

HAVE YOU NICE HANDS?

You can have if you use Zam-Buk regularly. Women who do their own housework, and constantly have their hands in water, say nothing equals Zam-Buk for keeping the hands in good condition. Or, if your hands are chapped, one thorough application of Zam-Buk at night will bring ease by morning, and continued use of this balm will heal the cracks and roughness.

Miss Della Martel, of 35 McKay St., Ottawa, says: "For two winters I suffered acutely from cracked and chapped hands. I tried various salves, which seemed to do them good for a time, but as soon as I went out doors my hands would become just as bad as ever. A friend advised me to try Zam-Buk, and it was really wonderful how even the first application of this balm stopped the smarting and drew out the soreness. In a very short time my hands were quite smooth again. Now I rub Zam-Buk on my hands occasionally all through the winter, and never have any trouble from cracks or chaps."

For frost-bite, chilblains, cold sores, eczema, boils, ulcers, blood-poisoning, cuts, burns and scalds, Zam-Buk is equally good. All dealers, 50c. box.

Zam-Buk

TO ADVERTISE THE PROVINCE

A Plan to Make New Brunswick and Its Opportunities Better Known Outside.

The New Brunswick Tourist Association is asking for the co-operation of all sections of the Province, in a plan to make the Province better known, by a general Forward Co-Operative Movement this year; in which special emphasis would be laid upon the opportunities for Tourists, Sportsmen and Hunters, as well as on the business opportunities contained in its Forests, Mines and Farms.

It is proposed early in May to hold a convention at a point to be decided upon, where the time would be devoted to the inspection of local attractions, to displaying moving pictures of Forest, and Hunting scenes, as well as of farming, Lumbering, and Mining; to talks by outstanding men, and to a banquet at which there would also be stimulating addresses. The plan has the approval of the Provincial Authorities, who have promised to assist with screens covering the above resources.

The various boards of trade, Tourist Associations, and kindred organizations throughout the Province, are being asked to co-operate in the movement, the intention being to hold these meetings yearly at different points.

A man who has little desire to talk can find perfect contentment in a room with three or four women. A few cynical remarks is all that is expected from him.

SPECKS FLOATING BEFORE HIS EYES

the eyes, when everything turns black for a few seconds and you feel as if you were going to faint, you may rest assured that your liver is not working properly.

The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of a medicine that will clear away all the waste and poisonous matter from the system, and prevent as well as cure all the troubles arising from this accumulated mass which has collected in the system.

Keep the bowels open by using Milburn's Laxa-Liver Pills and you will have no liver trouble of any kind. They will clear away all the waste and effete matter which has collected and make the liver active and working properly.

Mr. John R. Morrison, Grand River Falls, N.S., writes:—"Several months ago I was troubled with a sour stomach, and had specks floating before my eyes. I took five vials of Milburn's Laxa-Liver Pills which cured and cleaned my blood before any length of time. I told my friends about it and they got some, and they, too, find themselves different since they took them. I recommend your pills very highly."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers, or mailed direct on receipt of price by the T. Milburn Co., Limited, Toronto, Ont.

REPORT ON THE SCHOOLS OF YORK & SUNBURY

(Continued from Page Two)

to deteriorate. I have been compelled to recommend that the County Draft be withheld until adequate provision has been made. No. 4 is situated at Lake George. The whole community is suffering from the closing of the mines, but the property and equipment of the school are good. Nos. 5 and 7 are in steady operation. No. 6 irregularly. No. 10 has been poorly managed. The trustees exercise little or no care in the selection of a teacher. No. 12 has been established but a very few years. The people in this district take a deep interest in school matters and have already paid the debt incurred in erecting the school buildings.

QUEENSBURY—The Parish of Queensbury has always been one of the most satisfactory in educational matters, of all the Parishes in this Inspectorate. No. 1 is well equipped and its work can be classified as good. No. 2 was closed for lack of pupils. Nos. 3 and 4, formerly small schools are now having increased attendance. For years, No. 5 has done excellent work. Its present teacher is Miss Hazel Smith. Miss Baylis has been in No. 6 for three terms. With a heavy school, she has given faithful service. No. 7 is operated more steadily than formerly, and is showing improvement. No. 8 is an important school, and is doing satisfactory work under the guidance of Miss Grace Gunter. When I visited No. 10, in the second term, the school was temporarily closed because of the teacher's illness. Extensive repairs have been made to the school building and a new woodshed erected. The equipment is satisfactory. No. 11, at Scotch Lake, has always been satisfactory. Because of deep snow, I was unable to visit this school the second term.

ST. MARY'S—A new district has been established in Lower St. Mary's. This is really the re-establishment of an old district that had been absorbed by No. 1 St. Mary's and No. 3 Mauderville. The new district is known as No. 1½. The change has caused No. 1 to revert to an ungraded school of one department. No. 2, Devon, has an increasing attendance. The trustees have opened one new department and must soon open another. The present school building is very old and unsatisfactory. The trustees are contemplating replacing it with a modern brick house. No. 3, Mauderville, has an excellent staff, and the work of the different departments bears testimony to this statement. At the High School Entrance Examinations, I was informed that all the students from the Principal's room, passed, some of them with very high marks. The business is carefully looked after by the worthy Secretary, Mr. W. T. Day, himself a teacher of long experience. No. 3½ has provided new blackboard and maps. The standard of the school is improving. No. 4 has had some good teachers, but poor attention from the trustees. The buildings need paint; apparatus is only fair. No. 5 has kept the same teacher, Mrs. Ruth Walker for twelve years. She has practically made the school, and her influence will long be felt in this community. The business of No. 6 is well managed and the school has been well conducted by Miss Helen Manzer. No. 7, Miss Sadie Hanson, teacher, is quite satisfactory. The property is good and the equipment fair. No. 9 was closed part of the year, because the teacher could not secure a boarding place. This difficulty has arisen in more than one district. No. 10 is a small district, but deserves credit for the generous sup-

port it has given its school. No. 11 is remote, and in operation only part of each year. No. 12 is a progressive community. The trustees are erecting a large concrete school house, which will be ready for occupation next term. No. 13 has steadily improved of late years. The property is kept in good condition and painted. The equipment and standard of work are good. The ratepayers of No. 14 take but little interest in their school. Adjoining is a vacant district part of which has been offered them for the purpose of school taxation on condition that certain improvements be made to their own property. As yet they have failed to take advantage of this offer.

FREDERICTON CITY—The schools of Fredericton have had a fairly prosperous year. The new annex to the Charlotte St. School has provided two extra departments and a fine assem-

bly hall. Some of the ordinary grades have been removed from the York St. building and placed in the Smythe St. School. The rooms vacated are being used for physical training and domestic science.

A few changes have occurred in the staff. Miss McElvenny has been assigned to Charlotte Street, and Miss Boyd to Smythe. In the Model School Miss Mills resigned to attend one of the Colleges in the United States. She will be succeeded by Miss Marian Caswell, Mr. A. R. Styles, a graduate of the U. N. B., has been added to the staff of the High School, in which the high standard of work has been efficiently maintained.

The bolshevik food dictator in Petrograd is charged with embezzling 50,000,000 rubles. He claims to have spent the so called money for a new hat and a pair of shoes.

4 Labor Saving Articles for the Home 4

"WITCH" Soot Destroyer, cleans the smoke pipes without taking them down.

"PORCELLA" prepared expressly for cleaning Baths, Basins, Sinks and other enamelled ware.

"SANI-FLUSH" the only satisfactory article on the market for cleaning Closet Bowls.

"DESOLVO," by using in time, will prevent the clogging of waste pipes and remove obstructions and save plumbing bills.
