THE STEAMER OLYMPIC WITH TROOPS ON BOARD EN ROUTE TO CANADA

Big Liner Sailed From Southampton on Saturday With 5,500 Canadians—Was Given a Dramatic Send-off by the Authorities—Owing to a Strike the Steamer Had to Clear Without the Aid of Tugboats—Scandinavian on Way to Quebec.

London, May 12.—The steamer Olympic sailed from Southampton on Saturday evening with 5,600 Canadian soldiers on board. The authorities combined to give her quite a dramatic departure for, in addition to the civilian farewell led by the Lord Mayor and a great crowd of cheering people in the gathering twilight the high steamer had to clear without the aid of tugs on account of a strike of their crews, which had led to the expectation that the liner might not sail. The captain declared boldly that no question of tugs was going to prevent his getting the Canadian boys home, and at eight o'clock the Olympic cleared under her own steam and started on her voyage among the greatest enthusiasm.

HOHENZOLLERN PARTY BECOMES EXCITED OVER PEACE TREATY

Amerongen, Friday, May 9.—An official abstract of the preliminary peace terms published in the Dutch newspapers, which was translated and read to the former German Emperor today, has aroused considerable excitement among the members of the Hohenzollern party. An inkling concerning what the Entente is to do in connection with bringing William Hohenzollern to trial had reached the German officials earlier in the week. They communicated the information to the former Empress, who displayed signs of marked emotion, but decided to await the appearance of a fuller official report before making the news known to her husband. A special messenger motored to Arnheim Thursday to procure a copy of the local newspapers. Meanwhile the former Emperor continued his usual occupation of "swing longs," but apparently he is suffering from ever-growing excitement. He worked as never before, and his physician, Dr. Foerster, who assisted him, was completely exhausted at lunch time.

VISCOUNT GREY PLEASED WITH THE AMENDMENT TO LEAGUE COVENANT

London, May 11.—Viscount Grey, of Fallonden, former Secretary of State for Foreign Affairs, says in an interview that he is delighted with the amended covenant of the League of Nations, having "feared that much less might be accomplished at the Conference. Viscount Grey considers the key to the whole organization is the annual meeting of the nine premiers or foreign secretaries represented on the council. "So long as that meeting is regularly held, and widely inspired," he says, "so long may we confidently hope that the peace of the world will be secure." He believes that armaments will diminish as the league becomes strong and vital and produces a sense of security, and that eventually those who now fear it does not go far enough and those thinking it goes too far will both be satisfied.

THOUSANDS ON STRIKE

Glenn Falls, N. Y., May 11.—Refusing an offer made by the International Paper Company of approximately ten per cent. increase in wages in a new working agreement which was to go into effect today, five thousand members of the International Brotherhood of Pulp, Sulphite and Paper Mill workers employed in this company's mills throughout the country struck between midnight and 8.30 o'clock this morning. Members of the mechanics' organizations also went out.

SIR E. KEMP AT OTTAWA

Ottawa, May 11.—Sir Edward Kemp, Overseas Minister of Militia, returned to Ottawa late tonight. It is understood that with the war over and demobilization so well advanced, he will not return to London. The abolition of the overseas ministry is now only a matter of time, but will await the Premier's return. Sir Edward stated that he would seize an early opportunity to reply in the House of Commons to allegations regarding Argyle House.

NEW INSTRUMENTS ARE BEING USED IN AERIAL NAVIGATION

American N. C. Planes Now Being Used in Transatlantic Flight are Equipped With Them—How Position at Sea is Located—An Interesting Experiment.

New York, May 12.—A despatch from Washington published in the newspapers this morning says: The important part played by three delicate instruments in the transatlantic flight now being attempted by the American Navy was made known today by the department in descriptions of the aerial sextant, the drift and speed indicator, with which all the N. C. planes are equipped. These instruments, the navy announced, were invented and designed especially for use in overseas navigation. It was explained that no airplane has ever flown enough at sea to warrant the use of the sun, moon and stars for fixing a position, as is done by seagoing vessels. Navigation on the transatlantic flight, therefore, is a new experiment which the special instruments were designed to meet.

Describing the instruments, the statement said: "Since the time of Columbus, celestial bodies have been used to locate the position at sea, but to do this a clear day has been necessary. For this flight, however, an instrument has been designed that will enable the air navigator to locate his position, regardless of the weather and the speed of the airplane. A unique feature of the aerial sextant known as the Byrd sextant, invented by Lieutenant Commander R. B. Byrd, is that a bubble in a tube takes the place of the sea horizon. A specially constructed lens is used in sighting the bubble, which is reflected in a mirror. The sun is reflected in another mirror. The observer brings the sun tangent to a line; at the same time he brings the bubble tangent to the line."

Leaders of the Conference Will Reply to Hun Notes

NEGROES IN A RIOT WITH BLUEJACKETS

Charleston, S. C., May 11.—A count today by the police showed that two negroes were killed and 17 injured in a riot last night with civilians and sailors. Seven bluejackets also were reported as wounded.

As a result of the disorder, enlisted men at the Navy Yard and the Naval Training Station were not permitted to leave their quarters, and meantime the naval authorities assisted the police in a general inquiry. This, it was said, disclosed that the trouble started when Isaac Doctor, a negro, was fatally wounded, after he had shot a sailor. In a short while nearly two thousand sailors were on the streets and in the rioting many innocent negroes were shot and beaten.

N. B. MINISTERS AT THE CAPITAL

(Ottawa Journal.)
Representatives of the Government of New Brunswick in the persons of Hon. Peter J. Veniot, Minister of Public Works, Hon. Dr. E. A. Smith, Minister of Lands and Mines, accompanied by Mr. E. S. Carter, secretary of the St. John and Quebec Railway Company, arrived in the city this morning and are at the Chateau.

Hon. Mr. Veniot is here to meet the Department of Railways and Canals in connection with the apportionment of the Dominion grant for the construction of good roads in Canada. Under the regime of Mr. Veniot the roads in New Brunswick have been much improved and he now has a programme for permanent work in which New Brunswick's share of the Federal grant will be of much service.

Hon. Dr. Smith is interested in proposed changes to the old Government House in Fredericton, one of the most historic buildings in Canada, and will meet the Government in that connection.

Terms of the Reply Have Already Been Agreed Upon—German Foreign Minister Wants Details of the Transfer of Prisoners Left in the Hands of a Commission—Glad That Work is to be Carried on Expeditiously.

Paris, May 12.—The peace conference leaders are reported by the newspapers to have decided upon the terms of the reply to be made to the two notes sent President Poincare on Saturday evening by Count Von Brockdorff-Rantzau. The first of these notes asked that there be a reciprocal policy adopted as to the repatriation of prisoners, and requested that the details of the transfer be placed in the hands of a commission. In his second note, the head of the German peace delegation advanced a counter-proposal as to international labor legislation.

According to the newspapers the basis of the second note is a labor charter inspired by the conference at Leeds and Berne and they argue that the purpose is to create among socialists an opinion favorable to Germany by putting in direct collaboration the working classes and the present government of that country.

SAYS ORAL DISCUSSION WITH BELLIGERENTS IS A GOOD METHOD OF SOLVING DIFFICULTIES

Paris, May 11.—Count Von Brockdorff-Rantzau, German Foreign Minister, and chief of the German peace delegation, in addressing Premier Clemenceau relative to the repatriation of prisoners, asks that the details of the transfer be entrusted to commissions.

The German Foreign Minister states that the German peace delegation has "noted with satisfaction" that the draft of the treaty recognizes in principle the repatriation of German war and civilian prisoners with great expedition and says that special commissions might carry on direct oral discussions which would include all belligerent states, it being pointed out that even during hostilities this has proved a most effective way of solving difficulties.

HUNS BELIEVE SOME OF THE STIPULATIONS ARE FAVORABLE TO THE ALLIED GOVERNMENT

The note says that this work should be much easier that the war is over and would remove differences of conception or lack of clearness on particular points, such as legal conceptions in individuals countries. The German delegation, it is said, considers it indispensable that those war and civilian prisoners detained or undergoing punishment for other than disciplinary offences should be unconditionally repatriated.

Regarding war and civilian prisoners of Allied and associated powers in its hands the note says "Germany has recognized the same principle. It appears self-evident to the German delegation, therefore, that on grounds of fairness certain alleviations in the treatment of prisoners should be agreed upon pending their return."

The note then proceeds: "In a one-sided manner, some of the stipulations have been made in favor of the Allied and Associated governments. For instance, those regarding the surrender of personal property, the search for missing objects and the care of graves might be cited. It is assumed that in these questions a demand for complete reciprocity is founded on general human rights."

HUN FOREIGN SECRETARY AGREES THAT LABOR PROBLEMS DEMAND A GREAT DEAL OF ATTENTION

In his note dealing with labor questions, Count Von Brockdorff-Rantzau says that the German government agrees with the Allied and Associated governments that the greatest attention must be paid to these problems.

Referring to the draft of an agreement on international labor compiled by the German government and proposed by the League of Nations, the note says:

"In order, in the interest of all of humanity, to put their principles every where in to practice the acceptance of the German' delegation's proposal, is certainly requisite, we consider it necessary that all states should join in this agreement, even if they do not belong to the League of Nations."

NOT SO SERIOUS AS KINMEL

London, May 11.—The reports of disturbances on Friday night last in the Canadian camp at Seaford, turn out to be not so serious as those at Kinmel Camp, and so far as is known no grave injury or loss of life has occurred, but there has been considerable damage.

The affair arose over minor camp grievances, chiefly in connection with the prohibition of week-end travel by a rule enforced 18 months ago in response to the government's urgent request to restrict railway traffic. There was apparently irritation also over other unimportant regulations which culminated in regrettable disorder, the principal phase of which was an attack on the canteens and seizure of beer. The non-commissioned officers' mess was wrecked, but order was soon restored. An inquiry is being held.

MEETING WAS CALLED OFF

Montreal, May 2.—A socialist meeting called for Saturday afternoon on Fletcher's Field never started. The police took a hand and forbade the meeting, because there had been no permit. All pleading was in vain. Sergeant Detmers, who was in charge, said that the regulations had to be carried out, and refused to allow any speeches.

No trouble occurred, though some of those who had gathered were quite wrathful.
