

Says a Corn Acts Like Electric Bell

Tells why a corn is so painful and says cutting makes them grow.

Press an electric button and you form a contact with a live wire which rings a bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezone. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug never inflames or even irritates the surrounding tissue or skin.

Film fans are hopeful that Mary Pickford's illness is in one short reel.

HUNS SHORT OF ROLLING STOCK

Berlin, Jan. 17.—Berlin's inter-urban railway has been compelled to suspend operations, a result of the delivery of its best locomotives to the entente powers according to statements of officials. It is said that the Berlin railway division has turned over 103 locomotives and that of a total of 896 new in its possession only 494 are in running condition. This number, it is declared, is hardly adequate to carry provisions and coal to Berlin.

Some people simply can't get along without the morbid element. An Indiana man visiting Niagara Falls wrote home in a peeved mode the other day, saying: "I've been here three days and haven't seen a body go over the falls yet."

An optimist looks at an oyster and expects a pearl. A pessimist looks at an oyster and expects ptomaine poisoning.

A MINOR CASUALTY.

The young witty looking Tommy was leaning gracefully across the counter. Every now and then he would give a twitch to his left arm.

"Shell shock," whispered a sympathetic observer. I wonder if he will tell us his experiences."

The subject of the remarks then turned to the speaker and remarked amiably: "I wonder if I shall ever make this darned wrist watch go."

Reports Business Good

Mr. H. C. Christie the popular traveller for Cowan's Limited, of Toronto is in the city today on a business trip. He reports business excellent in his line. Although all restrictions in the use of sugar have been removed Mr. Christie does not foresee any drop in the price for some time. He reports however, that his firm has reduced the price of the high class confectionery which it manufactures. The company has a well equipped hospital in connection with its plant and is now establishing a cafeteria for the employees.

Some men think it is necessary to make fools of themselves every time they have the opportunity.

MANY DEATHS FROM CHOLERA

Bombay, Jan. 18.—Via London, 19.—Following the influenza epidemic here Bombay is now suffering severely from the spread of cholera which is largely attributable to the heavy influx from the famine district. Deaths in Bombay for the week ending January 4 were 1,900, of which 750 were due to cholera alone. The preceding week there were 1,600 deaths, of which 550 were due to cholera. Later figures, however, show considerable improvement.

A village philosopher says that even fashion's decrees have no terrors for him since he has discovered that he can get a suit of clothes out of his wife's and daughter's last year's skirts and that they can each get a new skirt out of a pair of his last year's trousers.

DR. CARTER BACKS UP THE W.S.S. CAMPAIGN

Chief Supt. Strongly Recommends War Savings Stamps to the Public.

Dr. W. S. Carter, chief superintendent of Education for New Brunswick possesses a Dominion-wide reputation being one of Canada's leading educationists. Quick to grasp the importance of public movements, the advantages of the War Savings Stamp plan are obvious to him and he has strongly endorsed it in the following: "President Wilson has said: 'No individual in this great country can now expect ever to be excused or forgiven for ignoring the national obligation to be careful and provident of expenditure, now become a public duty and an emblem of patriotism and honour.' Suppose not many fortunate by-products can come out of the war, but if this country can learn something

about saving, it will be worth the cost of the war; I mean the literal cost of it in money and resources."

"In Denmark and Norway the per capita savings are \$70, in Switzerland \$86, in Australia, \$91, in New Zealand \$98 and in the United States \$50.

"War Savings Stamps are designed to give every man, woman and child in Canada, the opportunity to save, and thus aid the Government in reconstructing the losses and damages caused by the war, which though ended is still being paid for and will continue to make demands upon us until all our soldiers shall have returned and a grateful country's obligations to them have been discharged.

"Patriotism is measured by sacrifice. All that we have should be given with willing hearts or we fall short in citizenship.

"A hoarded dollar represents idle power, a wasted dollar represents wasted power, a dollar saved represents power saved, labour saved, materials saved—it represents power, labour and materials. It represents reserve power, energy stored, purchasing power conserved for its owner.

CITY COUNCIL DOINGS

To put through the license reduction will require some tall hustling. Meantime lots of corn will be tramped on. The cure is "Putnam's" the old reliable corn extractor that has been curing corns and warts for years. "Putnam's" never fails, 25c. at all dealers.

The German armistice has been extended one month by the commissioners who have concluded their session at Treves. The clauses offered by the Allies concerning agricultural implements, Russian prisoners of war, naval conditions, and the restitution of material stolen by the Germans from invaded countries, were signed by the enemy delegates.

Soldiers Home Coming Campaign

The Emergency Call

Many organizations are willing to assist a *deserving* case. The Salvation Army is *ready* to assist in *any* emergency. That is why the Salvation Army's need for funds at this time must meet with whole-hearted response.

With the repatriation of 300,000 soldiers, notwithstanding all that the Government is planning to do to meet the needs of the men, countless problems will arise, problems of human need, problems that must be met and coped with AT ONCE. They are not things that can wait.

That is why the Salvation Army Emergency Homes are centres of such steady activity. When an emergency arises in the home of a soldier who has done his bit, there must be prompt response, however difficult the individual problem. Here are a few typical cases:

Husband, a discharged soldier, goes to another town to work. Fails to send money home. Salvation Army finds family helpless with hunger and cold. No coal in house. Family all removed to Emergency Home, where in tiny, two-room suite, sufficiently furnished and warm, they can exist in something approaching comfort until the breadwinner can help them.

In an adjoining suite may be a mother and children on the way to rejoin father in another city. A missed train connection or any one of a hundred mishaps leaves them stranded for the night.

A room in a Salvation Army Emergency Home is seldom vacant for more than a few hours at a time, and with the crisis arising from the difficulty of re-establishing so many soldiers into civilian life, there must be no cessation in the work for lack of funds.

Salvation Army Million Dollar Fund THIS WEEK

And the Emergency Home work is just one small part of the work for which the fund is needed. The Salvation Army must provide comforts for the boys over there awaiting transportation home. The Salvation Army Hostels from France to Vancouver must be ready at all times to receive and entertain returned men. The soldier must be helped back to civil life; he needs a job; perhaps he returns to find his wife sick, and a friendly hand needed in the home now and then. The Salvation Army visitors find ample opportunities for service, and they are instrumental in holding many a home together.

The soldier's child has the right to be well born, and there will be many an ex-soldier heartily glad that his wife can benefit by the attention of doctors and trained nurses at the Salvation Army Maternity Home.

Many of the boys will return to happy homes, homes well provided for. Difficult as it may be for even these men to accustom themselves to the old ways of living, their problem is simplicity itself compared with that of the soldiers and their families that the Salvation Army will be called upon to help.

And this help MUST be forthcoming. Our returned men must not be left to drift. It is the personal problem of the nation to-day, and every thinking man and woman is thoroughly grateful that there is an organization equipped to meet the crisis—an organization trained for this very work—an organization whose work is founded on sacrificial service—whose every ministration is prompted by such a love as that of the Good Samaritan.

Let your offering on behalf of the Homecoming Soldier be a measure of your sense of obligation to those who died for you on the battlefield.

"It is more blessed to give than to receive."
