GOVERNMENT NAVAL POLICY WILL SOON BE ANNOUNCED

Hon. Mr. Ballantyne Intimates That a Proposal Will be Submitted to Parliament at the Next Session—Minister Still a Believer in the Naval Policy of Sir Wilfrid Laurier—Canadian Boys to be Trained for the Service.

Ottawa, Ont., Nov. 19.—The intimation today by Hon. C. C. Ballantyne, minister of Marine and Fisheries, that the Canadian government will decide on a naval policy in the near future and that its plan will in all probability be submitted in the next session of parliament for approval raises vistas as to the epoch-making debates that will occur before July next year. It is probable that the country will once again be stirred from end to end over a naval policy. Colonel Ballantyne in the last election was a supporter of Sir Wilfrid Laurier and in most of his addresses since have shown that he still believes in that policy, at least as far as construction and operation of naval vessels in Canada are concerned. That policy was not pushed when the Borden government came into power although some feverish buying was done in an effort to overtake lost time. Recent statements by Sir Robert Borden, Hon. N. W. Rowell, and Colonel Ballantyne indicate that this old policy of Canadian construction, operation and administration will be accepted and extended.

So far as construction was concerned the Liberals only laid the groundwork by inducing the Vickers people to establish their plant at Maisonneuve. The fortunes of war have placed Canada in a position where she can build naval vessels of any type and that position will not be receded from. The great obstacle to building up a Canadian navy is the tremendous debt

we have to carry, but the expense of getting submarines, destroyers and the smaller but most useful craft, built as the first step in defensive sea forces, would not be so great as to be utterly out of the question.

Training ships along the lines proposed by the Navy League and the encouragement and training of Canadian lads for the service will be part of the policy.

With all this Sir Robert Borden proposes that there be a correspondence of all navies in the overseas dominions on a plan to permit close co-operation with the British navy. In his memorandum submitted at the Imperial War Conference in March 1917, he said: "It is thoroughly recognized that the character of construction, armament and equipment and the methods and principals of training, administration and organization should proceed upon the same lines in all the navies of the empire. For this purpose the dominions would welcome visits from a highly qualified representative of the admiralty who by reason of his ability and experience would be thoroughly competent to advise the naval authorities of the dominion in such matters. As naval matters can be developed on a considerable scale by the dominions it may be necessary hereafter to consider the establishment for war purposes of some supreme naval command upon which each of the dominions would be adequately represented."

MINTO AWARD IS WORSE THAN NOTHING

Strong Statement Given Out at U. M. W. Headquarters at Sydney—May be a Strike.

Sydney, N. S., Nov. 19.—That the award of the Minto Conciliation Board is "worse than nothing" and that there will be a strike at that colliery within forty-eight hours from the time of receipt of the finding, unless the company comes across in the meantime, is the statement made by U. M. W. headquarters at Glace Bay.

The finding of the board, which was presided over by Chief Justice H. A. McKeown, of New Brunswick, was received by the executive of District 26 yesterday.

"The majority report provides for an increase of one cent per box of coal mined. The minority report declares for the ten per cent. increase asked by the men," says J. B. McLachlan, the district secretary.

"How does the award compare with the amount of increase asked by the men?"

"The men asked for a ten per cent. raise and as they are getting about 60 cents per box now, that would have meant an increase of about six cents per box."

Some time ago, Mr. McLachlan, in an interview locally made the statement that "unless we get something out of this board there will be a strike at Minto."

He was asked about this statement this morning in the light of the developments.

"That action was decided upon some time ago," he declared, "in the event of the board failing to give the men reasonable relief."

"If they carry out the decision to strike, when will the strike begin?"

"They will give the company forty-eight hours notice."

"When will the forty-eight hours begin?"

"Probably from the time of receipt of the board's finding. As we have already received it at Glace Bay, it has probably already reached Minto, and notice may have been already served on the company."

"Then part of the 48 hours has perhaps already elapsed."

"Yes," Mr. McLachlan said, and the strike, if there is one, and the negotiations with the company will be handled by William Hayes of Springhill, district board member, who has been on the ground at Minto for some time past.

Because we laugh at fool things that don't seem to tickle the risibilities of others, we conclude that our sense of humor is anemic. Why some of us would hate to confess that to us a woman in a barbershop with her youngest dreadnought is the funniest thing alive.

Mr. Flemming's Health

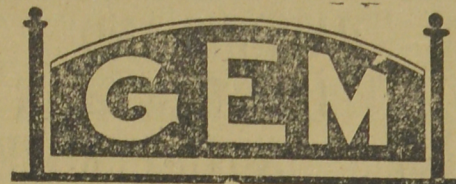

St. John Times: It was rumored about the city this morning that Hon. J. K. Flemming's condition had become critical and that only members of his own household were allowed to see him. A Times reporter was in conversation with Dr. Rankine of Woodstock, his attending physician, this afternoon. He said that Mr. Flemming's condition was about the same as it has been for the last two or three weeks.

TENDERS FOR SNOWPLOWING.

Tenders will be received at the City Clerk's office, City Hall, until 12 o'clock noon, Saturday, November 22, 1919 for the snowplowing of the city sidewalks when required.

Tenders will be received separately for either or both divisions. The upper division being all that part of the city lying on the upper or northwesterly side of the centre of Carleton street. The lower division being all that part of the City lying below the centre line of Carleton street.

The lowest or any tender not necessarily accepted. G. C. McDOWELL, City Engineer.
