"How Nice and Comfortable"

That's the remark that greets everyone in whose home there is installed one of the famous

VAN BUSKIRK SUPER-HEATERS.

Fuel is high in price and scarce in quantity. Why not conserve it with this new and improved method? Don't cost you a cent to investigate the merits of it, but once you have it installed in your home it will save you dollars on your winter fuel bill. If you wish to have your floor free from those uncomfortable draughts, buy one of these heaters. Come in and we will show you many of the unsolicited testimonials from users of this new device. Can be attached to coal or wood stoves as well as furnaces. Sole agents.
