## THE PUBLIC HEALTH.

In commenting on the announcement that the government at Ottawa will promote legislation during the ensuing session creating a Department of Health, the Toronto Mail and Empire has this to say:

"A bill to create a Dominion Department of Public Health is to come before the present session of Parliament. The demand for it has been insistent for years. Though the provinces each have health departments, there is a special field in which a Dominion department can work with general advantage to the people. In the conservation of health, the danger is not too much overlapping, but too little co-operation. The important work of joining together the various provincial health boards in a common war on menaces to health—venereal disease, for instance—should fall on a Dominion department. There is grave need for combating this evil on the lines adopted by the Local Government Board in England. Most of the provinces in Canada now have legislation in effect or forthcoming to check it, but so far as appearances go, they are ineffective. Dominion control of this subject is necessary because immigration and quarantine come under Dominion control. No doubt the various provincial boards of health would be entirely willing to co-operate with a Dominion department in carrying out a Dominion-wide system of compulsory registration of venereal disease patients, free diagnosis and treatment, and checks on infected persons who may spread the disease. The whole field of public health can be much better supervised by centralized authority. Vital statistics for the Dominion are needed, and studies of regional disease and mortality, comparing measures and the rate of sickness and mortality."

The announcement in an Ottawa despatch that "the signing of the Peace Treaty will naturally bring the activities of the food board to a close," should be hailed with delight by all Canadians. The food board seems to have been successful in one thing—getting "in bad" with all classes of the population. As a contemporary points out, the food controller's salary of \$25,000 undoubtedly helped to increase the cost of the unsatisfactory substitutes for coal that have been on the market at much inflated prices this year.

Rev. T. Albert Moore, who has been overseas on a special military commission for the Methodist Church, was asked how he would go about securing prohibition in Great Britain if he lived there instead of in Canada. Dr. Moore replied: "I would not say a word about religion. I would study first the financial aspect of the situation. I would not deal with it so much from the moral point of view. The British are an intensely moral people, the most moral people on the globe, they are absolutely truthful and honest in business. That is the secret of their great success. I would attack the traffic to show its effect on business and on the physique of the nation."

Henry Watterson in the Louisville Courier-Journal: I am being constantly asked how long I think prohibition will last? If it be not accompanied by the stimulation of the drug habit, as in Turkey, where alone among the nations it has made a permanent lodgment, reaction will come with the knowledge that in the cities it cannot be enforced. The constitutional inhibition may never be rescinded; but, like the 15th amendment in the Southern States, it will become inoperative and "it will be just as easy," says an old Mississippi friend of mine, "to get a drink as to keep a nigger from voting."

Hon. William Currie has resigned the Speakership of the House, and a successor will be selected when the House meets next week. Hon. Mr. Currie will retain his seat in the House and will make a statement when the

report of Commissioner Friel comes up for consideration. The report of Commissioner McQueen on the patriotic potato enquiry will come up for consideration early in the session, and an explanation from certain opposition members of the House will be due at that time.

## MINISTER OF PUBLIC WORKS

creasing these items to any great extent. "No doubt," he said, "the income tax can be increased and will be increased."

Mr. Carvell expressing a personal view, would like to see that income tax extended upwards and downwards. He would like to see every man with an income of a thousand dollars paying some income tax. Nothing made so much for good administration as to make every man feel that he was contributing something to the government.

These three principal items of revenue brought in \$195,000,000 or little more than sufficient to meet the extra annual expenditure which would have to be incurred as a result of the war. In addition, administration of the country's affairs could not be carried on at less than about \$125,000,000 a year.

Mr. Carvell said that when works were under way and when the provinces were able to do their share and when manufacturers and employers of labor did their share—for it was the duty of the hundreds of firms in Canada which had grown rich through war orders to keep on—they would be able to keep unemployment out of the country.

To keep unemployment out of the country if they possibly could, should be the watchword today. If they could do that they would not need to care where the money was to come from and they would be able to keep Bolshevism out of Canada.

### Nova Scotia Tribute

J. H. Sinclair of Guysboro, paid a tribute to Sir Wilfrid Laurier on behalf of old Liberal guard of Nova Scotia. He said that nowhere had Sir Wilfrid a more loyal following. Since the late Joseph Howe, no public man had to such an extent their confidence and devotion. To Sir Wilfrid they gave the same loyalty as was given by Scottish clansmen to their chieftain.

### DON'T HAWK, BLOW, SNEEZE, OR COUGH, USE "CATARRHOZONE"

When germs attack the lining of the nose, make you sneeze and gag—when later on they infest the bronchial tubes—how can you follow them with a cough syrup?

You can't do it—that's all. Cough syrups go to the stomach—that's why they fail.

But Catarrhazone goes everywhere—gets right after the germs—kills them—heals the soreness—cures the inflammation—makes Catarrh disappear. Not difficult for Catarrhazone to cure, because it contains the essences of pine balsams and other antiseptics that simply mean death to catarrh. Large size costs \$1.00 and contains two months' treatment; smaller sizes 25c and 50c, all druggists and storekeepers.

the delegates were promised sympathetic consideration.

### Law and Truancy

Chief Finley, who is rapidly becoming personally known to truants, was present and conferred with the Board respecting the enforcement of the law in the case of some of the incorrigibles. After discussion of the cases referred to the chief was told to go ahead.

### School Lunches

The matter of providing lunches for children living at a distance from school, as suggested by the ladies' committee, was under consideration and the suggestions of the committee approved. It is proposed to provide a stove and certain utensils in two or three of the schools for the benefit of the pupils.

## HALIFAX WANTS THE BIG BOUT

Halifax, N. S., Feb. 27.—The Halifax Herald representing a group of local business men has invited Tex Rickard to consider Halifax as the scene of the Willard-Dempsey championship. In a telegram to Rickard the Herald points out that the laws of Nova Scotia permit fifteen round decision bouts and emphasizes the accessibility of Halifax.

## SPECKS FLOATING BEFORE HIS EYES

the eyes, when everything turns black for a few seconds and you feel as if you were going to faint, you may rest assured that your liver is not working properly.

The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of a medicine that will clear away all the waste and poisonous matter from the system, and prevent as well as cure all the troubles arising from this accumulated mass which has collected in the system.

Keep the bowels open by using Milburn's Laxa-Liver Pills and you will have no liver trouble of any kind. They will clear away all the waste and effete matter which has collected and make the liver active and working properly.

Mr. John R. Morrison, Grand River Falls, N.S., writes:—"Several months ago I was troubled with a sour stomach, and had specks floating before my eyes. I took five vials of Milburn's Laxa-Liver Pills which cured and cleaned my blood before any length of time. I told my friends about it and they got some, and they, too, find themselves different since they took them. I recommend your pills very highly."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or mailed direct Co., Limited, Toronto, Ont.

### THROUGH OUR SIEVE

At the peace conference: "Has anyone heard seen Cealligh?"

It has been so mild that fashionable girls have been compelled to wear their furs all winter.

The name Kelly is spelled Cealligh in the ancient Irish—and they wonder why the language is dead!

Even the man who is oftenest locked up keeps on insisting "This is a free country."

When a young man advises a girl to take boxing lessons she need not waste her time in urging on a proposal from him.

"Calaboose" was a shocking word enough, but slang has now dubbed a town lockup as the "hoosegow."

An Ohio soldier at Archangel complains that he has gone ninety days without a bath. That is nothing. Some of the Bolshevik soldiers have gone as many years.

When the girls appear in new fashions it pleases the young men almost as much as the girls. Youth loves change.

A Muskegon, Mich., judge held that juries in liquor cases have a right to taste the evidence. Jury work will come easy if that view spreads.

"A good husband ought to tell his wife his faults," explains the Milwaukee Sentinel. If we are permitted to add a word of advice: Be quick about it too, or she'll tell you first.

Ottawa Citizen: There is strong support in Ottawa for a movement to encourage motion pictures of Canadian wild life. We would suggest as typical a movie of a Canadian householder getting down to the cellar on a winter morning with the thermometer about 20 degrees below, and finding the furnace black out.
