLD ON HIS LUNGS Coughed Phlegm and Blood.

On the first appearance of a cough or cold, do not neglect it, but get rid of it at once before it has a chance to grow worse, and gets settled on the lungs, causing bronchitis, pneumonia and other serious lung troubles.

Dr. Wood's Norway Pine Syrup will cure the cough or cold on its first inception and perhaps save you years of suffering.

Mr. G. F. Stratychuk, Canora, Sask., writes: "Last winter I took a most severe cold on my lungs and was coughing up phlegm and blood most of the time. I had the cough for over two months, and took a great deal of different medicines, but found no relief from them. At last a friend advised me to take Dr. Wood's Norway Pine Syrup, which I did, and it gave me great relief in a very short time, and today I am enjoying good health again."

The marvellous results that Dr. Wood's Norway Pine Syrup has achieved in its cures of coughs, and colds has caused many so-called "pine" preparations to be put on the market, which do not contain any pine whatever. See that you get the genuine when you ask for it.

Put up in a yellow wrapper; three pine trees the trade mark; price 25c. and 50c. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

HATS ONLY FOR BRAINS.

A kindhearted woman saw a young man working bareheaded in a broiling sun digging postholes. She procured an old straw hat of her husband and going up to the youth said: "Young man, you musn't work without a hat. Take this one."

"Thank you very much, but I don't need it," he said.

"But if you work bareheaded in a sun like this you will have your brains baked."

"I haven't got any brains, madam" was the prompt rejoinder. "If I had I wouldn't be digging postholes."

A WONDERFUL DISCOVERY CURES CATARRH PERMANENTLY.

Formerly doctors prescribed stomach treatment for Catarrh and Bronchitis. They seldom cured and Catarrh has become a national disease. Today the advanced physician fights Catarrh by medicated air. He fills the lungs, nose and throat with the antiseptic vapor of Catarrhazone. It is easy then for Catarrhazone to cure. It contains the essences of pure pine balsams, reaches all the germs and destroys the disease. Every case of Catarrh, Bronchitis and Sore Throat can be cured by Catarrhazone. The dollar outfit lasts two months and is guaranteed to cure; small size 50c; trial size 25c, all dealers or Catarrhazone Co., Kingston, Ont.
