HUN PSYCHOLOGY.

And still the German psychology is hard to understand. Though they destroyed French and Belgian industry, they howl aloud when told they must return the stolen machinery and make good the stolen raw materials. Though they ruined the French coal mines, they call it robbery for the Allies to demand that they make the loss good from their own mines, and so on ad infinitum. The brazen effrontery of all this is measureless, and it comes as a positive surprise to find a German writer actually confessing that the act of the Allies is only forcing restitution from a thief. Yet such has been the confession of Theodore Wolff in the "Berliner Tageblatt" of a recent issue:

"What does the French press say when it attempts to justify its claim to the Saar district and the left bank of the Rhine? It reproduces the annexation programme of German heavy industry as favored by militarists. What reply do we get when we demand that America shall, after all her promises, really support a juster and milder treatment of Germany? We are reminded of the cannibalistic outbursts of reicingj with which the Heavy Industrial Society feted the sinking of the Lusitania. What do they say when we protest against being robbed of our merchant fleet, which is indispensable to us for the revival of our economic life and our supply of food and raw stuffs? We are reminded that in the unrestricted U-boat war we sank other people's merchant fleets. Again, what is the answer when we ask to have our prisoners of war back? We are told that we separated the women and girls of northern French towns from their families to do forced labor; that we deported Belgian workers, and not only workers, by thousands to labor in the German munition factories. What do they tell us when they demand the surrender of tools and machinery? They tell us that German war industry, with the approval of its friends, removed machines that could be used, from the factories of northern France and Belgium, and that machinery that could not be taken away was scientifically destroyed. And lastly, what are we told when we protest against the so-called League of Right of the nations being made the instrument of oppression? They answer 'Brest-Litovsk.'"

Germany's worst enemy could not put the case more forcibly, and there is the possibility of this statement getting into the national understanding, though the possibility is a vague one.

One would think by the noise being made by opposition politicians and newspapers that they always had at their disposal a "party fund" to be used in case of emergencies. In 1915 it will be recalled, certain men in York county who had endorsed a note for \$5,000 for party purposes, made a most diligent search for a party fund and in the end were plainly told by the late Premier Clarke that there was none in existence. At last, to avoid going to jail, they had to dig down and pay the note out of their own pockets. The party fund which came to light in May, 1916, was stolen from the Valley Rail way.

A full report of the fighting speech delivered in the House by Hon. P. J. Veniot in reply to Mr. B. F. Smith will be found in another part of this issue, and will repay a careful perusal. Mr. Smith, ever since his party was bowled out of office two years ago has been making a fine-tooth-comb hunt for scandals involving members of the government and their legislative supporters. The result of his Herculean efforts to purify the political atmosphere were fully dealt with by the Minister of Public Works.

Although the Legislature had an exceedingly busy week and transacted a lot of business, there are many blunders both public and private yet to be dealt with. The members will have to travel some if prorogation is to take place before Easter.

GOOD PROGRESS MADE IN HOUSE WITH SUPPLY

(Continued from page 5)

that on his visits to Woodstock he had been greatly impressed by the public spirit of the people as was illustrated in their streets and side-walks. While in Woodstock, he had seen the site of the proposed Exhibition plant and had promised favorable consideration to their request for assistance when the war was over. More recently he had met a delegation from Woodstock and he and the members of the government had been strongly impressed with their plans. He felt strongly that the government should give favorable consideration in the matter. He knew of no exact precedent for the action proposed but he expected that at the first meeting of the government action would be taken to provide for the contribution of some portion of the cost, perhaps 20 or 25 per cent. with a limited maximum amount. He hoped the House would receive favorably a vote which he hoped to bring down in the supplementary estimates. The amount might be spread over two years.

MR. MURRAY (Kings) said he concurred with the remarks of the Hon. Premier with regard to the Woodstock Exhibition and financial assistance for it. In the past grants to exhibitions had not been on a stable basis. The needs of the Woodstock Exhibition had been called to his attention from time to time, and he agreed that it would be great encouragement to agriculture to erect Exhibition buildings in that part of the country. Exhibitions were essentially for the encouragement of agriculture and with the possible exception of the County of Kings there was no better farming country in the province than Carleton County. Now that the farmers of a portion of the province showed a tendency to abandon potato growing and to return to mixed farming they deserved every encouragement. In his opinion exhibitions should be held primarily in the agricultural sections. In many places exhibitions had been losing their agricultural character and becoming merely places of amusement. That fact had been called to the attention of the preceding government. He was much pleased to be able to support the proposal made by the Hon. Premier and considered it a wise move. It was only a few years before that dairying had been the great branch of farming in this province, but it had been largely abandoned for potato culture. He hoped that it would be restored to its former position.

The committee reported the resolution and asked leave to sit again. Supply was made the order of the day at 8.30 Monday night. The House adjourned at 4.30.

The failure of the St. John Standard to publish the report of Mr. B. F. Smith's speech on the budget indicates that the member for Carleton is not in good sledding with the Standard group of his party. They blame Mr. Smith for the troubles which have come to the party, and in this they are quite right.

There was once a term that had as long a run as "guy" in designating a male person. It was "cove." See Dickens and contemporary writers.

HOW THE SCRAP STARTED

Jones stepped on Smith's favorite corn and of course there was trouble. What Smith needed is Putnam's Corn Extractor—that painless remedy for corns and warts that cures in twenty-four hours. Putnam's is the only standby. Try it, 25c. at all dealers.

CHURCH SERVICES.

St. Paul's Presbyterian.

Rev. J. S. Sutherland, M. A., minister. Morning service at 11 o'clock; Sunday school and Bible classes at 2.30 p.m. Evening service at seven o'clock. All are welcome.

Christchurch Cathedral.

Fifth Sunday in Lent, April 6th. 8 a.m., Holy Communion; 10 a.m., Matins and Litany; 11 a.m., Holy Communion; 7 p.m., Evenson. The Dean will preach in the morning and Rev. A. F. Bate in the evening.

Methodist Church.

TERRIBLE AGONY FROM RHEUMATISM

A Sufferer Shows How Complete Relief was Obtained.

Rheumatism is a trouble extremely difficult to get rid of. If a tendency to rheumatism is established in the system it makes itself manifest by a return of the acute pains with every spell of bad weather. This is why so many people think the trouble is due to cold or damp. The fact is known, however, to medical men, that with the appearance of rheumatism there is a rapid thinning of the blood, and that the rheumatic poisons are only expelled from the system when the blood is restored to its normal condition. This means that to drive rheumatism from the system it must be treated through the blood, and for this purpose no other medicine has been so successful as Dr. Williams' Pink Pills. These pills renew and enrich the blood thus driving out the rheumatic poison, easing the aching, painful swollen joints, and restoring the victim to general good health. Among the rheumatic sufferers who have been cured by the use of this medicine is Mrs. Wm. Johnston, Chatham, Ont., who says: "Some years ago, while living in Mount Forest, I was stricken with inflammatory rheumatism, from which I suffered terrible agony. Neither the doctor who attended me, nor the remedies I tried gave me more than a little relief for a time, and as a consequence, I grew very weak and was on the verge of nervous prostration. At this stage an uncle advised me to try Dr. Williams' Pink Pills, as they had cured him of a severe attack of rheumatism. I took his advice and faithfully used the pills for several months when I found myself fully restored to health with every vestige of the rheumatism and every symptom of the nerve trouble gone. I have had no return of either trouble since, and feel very grateful for what Dr. Williams' Pink Pills did for me." Dr. Williams' Pink Pills as they had tained through any medicine dealer, or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

HON. P. J. VENIOT AND B. F. SMITH IN DEBATE

(Continued from page three.)

posite point out to him the roads that needed improving. He wanted no politics in connection with road work and he was determined to get the best value for the money. It had been said that he was spending all the money in the northern section of the Province to the neglect of the River Counties. He could assure them that such was not the case. Out of a total of \$364,000 expended last year, on bridges \$165,000 had gone to counties on the St. John and Kennebecasis Rivers. He had repaired over 700 bridges of which 59 were in Carleton, 76 in Kings, 24 in Queens and 53 in York. That did not look as if he was spending all the money in his own section of the Province. If they were to examine the road accounts they would find that 67 per cent was expended in the counties bordering on the St. John and Kennebecasis Rivers. It had been stated that money had been expended on ordinary roads and charged to permanent account. The Hon. leader of the opposition had referred to one item in his county, but he noticed that the hon member for Carleton, extravagant as he had been in the use of language, had not referred to the subject. In regard to permanent bridges he wished to say that there was not one under construction in Gloucester at the present time. On ordinary roads \$143,386 had been expended, of which \$70,000 went to counties in the central portion of the Province. Of the total of \$330,637 expended on permanent roads \$224,637 went to the St. John River district and \$106,000 to the other Counties of the Province. The hon. member for Carleton ought to hang his head with shame when he thought of some of the contracts let by the old administration. The Scadoux Bridge was a fair example of their work. They had failed
