

DROPS OF MAGIC! LIFT OUT CORNS

Sore, touchy corns stop hurting, then lift right out with fingers

For a few cents you can get a small bottle of the magic drug freezone recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of freezone. Apply a few drops upon a tender, aching corn or callus and instantly all soreness disappears and shortly you will find the corn or callus so loose that you lift it off with the fingers.

Just think! Not one bit of pain before applying freezone or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns, or corns between the toes, also hardened calluses on bottom of feet, shrivel up and fall off without hurting a particle. It is almost magical.

Ladies! Keep a tiny bottle on the dresser and never let a corn or callus ache twice.

WHY BELGIANS STILL NEED HELP

"In travelling through Belgium with the Belgian armies, I have been able to see the country recently tenanted by the Bochs in the condition in which they left it, and never was there such desolation anywhere. One cannot get away from signs of destruction, no matter where one goes, along the country roads or in the city streets.

Not only has property been destroyed and every means of livelihood taken away from the people, but the peasants, especially in the country districts, have been left destitute both of home and food. We travelled twelve miles yesterday through open country and as but one small instance of the vast plundering of the Germans, let me state that in all twelve miles not one solitary live animal did we see, and practically every tree had been felled, so you can imagine the dreary aspect of the scenery.

All the peasant women and children we met on our way, said a news correspondent, while they greeted us with cheers and received us into their homes with open arms, those that had homes, showed the greatest suffering from insufficient food and nourishment. They did not complain, but merely stated, as a fact that they had not tasted meat for two months and had lived largely on soup and coffee.

The cry of the Belgians today is for food and clothing and those who would help, no matter how little, should send their contributions to their committee, or direct to the Central Committee, Belgian Relief Fund 59 St. Peter street, Montreal.

CASTORIA For Infants and Children In Use For Over 30 Years

Always bears the Signature of *Chas. H. Fletcher*

HEAVILY FINED.

Halifax, Jan. 31.—Abraham Bronfman, who was arrested in Montreal and brought to Halifax to face a charge of unlawfully shipping liquor into this city, today pleaded guilty before Stipendiary Macdonald and was fined \$500 and costs amounting to \$205.

At any rate the peace conference is not waiting for the moving picture machines to get set.

NOT TO BE SWERVED.

A judge was listening to testimony in a case and ventured to interject a remark:

"Do you claim that this big man hit you with malice aforethought?"

The complainant eyed him suspiciously for a moment and then replied:

"You can't mix me up as easy as that, judge. I said he hit me with a Ford, and I stick to it."

DODGING THE BLAME.

Food Administrator Hoover admitted one day that his department had received something like more than a million kicks pertaining to Hooverizing. "But," he added, "quite a few were like the one that came from a Chicago woman, who wrote:

"Dear Mr. Hoover, I must complain about the flour I am getting from the American Grocery Co. The man says it is the best flour that comes into Chicago, but, honestly, Mr. Hoover, it was so tough my husband couldn't eat a single biscuit I made with it."

Holland might be asked to declare whether it considers the Hozenzollerns as guests or as an infection.

WELL SATISFIED WITH BABY'S OWN TABLETS

Mrs. Emile Malette, Montpelier, Que., writes:—"I have used Baby's Own Tablets for some time and am well satisfied with them. They are surely the best medicine I know of for little ones." What Mrs. Malette says thousands of other mothers say. Once they have used the Tablets for their children they would use nothing else. The Tablets are a mild but thorough laxative; are absolutely free from opiates, narcotics or other harmful drugs and may be given to the youngest baby with perfect safety and good results. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Love may be blind, but the girl's father and the dog seldom require the services of an oculist.

NEW HOTEL HAS MOST BEAUTIFUL BALL ROOM

(New York Herald)

That the largest hotel lobby and the largest hotel ballroom in the world can at the same time be the most beautiful ballroom and the most beautiful lobby in the world was the voiced admission of some fifteen thousand persons who were invited yesterday afternoon to pass judgment upon the new Hotel Commodore at a reception given by George W. Sweeney, vice president and managing director.

That weight may be attached to the verdict it should be known that almost every judge of hotel beauty was present. Wholesale dealers in carpets and rugs, in chairs of all periods, in tapestries and in panelling, in glass and vases; in all branches of decorating in fact, were there to witness the effect of several years of work. And individually and collectively wherever they met Mr. Sweeney they congratulated him so sincerely and so wholeheartedly that if the reception hadn't closed at four o'clock Mr. Sweeney might have been opening wine yet.

It is in this room that the most daring coloring has been adopted. All decorations are in orchid, white and gold, with an emerald green base. According to the designer's this coloring will permit women's gowns to appear against the best possible background and at the same time will not be too feminine for a gathering of men. The style throughout is a modified empire.

The Commodore will open formally to the general public this morning. This evening the management will entertain three thousand guests at a dinner dance in the grand ballroom.

Arrive on Special Train

From Buffalo, Rochester and Springfield there arrived on a special train the Commodore Club, two hundred strong headed by William J. Connors, newspaper owner, of Buffalo. Such good friends of Mr. Sweeney were the

INCREASES YOUR WEIGHT, RESTORES LOST STRENGTH PREVENTS ILLNESS

Every day come new converts to that great army of men and women who rejoice in new-found health that came to them through the use of that wonderful blood-renewing preparation called "FERROZONE." Very simple how it acts. All you have to do is take two small chocolate-coated tablets with a sip of water at the close of each meal.

Ferrozone is a marvel. It contains just what thin blood lacks—lots of iron, but mark you, the kind of iron your blood is able to absorb. Ferrozone puts life and vim into the blood. Makes it rich, red and nourishing. Naturally the body is better fed and grows stronger day by day.

Of course digestion must be improved, and probably the stomach will require aid as well. Ferrozone serves the purpose admirably. Those who use it, enjoy appetite and digestive powers far beyond the ordinary.

That tired feeling is replaced by the buoyant, joyous sensation of health and vigor. Day by day as your strength increases, you feel new energy surging through your veins, and know that a great tonic of great merit is at work.

No remedy more nourishing or uplifting, no treatment so sure to bring lasting health, good spirits and contentment. Ferrozone contains just what run-down folks need; it cures because it supplies more nutriment than you can get in any other way. 50c. per box or six for \$2.50 at all dealers, or by mail from The Cattarhozone Co., Kingston, Ont.

two hundred and so well did they approve of the new Commodore that the play of their palms against Mr. Sweeney's back sounded like a tattoo throughout the afternoon.

Caruso, Campannini and Anna Fitzu with other Metropolitan operatic stars inspected the ballroom, where they will be heard later in concerts, and expressed themselves as pleased with the color scheme, the acoustics, the grand piano and the buffet luncheon. Plumbers rubbed elbows with bankers while carpenters exchanged technical testimonials regarding the equipment with artists who in turn discussed with enthusiasm the bronzed gates, the amber-colored vases and the creamy Italian stone and blue thing.

To become specific, the lobby is nothing else than a grand Italian courtyard around which runs an arcade and mezzanine gallery, all roofed with panels of white glass. At the east end is a terrace, bounded by great Italian terminal figures at whose bases are fountains.

Largest Palm in East

In the centre of the lobby is the largest palm tree in the East—according to Robert Kennedy, director of publicity—and great majolica vases are grouped in symmetrical profusion.

The grand ballroom, 180 feet long and sixty-eight feet wide, strikes an absolutely novel architectural and decorative note. Through the carriage entrance from Depaw place, which is the name given to the new upper level of the Grand Central Terminal, one enters a foyer running the entire length of the ballroom.

It is in this room that the most daring coloring has been adopted. All decorations are in orchid, white and gold, with an emerald green base. According to the designers this coloring will permit women's gowns to appear against the best possible background and at the same time will not be too feminine for a gathering of men. The style throughout is a modified empire.

The Commodore will open formally to the general public this morning. This evening the management will entertain three thousand guests at a dinner-dance in the grand ballroom.

AMERICANS MUST LIVE UP REPUTATION

The Daily News Peace Conference Bureau, Paris, France, Jan. 24.—Nobody can get far in Paris without a pass of some kind. Certainly nobody can enter the velvety precincts of the department of state in the Hotel Crillon without one. The least that can be said is that if you get in without a pass officially stamped and photographed you are somebody. This was the experience of a little man with bent shoulders and drooping white moustache and alert look who tried to slip inside the revolving doors. A mounted policeman barred the way.

"Where is your pass?" he asked.

"I have none," said the elderly gentleman.

"But you cannot enter without it," said the policeman.

"But I have business here," said the

This service is provided by the Medical Branch of the Department of Soldiers' Civil Re-Establishment.

An ex-soldier or ex-sailor who has a recurrence of a war disability should, if he is not too ill, go at once to the local medical officer of this Department.

If he is too ill he should have that medical officer notified at once.

Should he be taken ill in a place where there is no representative of the Department, he should call in a local physician to give him the necessary immediate treatment and ask him to communicate immediately all details of the case to the nearest medical officer of the Department.

The name of the authorized medical representative of this Department for each locality is given alongside.

Treatment at the expense of this Department can only be secured through these representatives. The Department cannot pay any bills for treatment which have not been authorized by the Department.

If the medical officers recommend it, pay is given to patients, and allowances are granted to their dependents by the Department, during the period of treatment.

The established scale of pay and allowances that may be granted depends upon the extent to which the treatment recommended by the medical officer of the Department prevents the patient from doing his regular work.

Arrangements for special care of patients of the Department have been made with hospitals in all the larger towns and cities from coast to coast.

Sanatoria for treating tuberculosis under most favorable conditions are operated in every Province under the direct supervision of the Department.
