

## C.P.R.'S NEW RECORD

The re-employment of returned soldiers has been carried out by the C.P.R. so wholeheartedly that according to the official records up to the end of August, actually more returned soldiers have been given employment than left the Company for service overseas. The exact figures are as follows:—

Total reported as joining the Army	10,533
Dead	1,000
Wounded	1,952
Re-employed in the service	5,024
Other soldiers given employment	5,543
Total soldiers given employment to date	10,567

In finding employment for returned soldiers, the C.P.R. has found by experience that in most cases it is advisable to reinstate them in the same department as that in which they worked previous to enlistment. The freight handler who has ambitions to become a dining car waiter is not encouraged to change his vocation unless he can prove that he learned something about waiting, for instance, at an Officers' mess during his military life. His military experience has probably made him a better man than before for handling freight but has not qualified him for the skilled trade of a dining car waiter. Baggage men who have served in the Army come back as a rule all the better for their experience, but the Army training has not qualified them to be sleeping car conductors or ticket clerks, and if they prove to be misfits at a new job the only result is friction and discontent. The general experience, however, is that the normal returned man who goes back to his old or a similar job is all right, indeed is often improved by the discipline and teamwork which he has learnt in the Army.

The policy of the C.P.R. has been to find a position at least as good as the position given up, and this policy has been carried out in the higher ranks of the service as well as in the lower ranks. Thus:

Mr. T. S. Acheson who was employed as General Agricultural Agent at Winnipeg, enlisted in October 1915, was re-employed in the same capacity on January 1st, 1919.

Mr. G. W. Curtis, who was employed as Industrial Agent at Montreal, enlisted in November 1916, was re-employed January 1st, 1919 in the same capacity.

Mr. M. L. Duffy, who was Chief Clerk, Freight Department, at London, England, enlisted October 1914, was re-employed March 1st, 1919 as Agent at Glasgow.

Mr. F. A. L. Gascoigne, who was Superintendent Car Service, Montreal, enlisted July 1915, resumed duty as Secretary Treasurer of the Canadian Pacific Ocean Services Ltd., Montreal, in October 1918.

Mr. Gerald Ham, who was District Freight Agent at Fort William, enlisted in June 1915, and returned to duty on March 15th, 1919, as District Freight Agent, at Cleveland.

Mr. W. M. Kirkpatrick, who was Assistant Freight Traffic Manager, at Montreal, and enlisted in September 1915, resumed duty on February 1st 1919, as Assistant Freight Traffic Manager at Winnipeg.

Mr. T. M. Leask, who was Chief Surgeon at Moose Jaw, enlisted in February 1916, and resumed duty as Chief Medical Officer at Moose Jaw on June 1st, 1919.

Mr. E. H. Muckleston, who was Division Engineer in the Natural Resources Department at Calgary, enlisted in April 1916, and resumed duty as Division Engineer on March 17th, 1919.

Mr. G. G. Ommann, who was Special Assistant Engineer at Montreal enlisted in August 1915, and resumed duty in July 1919, as Assistant Engineer in the Chief Engineer's Department at Montreal.

Mr. L. C. Ord, who was Assistant Works Manager at Angus Shops, Montreal, enlisted in September 1915, and resumed duty in the same capacity in May 1919.

Mr. C. W. P. Ramsey, who was Engineer of Construction, Montreal, and who took command of the Canadian Overseas Railway Construction Corps in February 1915, resumed duty as Relieving Superintendent on Eastern Lines in March 1919.

Mr. M. J. Robertson, who was Assistant to the Manager of the C.P.R. Real Estate Department, Montreal, enlisted in June 1916, and returned to duty in his former position in March 1919.

Mr. H. B. Yewdall, who was Purchasing Agent in the C.P.R. Right of Way Department at Winnipeg, enlisted in November 1914, and resumed his former position in June 1919.

## Nearly Every Girl Can Make Herself Pretty and Attractive

EVERY GIRL SHOULD THINK ABOUT.

Probably you know just such a girl.

Perhaps she is sixteen—good to look at, and pretty—quite interesting because she reflects the graces and charm that gives promise of happiness to herself and others. But she is not so rosy, has faded away—her eyes are listless—the buoyancy of spirit and strong. The color in her cheeks, once vigor she once possessed are sadly lacking. Parents, friends, this girl needs Ferrozone—needs it that her blood may be renewed—needs it to restore the nerve force that growth, study and the development of her fresh youth have exhausted. This girl will become queen with Ferrozone—which will restore her color—bring back her oldtime energy—give brightness to her eyes and vivacity to her spirits. In Ferrozone every girl finds strength—then she can do things. In Ferrozone there is endurance—that drives away morning tiredness and languor. For the girl or woman that wants to be happy, healthy, winning—who values rosy cheeks, laughing eyes and abundant good spirits, nothing can compare with Ferrozone. 50c. per box, or six for \$2.50. Get it today from any dealer in medicine, or by mail from The Catarrhzone Co., Kingston, Ont.

## DID YOU EVER THINK

why that skin trouble, from which you are suffering, will not heal? It is because it is so deeply rooted that ordinary ointments are incapable of penetrating to the seat of the disease.

Zam-Buk, on the contrary, is so refined that it is capable of reaching the underlying tissues, and that is why so many cases of skin trouble, which have defied all other treatments, have yielded to Zam-Buk.

Don't delay! Get a box of Zam-Buk and prove it for yourself. Not only is it best for eczema and all skin troubles, but also for ringworm, ulcers, old sores, blood-poisoning, boils, piles, burns, cuts and all skin injuries. All druggists or Zam-Buk Co., Toronto. 50c. box, 3 for \$1.25.

## ENCOURAGING THE SHEEP INDUSTRY

INDUCEMENT TO USE A PURE BRED RAM AT THE HEAD OF YOUR FLOCK OF SHEEP.

THE NEW BRUNSWICK DEPARTMENT OF AGRICULTURE are co-operating with the Dominion Live Stock Branch in encouraging the use of Pure Bred Rams.

## Persons Eligible.

Any sheep raiser who purchases a pure bred registered ram and who has not before at any time used a pure bred ram in his own flock, shall be entitled to a premium of ten dollars the first year, five of which will be paid by the New Brunswick Department of Agriculture and five by the Dominion Live Stock Branch, and an additional premium of five dollars the second year, payable by the Live Stock Branch. Applications for premiums to be sent in to Live Stock Division, Department of Agriculture, Fredericton, not later than December 1st.

Co-operative Purchasing of Pure-Bred Stock.

The Dominion Live Stock Branch will pay the travelling expenses to any point east of Fort William, Ontario, of any accredited man appointed by a Society, group of Societies or group of farmers who have orders to purchase at least twenty-five pure bred rams for farmers never having used a pure bred before. This same person has the privilege of making purchases of other live stock or rams for any farmer while on the trip, so long as the minimum of twenty-five rams are purchased as outlined above.

Grading of Pure Bred Rams in New Brunswick.

The services of Professor Sackville, of Ontario Agricultural College, have been secured to visit each pure bred breeder in the province and classify the rams offered for sale into three grades, superior, average and common. By purchasing your rams in the province, farmers can write any breeder of pure bred sheep and be sure of getting the class of ram he applies for. New Brunswick is the first province to adopt this classification system. Breeders and purchasers stand to gain by it. The number of rams for sale, together with the price and grade, will be listed with the local Live Stock Division.

Boys' and Girls' Sheep Clubs.

In order to create a deeper interest among our farm boys and girls in the business of sheep raising, arrangements have been completed to organize Sheep Clubs in the province. Members must be between the ages of ten to eighteen years. Ten members will constitute a Club. Two grade Shearling ewes will be the number allotted to each. Members can get credit from any bank for purchase price of sheep for one year at 6 per cent. interest. The Department will loan a pure-bred ram to any Club with twenty ewes.

For information on any of the above policies, write

HON. J. F. TWEEDDALE, Minister, Fredericton, N. B.

LIVE STOCK DIVISION, Department of Agriculture, Fredericton, N. B.

## WHICH ARE THE SEVEN SEAS OF LITERATURE AND MYTHOLOGY?

(London Chronicle.)

That there is magic and mystery in numbers is an ancient tale; and the fact is confirmed today by a correspondent asking "Which are the seven seas?" Kipling, it is presumed, knows well enough; but does the public in general know? Upon inquiry there appears to be a common consensus as to six of the seven, these being the five great oceans and the Mediterranean Sea. And just as the ancients, agreeing on six wonders of the world, were divided upon the seventh (some voting for the Pharos of Egypt and others for the Palace of Cyrus) so there is doubt as to whether the seventh sea be the North Sea or the Baltic. If the ordinary shellback were asked to nominate the seven seas, says a correspondent, they would in nine cases out of ten be North and South Atlantic, North and South Pacific, Indian, Mediterranean and Baltic. Except by the rowing whaler, the Arctic and Antarctic are seldom visited and do not come into the catalogue. The North Sea is merely a bit of the North Atlantic, but the Baltic, like the Mediterranean, is a sea in itself.

The "Seven Seas," a writer reminds up, exist in Hindu mythology, to which Kipling may have gone for his well known title. According to the Puranas the earth is circular and flat, like the flower of a water lily. Its circumference is 4,000,000 miles. In the centre is Mount Soomeroo. On this mountain are three peaks formed of gold, pearls and precious stones, where the deities reside. At its base are three mountains, on each of which grows a tree 8,800 miles high. The furthestmost country from these mountains is bounded by the salt sea. Beyond this sea there are six others—of sugar-cane juice, of spirituous liquors, of clarified butter, of curds, of milk and nectar. Each sea is surrounded by a separate continent.
