

Children Cry for Fletcher's

## CASTORIA

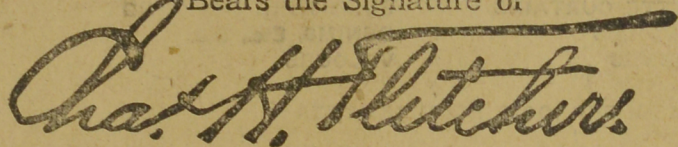

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

OF INTEREST  
TO WOMEN

MADE-OVER SKIRTS.

Narrow Styles are in Again and Some  
Changes Must be Made or  
New Ones Bought.

Now that the skirts are definitely narrow the well dressed housewife must look to her petticoats. If she is like some women she just succeeded last summer in getting an extra gore in all her white petticoats, many of them left over from the previous narrow vogue—and now narrow skirts are in again.

It is not such a difficult matter to make a petticoat narrower as it is to make it wider. Indeed sometimes it can be made narrower by cutting out a worn section.

With the new street suits the well dressed woman wears a very simple petticoat. In many cases it shows flat tailored seams and no ruffles, but instead a scalloped lower edge. Some times the scallops are buttonholed and sometimes they are bound with a bias band of silk. Jersey petticoats of a heavy quality material are made in the same way. They are also made with a scant, shaped flounce applied below the knees.

Satin petticoats, with not very full plaited flounces are, likewise, a very good investment.

Be careful in cutting one of the new petticoats not to get it too narrow around the knees. Narrowness at this point often causes a petticoat to "ride up." Another good way to keep the petticoat down where it belongs is to make the hem or lower part, if you have a scalloped petticoat, of two thicknesses of material, or to band a straight flounce with a bias strip of the material on the bottom.

## HOUSEHOLD WISDOM.

When black shoes attain a rusty appearance, rub them with an equal quantity of black ink and olive oil.

When mixing a mustard poultice use the white of egg. This will obviate all blistering and will in no wise affect the efficacy of the poultice.

A piano is quite as sensitive to any changes of temperature as an invalid. It should not be placed near the fire because the heat draws the wood and it should not be near an open window on a damp day because the wires are apt to rust.

Next time you whip cream use a teaspoonful of strained honey instead of sugar to sweeten it. It will give a delicious flavor and you can whip the cream early in the day at your leisure because it will remain firm all day.

If meat is left over in large quantities, it can be used for salads, hash or croquettes. In smaller portions it can be mixed with left-over vegetables and savory seasonings and converted into an appetizing stew or meat pie. Or it can be made into a scalloped dish with the addition of tomatoes, macaroni or rice.

When purchasing a hair mattress, select one filled with black hair. The white hair is usually a bleached variety and thereby has been deprived of its springiness and it mats more quickly than the black or even the gray hair.

When the cake of soap becomes so thin that it has reached the point of breaking, moisten it and flake likewise with a full cake, then firmly press the two together and let it remain to dry for a couple of days. You will then have a solid cake of soap and no waste.

Soap and water will take the paint from woodwork. You can easily remove finger marks by rubbing them with a piece of clean flannel dipped into kerosene. Then wipe with a cloth wrung out of hot water to destroy the kerosene odor.

Ether will cleanse white satin collars beautifully. Sponging the soiled spots will leave a ring. Better results will be secured if the ether is poured into a bowl and half the collar is immersed and squeezed at a time.

## Wood's Peppermint Cure.

The Great English Remedy. Tones and invigorates the whole nervous system, makes new blood in old veins, cures Nervous Debility, Mental and Brain Worry, Indigestion, Loss of Energy, Palpitation of the Heart, Failing Memory. Price 21 per box, six for \$5. One will please, six will cure. Sold by all druggists or mail. The plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT. (Formerly, Canada.)

## BRIEF BUT USEFUL RECIPES.

Drive Away Ants.—A little quicklime placed in the infested places.

Kill Insect Life.—Burn sulphur in a tightly closed room. It will kill almost all insect life and their eggs and larvae.

Make Leather Waterproof.—Saturate it with castor oil; to stop shoes squaking, drive a peg into the middle of the sole.

Remove Tar from Cloth.—Rub it well with turpentine till every trace is removed.

Egg Stains on Spoons.—Rub with common salt.

Fruit Stains on Hands.—Wash the hands in clear water, dry slightly and while still moist strike a sulphur match and hold your hands around the flame.

Clean the Hair.—Wash well with a mixture of soft water, 1 pint; sal soda 1 ounce; cream tartar ¼ ounce.

Clean Gloves.—Pour a little benzine into a basin and wash the gloves in it, rubbing and squeezing them until clean. If much soiled, they must be washed again through clean benzine and rinsed in a fresh supply. Hang in the air to dry.

Clean Hair Brushes.—Dissolve a little soda in warm water and pour in a small amount of ammonia. Hold the brushes with the bristles downward and avoid wetting the back as far as possible; shake until the grease is removed; then rinse in cold water and put in the air to dry.

Remove Stains from Linen.—Wet the part stained and lay on it some salt of wormwood; then rub without diluting it with more water.

How to Remove a Rusty Screw.—Apply a red hot iron to the head for a short time, the screw-driver being applied immediately while the screw is hot.

Remove Mildew from Cloth.—Put a teaspoonful of chloride of lime into a quart of water, strain it twice, then dip the mildewed places in this weak solution and lay in the sun. If not effective the first time repeat.

Cure Mosquito Bites.—Put ten drops of refined carbolic acid into an ounce of rose water; shake well and apply. (If you hold your breath while a mosquito has its bill in you it cannot withdraw it until you breathe again.)
