# DIFFERENCES IN U. S. CABINET OVER THE STRIKE SITUATION

**Six-Hour Session Held Yesterday on the Miners' Wage Scale Agreement—Hard to Satisfy the Mine Workers and Owners—People All Over the Country Clamoring for Normal Production of Coal.**

Washington, D. C., Nov. 25—Like the miners and operators, whose troubles it was trying to adjust, President Wilson's cabinet tonight seemed hopelessly deadlocked on the question of a wage increase in the bituminous coal industry.

After a six hour session the cabinet, which took up the wage scale agreement where operators and miners left off last week, adjourned until tomorrow when another attempt with the aid of fuel administrator Garfield will be made to agree upon a scale that will satisfy the mine workers and owners and the people in all sections of the country who are clamoring for normal production of coal.

The proper basis of calculating the proposed wage advance and the ratio of dividing the consequent increase in cost of production of coal between the operator and the public are understood to have been the points of difference among the cabinet members. Dr. Garfield who took a leading part in the discussions took issue with Secretary of Labor Wilson, as to the method of applying the figures accepted by both.

No statement was forthcoming after the meeting except an announcement by Dr. Garfield that the cabinet would meet again tomorrow and that he would not see either the miners or operators meanwhile. He declined to say whether progress had been made but one member of the cabinet declared prospects of an agreement were "not hopeless."

Secretary Wilson's estimate that the cost of living had increased seventy-nine per cent over 1914, was accepted it was understood but a difference of opinion arose as to the application of this and other figures in computing an increase in wages.

Secretary Glass said tonight that he might have "some very interesting figures" tomorrow emphasizing that they had been compiled for the public and not for the cabinet.

### McAdoo's Statements

The statements of former Secretary of the Treasury McAdoo charging that some coal concerns made enormous profits during his incumbence came in for discussion at the cabinet meeting, it was learned, but no one would say what form the discussion took.

Before the meeting this morning, Attorney General Palmer said that if the figures as to operators' profits given yesterday by Mr. McAdoo were correct it was not likely Dr. Garfield would permit an increased price for coal.

### Serious Period Faced

With less than forty per cent of the normal output of bituminous coal being produced, the nation is facing its most serious period since the strike of coal miners was ordered according to receipts received today by the railroad administration. In scores of cities the number of industries in operation is rapidly falling while the nations coal bin continues to diminish.

Officials held out only a ray of hope of increased production.

### Situation in Canada

Ottawa Nov. 25—There is no change in the bituminous situation so far as Canada is concerned according to information given out at the fuel section of the Canadian Trade Commission this morning. D. H. Connor assistant to Mr. Magrath who is in charge of this work, said no further news had been received from Washington as to releases of coal for Canada, though it is hoped that some supplies may be secured.

Foundries in Canada are apparently being hardest hit in the matter of fuel as the one hundred and fifty cars of foundry coke promised to the fuel section some days ago have not yet been made available in Canada. One Ottawa foundry has informed the board that it is eking out a sort of hand to mouth existence in the matter of fuel and several others report that they have but a few days supply on hand.

Unless relief is secured within a few days many foundries may have to close down. Several other industries may be in the same straits within a short time. Preparations are being made by the management of the Canadian National Railways to haul from the eastern seaboard all available supplies of coal as reserve should the tie across the line continue. It is expected that when the details have been completed not a single car will be brought

back from the maritime provinces to either Quebec or Ontario, but that these empties which are constantly moving from the seaboard to the interior will be utilized to haul in a big reserve supply for the interior provinces. This will be available should it be needed for emergency.

### FORESTERS MET LAST EVENING

Election of Officers Last Evening—Grand Banquet to be Held December 16th.

Last evening Lodge No. 778 of the Canadian Order of Foresters held their regular monthly meeting. Six new members were admitted to the membership of the court. A very interesting meeting was held and the usual routine business was done. The annual banquet which was to have been last evening was postponed until Tuesday, December 16th.

The officers for the ensuing year were elected to be installed the next regular meeting. They are as follows:

# "VIRTUOUS WIVES"

As Published in the Cosmopolitan—Featuring the Big Favorite

**ANITA STEWART**

THE ROMANCE OF BEAUTIFUL AMY FORRESTER, daughter of wealth, swept from society's glitter by strong Andrew Forrester—then left to play while he, in distant Colorado, struggled for wealth to place her in the glowing setting he felt her beauty deserved.

"But no, Andrew," she pleads tearfully, "take me with you."

"I couldn't work so hard nor so fast with you beside me," he replied. "I want you to play for both of us while I am away at work. I want men to admire you too; I shall glory in your triumphs."

As the months passed, Andrew slaved and Amy played with other men as he had willed—holding herself a virtuous wife according to society's code.

Then came a sinister warning to absent Andrew, the anonymous poison of another woman's venom planted a barb into his trusting heart that brought him back to Amy—and then—then, then Andrew's soul accused hers.
