TUESDAY, APRIL 8, 1919

GAME PROTECTION.

Many of the guides of the province are strongly opposed to the sale of wild meat and have asked the government not to interfere with that feature of the game law. The sale of game has been stopped in many States and Provinces, and the highest authorities on game protection agree that it is the only right policy in the interests of conservation. The principle was adopted by the New Brunswick Legislature last year and had the support of every member on both sides. Such a radical change was in advance of public sentiment and has naturally been the cause of considerable complaint in many sections of the province. Certain opposition politicians saw in it a chance to make some capital against the government, and did not hesitate to avail themselves of it. The sole object of the government was to protect the game; the purpose of some opposition politicians is to make capital against the government for doing so.

The question of game protection is an important one. It is a subject which should be dealt with not from the standpoint of party politics, but in the interests of the province as a whole. In addition to legislative enactments every effort should be made to create a healthy public sentiment in favor of the principle of game protection and conservation. We believe that the Minister of Lands and Mines is anxious to do the right thing and that his efforts should be heartily supported. It should be borne in mind that he has to consider the interests not only of the sportsmen and guides, but of the great mass of the people who never go into the woods or never take a rifle in hand from one end of the year to the other.

IDLE WATER POWERS.

A waste equivalent to over 660,000 tons of coal per year has been revealed by a water power survey in the state of Massachusetts. These losses occur either from complete absence of development or insufficient development at sites already developed for power. Numerous cases of a similar character exist on some of the rivers of the more densely populated portions of Canada, and it is of interest to note what Massachusetts is doing to conserve and derive full benefit from the power being wasted in this manner. The bill presented as a result of the investigation may be summarized briefly as follows:

1. To authorize and encourage mill owners to improve and utilize fully the water resources of the Commonwealth.
2. To provide that after a reasonable lapse of time the Commonwealth may acquire at cost such improvements.
3. To provide in case of the failure of the mill owners to act within a reasonable time, for the development of such water resources by the Commonwealth for the public good.
4. To authorize co-operation with other states in and through which the rivers of Massachusetts rise and flow, or having power which might be made available to the industries of the Commonwealth.

Flame and smoke flares developed during the war and improved recently by chemical experts of the American army, will be factors in the transatlantic flight to be undertaken next month by naval seaplanes, says a despatch from Washington. By dropping these flares at intervals the aviators will be able to determine the drift of their planes in the cross winds and make the corrections necessary to keep them on their course. Commander J. H. Towers, in charge of preparations for the flight, explained that the flares would be in the shape of bombs which, upon striking the water, would give off flame and smoke the one visible for long distances at night, and the other by day. The flares would remain virtually stationary on the water and thereby indicate the angle at which the machines were being from a straight line.

The action of the Department of Lands and Mines in bringing down a bill in the Legislature to establish a game refuge or sanctuary is likely to meet with very hearty approval. It is of great importance that the wildlife of the province should be protected and the sanctuary proposition has in other places proved a most desirable means to this end. The idea is to set apart a large tract of forest land in the interior of the province, and prohibit the shooting of game on such tract at all seasons of the year. The establishment of a sanctuary will show the outside world that New Brunswick is thoroughly alive to the importance of its game interests.

George Lansbury, editor of the British labor organ, the Daily Herald, and a former labor M. P., asked if there was any Bolshevism in England replied: "So little that it counts for nothing. One can truly say that there is no Bolshevism in England now and that there will be none, no matter how the rest of the world may go."

ICE MOVED OUT QUIETLY EARLY TODAY

River Clear at Woodstock, and at Southampton and Oromocto—Streams are Still Low.

The St. John River at this point is now open the ice having run out during the night. No great damage was done by the ice-run the sun having wasted it away to a marked extent. A little ice is hanging on the Devon shore and between the two bridges on the Fredericton shore but otherwise the river is open.

Open at Woodstock

A telephone message from Woodstock today stated that the river was open there the ice having run out this morning. Southampton also reports that the river is open. Oromocto also reports that the river is open. Navigation is expected to open in a few days. The opening of the river is earlier than the average since 1825.

Driving Conditions

Rain is much needed by the stream drivers as the brooks and streams are low. On Big and Little Yoho the drives of Fraser Limited are making good progress.

CORNS? HAVE YOU ANY?

If so, you want to try Putnam's Corn Extractor; it is not a cheap cure, but a genuine 25c. cure that does remove corns in twenty-four hours. Be sure and get "Putnam's Extractor," 25c. at all dealers.

THE GERMANS ABLE TO PAY

London, April 8.—In the House of Commons today Mr. Claude Lowther confirmed the statement that a commission had been appointed by the late government to inquire into the enemy's capability to pay indemnities and had reported that the enemy could in a given time pay twenty thousand million sterling.

Oysters can be broiled in a toaster over a charcoal fire and served with lemon and cayenne.

To make frosting deliciously creamy add a pinch of baking powder to the sugar before boiling.

Lemon Juice is Skin Beautifier, Also a Whitener

Many women use just the juice of lemons to bleach or whiten the skin, but pure lemon juice is acid, therefore irritating, and should be mixed with orchard white. At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove freckles, sallowness and tan, and is the ideal skin softener, smoothening and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to bring back to any skin the whiteness the sweet freshness and flexibility of which it has been robbed by carelessness or trying atmospheric conditions.

WHEN SHE COULD NOT TURN IN BED

Dodd's Kidney Pills Cured Mrs. Weberg's Ills

Manitoba Woman After a Year of Suffering Proves Once Again that Dodd's Kidney Pills Help All Kidney Ills.

Rennie, Man., April, 7th.—(Special) "Yes, I feel as well as ever I did in my life and I give Dodd's Kidney Pills all the credit." The speaker was Mrs. E. Weberg, a highly respected resident here, who for some time was a severe sufferer from rheumatism and kidney trouble.

"My trouble started with a cold," Mrs. Weberg continued, "I could not throw off the after-effects. My sleep was broken, I felt heavy and sleepy after meals and I was always tired and nervous. Stiffness in the joints cramps in the muscles and then headache, backache and heart flutterings followed.

"Then dropsy and rheumatism set in. I could not work on account of my sore back. I got so bad I could not turn myself in bed.

"I suffered for a year before I started to use Dodd's Kidney Pills. I used two boxes and now I feel as well as ever I did in my life."

Mrs. Weberg, who looks the picture of health, struck at the root of all her troubles when she used Dodd's Kidney Pills. All her ills came from sick kidneys. Dodd's Kidney Pills are purely and simply a kidney remedy. Their record for the past twenty-five years is the cause of their popularity. Ask your neighbors about them.

MOORE CASE DISMISSED BY MAGISTRATE

Not Proven Liquor was in Defendant's Possession—Evidence That He was Not in Charge.

The charge of violating the Prohibition Law which was laid against George B. Moore as a result of a raid on his premises some weeks ago was heard before Police Magistrate Limerick yesterday morning, who dismissed the case, on the grounds that Moore was not proven by the prosecution to be in actual possession of the liquor found in the house when it was raided.

Moore testified that he did not live in the house and that it was unoccupied. Regarding the two bottles of whiskey which were found in two different rooms under mattresses he testified and swore that he did not know anything about them as he did not have charge of the house at all. When the buildings were raided Moore's man was found in the cellar piling wood and Moore came out of the back door. On being questioned as to what he was doing in the house at the time he stated that a load of wood had arrived for his mother and he was directing the man to pile it in the cellar. He stated that his mother was away and that the house had been unoccupied for some six months. In this time he stated that he had made but two visits to the house and had no knowledge of the liquor that was found.

As the magistrate by law had to accept the sworn statement of the defendant and as the Prosecution had not proved his statements false he dismissed the case on the grounds that the Defendant was not proven in actual possession of the liquor. Mr. P. J. Hughes represented the Prosecution and R. B. Hanson the Defence.

THROUGH OUR SIEVE

The is going. Well, it has our permission.

Bacon and eggs are a habit, but so also is grapefruit.

Will someone tell us whether the ice is running on daylight saving time or not?

A secret is something it is perfectly proper to tell everyone if you whisper it.

An old man in his second childhood is never as idiotic as the young father in his first babyhood.

To say nothing when you don't know what to say is rightly put down as superior wisdom.

Not even the affiator who first flies across the Atlantic will be prouder than the back lot gardener who raises the first radish in his neighborhood.

In love affairs at 16 a large part of the conversation consists in one asking the other, "What are you mad about?"

Old Ivorydome says that people's notions of the pursuit of happiness changes with the years. When you're young you think happiness wears a skirt; when you're older you think it lives in a bank.

Held Regular Meeting
The G. W. V. A. held their regular meeting last evening which was very largely attended. Fifty-six new applications for membership were received and the applicants were admitted to the rights of membership. The G. W. V. A. are contemplating holding a memorial service and church parade on April 27th to commemorate the Battle of Ypres. This was discussed last evening by those present at the meeting. The Provincial Convention will be held at St. John on May 17th and 18th and there delegates will be appointed to represent the G. W. V. A. of New Brunswick at the Dominion Command Convention to be held at Vancouver B. C. some time in June. The G. W. V. A. are taking over and reorganizing the Veterans' band solely for the veterans themselves. No new resolutions were brought up at the meeting.

Mr. H. M. Saunders of St. John is at the Queen.
Mr. E. S. Brodie of Gagetown is at the Barker House.
