

FREDERICTON HIGH DEFEATED ST. JOHN HIGH

Goal and One Try to Nil—Locals Had Considerable Margin Over Visiting Fifteen.

Fredricton High School defeated St. John High School here on Saturday by a score of eight to nothing in the N. B. Interscholastic Rugby League. In the first half of the game neither team scored and some good defensive playing was noticeable from both fifteens. The St. John halves showed up poorly against the lighter but wirier Fredricton half line but the St. John scrum had it over that of the Fredricton High by a good margin. The scoring was done in the second period of play when McGinn and Yerxa crossed the line in the last ten minutes of play. Capt. Alden Clark converted the first try but failed in the second. Willard Kitchen of this city acted as referee and his decisions caused no comment. Two twenty-five minute halves were played.

First Half

McGinn for F.H.S. kicked off and followed up well only to play the ball into the hands of the St. John halves who made a short run but were stopped before going far. The first half consisted mostly of scrimmages in which St. John had the advantage due to weight. The play went from one

THE PRINCE AT PENTICTON, B. C.

end of the field to the other but the St. John backs were unable to make headway and showed little knowledge of the game. The Fredricton halves showed up poorly at this time and most of the work in stoping the rushes was done by the scrims of both teams.

In the second half the game went with the local team and the scrim heeled out a few times to permit several good runs to be made. Keene and Clark especially the former showed up well for good clean tackling and McGinn showed up well in the scrim. For St. John Knight and Robinson showed up well in good rushes. The play was closely contested at first until the local boys lost their fear of the visitors.

On a break-up after a scrimmage McGinn got away with a nice dribble and kicked the ball to Clark who when tackled passed back. McGinn dropped over the line for the first try and this was converted by Clark. Near the end of the game Clark attempted to drop over but failed and the ball was kicked out by the St. John team only to be returned and fallen on by Yerxa for a second try. The final score was 8 to 0 in favor of Fredricton High School.

The teams lined up as follows:

Fredricton	St. John
Hawkins	McJunkin
Forwards	Allison
Yerxa	Thompson
McGinn	Atchinson
Blair	

STRANGE PLEA OF BIGAMIST

London, Oct. 18.—"I promised her dying mother that I would marry this young woman," was the novel plea of George Thomson, arraigned on the charge of bigamy for marrying Miss Susannah Atkinson, of Leeds, although he has a wife living in Scotland.

"I met her while I was in a military hospital," declared the ex-soldier. "One evening she took me to the bedside of her dying mother, who made me promise to marry the girl. I promised because I was afraid Susannah would kill herself. It was better to wed her than to see her commit suicide."

Halves

Full-back

Sandy Thorne of the St. John Standard reportorial staff who is coach for St. John High accompanied the team here. He was favorably impressed by the showing of the Fredricton team. Mr. Thorne is an old U.N.B. player and was captain of the Red and Black in the season of 1905. The result of the match puts Fredricton High at the top of the league.

GOING AFTER PROFITEERS

(Toronto Globe).

While Commissions of Investigation and price-fixers are busy getting facts in Canada and the profiteers are continuing to make profit, the "coons are coming down" in Britain. In that land there is a wide-open and unlimited season for the hunting of profiteers, and the people have taken to the sport with the enthusiasm that they usually show for all kinds of exercises of an athletic nature. It is now announced that the number of local committees at work in the United Kingdom under the profiteering Act has reached the aggregate of 1,500, and the convictions obtained have been so numerous that many offending parties are trying to save themselves by returning one-half of the prices they have charged for certain articles, a rather convincing proof of the harvest they have been reaping. It would not be Britain if there was not some humor in a number of the situations that have arisen under the Act, as for instance when a butcher grossly overcharged a Justice of the Peace the latter retaliated by haling the tradesman to court and fining him \$400. In the clothing business there is reported to be a very noticeable movement in the voluntary reduction of prices, as much as fifteen dollars being taken off some lines of overcoats, but none

MOST EVERYONE USES THEM FOR THE STOMACH

They Act Quickly, and Make You Feel Lively as a Kid.

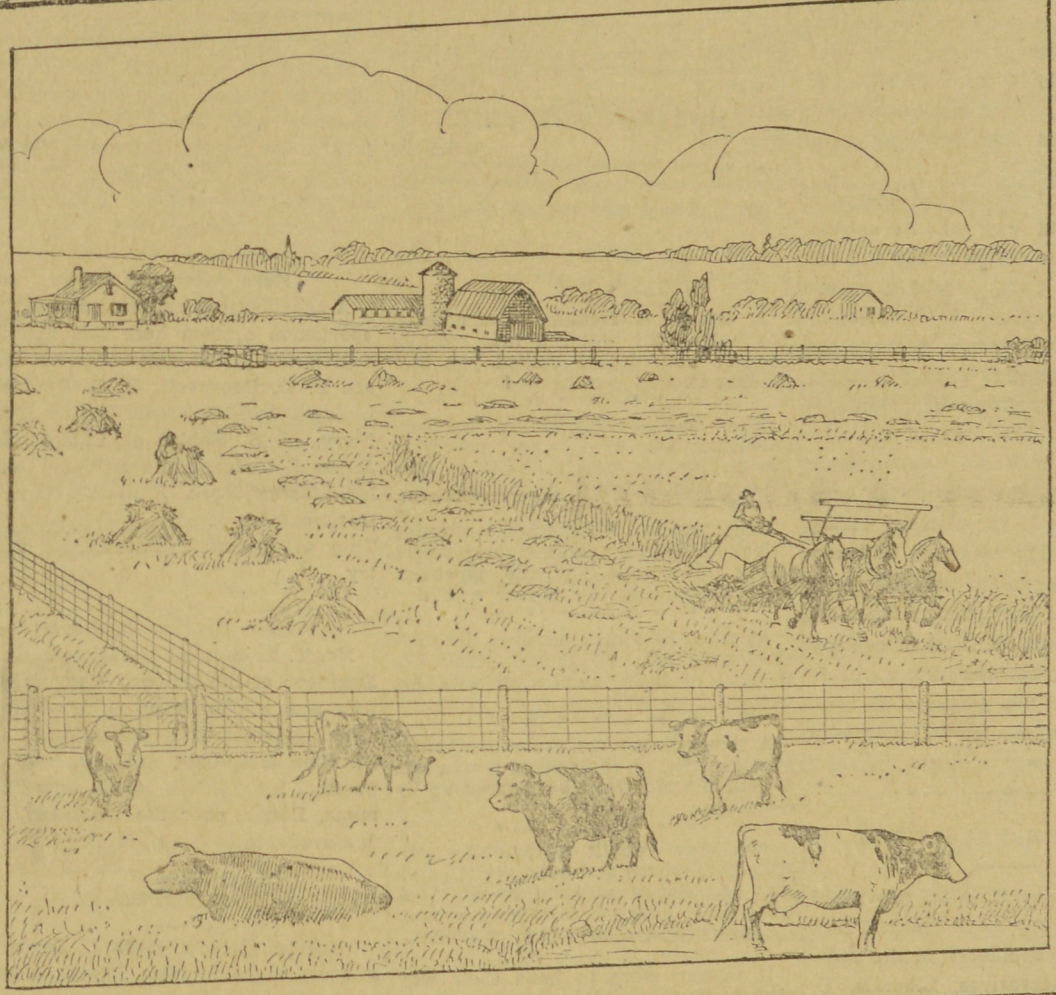

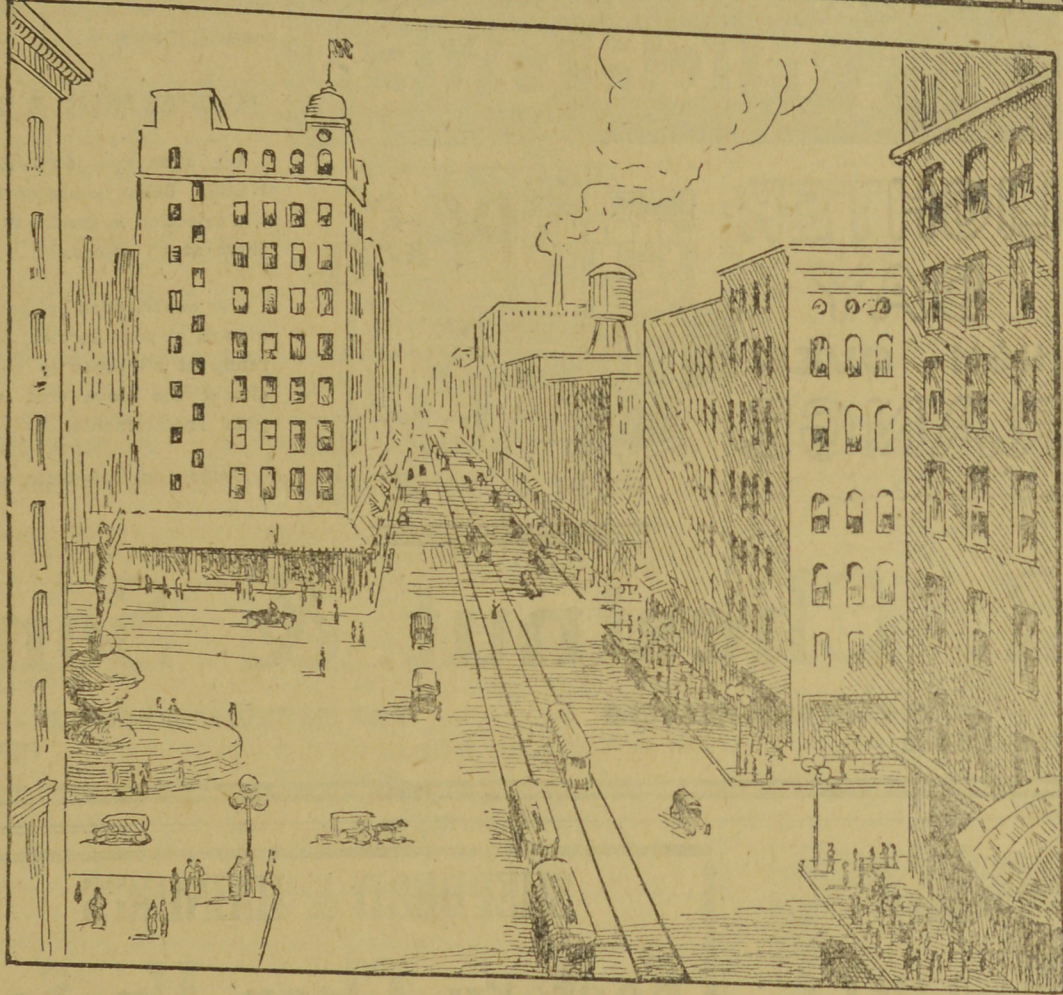

A crowning curative triumph in medicine is now given to the world, and all who have been sufferers from stomach ailments, indigestion and headache can be cured by a purely vegetable remedy.

Calomel, salts and such like are no longer necessary. They are harsh and disagreeable. Science has devised something far superior, and you can go today with 25c to any druggist and buy a box of Dr. Hamilton's Pills, which are considered the very quickest and safest cure for the stomach, bowels, liver and kidneys.

Half sick men and women who scarcely know what ails them, will be given a new lease of life, with Dr. Hamilton's Pills. Depressed spirit, disappear, headaches are forgotten, appetite increases, blood is purified and enriched, pains at the base of the spine are cured, the nerves are toned up, ambition to work is increased, and day by day the old-time health and vigor return.

A trial only is necessary to prove how beneficial Dr. Hamilton's Pills are to all who are weak, nervous, thin,

of the establishments which are putting into practice the lessons that the courts are impressing upon others are reported to have closed their doors. Perhaps there is a moral here for some Canadian manufacturers and retailers.

City and Farm Equally Benefit

The man in the city and the man on the farm is each concerned with the other's prosperity, and each has equally strong personal reasons for supporting the Victory Loan 1919.

Last year Canada shipped to Great Britain and our European Allies \$496,932,191 worth of the products of our farms.

The future of Canadian Agriculture depends upon holding and extending its export trade in farm products, and the future of city and town prosperity is interwoven with agricultural prosperity.

Great Britain and our European Allies provide a ready market. But as a result of the strain of war, they are short of cash. They must buy on credit for a time.

The British market particularly, we must not, dare not—lose, because we have spent

many long years in cultivating it, and establishing a prestige there for Canadian products.

Great Britain asks for a credit to buy our surplus food stuffs, and Britain always pays her debts. Our ability to extend this credit depends upon the success of the Victory Loan 1919.

Just think what it means to all of us to keep Canadian agriculture prosperous.

Canadian farmers form a large porportion of the buyers of Canada's manufactured products, resulting in trade for the manufacturer and retailer, and employment for the man in city and town.

With the money from the sale of his products the farmer buys agricultural implements, gasoline engines, tractors, wagons, seed, wire fences, fertilizers, milk cans, building material, roofing, furniture, carpets, furnishings, stoves, clothing, boots and shoes, groceries, drugs,

pianos, talking machines, automobiles, papers, and scores of other things.

The city and town man makes these goods, and his wages are spent in his local stores, so that starting with the farmer the chain of trade travels through every class of the community.

The city again furnishes a home market for the farmers. Our cities have been built by our farmers—by those farm boys who have developed genius in organization, business and finance, and who do not have to leave Canada to find a field for their activities. The farm and city are interdependent the one upon the other. Canada requires both, and both prosperous.

Then upon both the man in the city and the man on the farm there rests a direct responsibility. Both must shoulder it and unite in making an overwhelming success of the
