

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

OF INTEREST TO WOMEN

ABOUT SILK UNDERWEAR

A Strict Routine Must be Followed in Washing and Ironing.

To wash silk mesh and crepe de chine underwear satisfactorily, prepare a suds of pure soap and soft water, warm, but not hot. If the water is naturally hard, dissolve a little borax in it. Then knead the silk garments about in the suds with the hands until all the dirt is loosened. Put them in one piece at a time, as they must be thoroughly kneaded if they are badly soiled they will need to be immersed in a second suds bath.

After they are clean, rinse them in two changes of clear lukewarm water and wring them gently dry. Hang them out of doors in the shade, or else in the house, in an open window where there is no sun. When they are almost dry, iron them. If possible, iron them with a piece of thin muslin between them and the iron. This method prevents a shiny gloss from coming to the silk. Some persons find it better to let crepe de chine dry thoroughly and then iron it on the wrong side.

After the garments are ironed they should be thoroughly aired before they are put away.

CAN YOU CARAMELIZE?

Now that we are no longer on sugar restrictions, we really have sugar to burn. Because burnt sugar is really delicious—that is it can be. The chemist would call it anhydrous sugar, and the confectioner and cookery expert knows it as caramel, but in the old family cook book it is simply burnt sugar and the flavor of some delicious old time cakes and desserts depended on this product of sugar, so different from sugar in flavor.

There are several directions for making it, all much the same. Here is as good a way as any: Put a cup of sugar into a clean kettle or saucepan and stir until it has dissolved, then, still stirring, let it turn a golden brown. Add a cup of warm water and simmer until the burnt sugar has dissolved again and you have a thin brown syrup. This can be kept indefinitely in a corked bottle and can be used instead of vanilla in flavoring cakes or can be added to give the characteristic caramel flavor to many sorts of desserts. It is especially delicious in custards. French cooks use it to give color and flavor to soup.

RANDOM REMINDERS.

Camphor gum placed on shelves or in drawers will drive away mice.

When paint brushes become hard and stiff, put them in hot vinegar and they will become soft as when new.

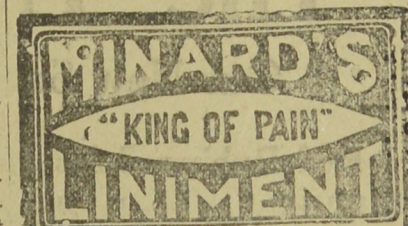

If cheese is cut in long strips and put in a glass jar, screwing the lid on tight, it will keep fresh and moist for several days.

To prevent citron, raisins or currants from sinking to the bottom of a cake, warm them well in the oven before adding them to the batter.

One teaspoonful of pepper mixed with two of cream and spread on a dish will drive flies from a room.

A good way to give castor oil is to add two tablespoons of oil to a batch of nine cookies. Bake and keep secret to yourself.

Chapped hands can be avoided by using starch ground fine. Every time you wash the hands rinse thoroughly.

The old reliable remedy for rheumatism, neuralgia, sore throat and sprains.

Best Liniment Made

MR. A. E. LAUNDY, EDMONTON, writes: "I fell from a building and received what the doctor called a very bad sprained ankle, and told me I was not to walk on it for two weeks. But MINARD'S LINIMENT in six days I was out to work again. I think it the best liniment made."

Minard's Liniment always gives satisfaction. For any ache or pain. It gives instant relief.

BATHURS
MAN DIED IN
THE WEST

The Edmonton, Alberta, Bulletin on Thursday, April 24, has the following obituary of Charles Turgeon: A softly tolling bell, a shrouded altar, a group of kneeling priests; these marked the return to mother earth, this morning (Wednesday) of all that was mortal of Charlie Turgeon. Thus with the greatest honor that his church can show, a solemn Requiem High Mass was closed the final chapter of a bright career.

Born in Bathurst, New Brunswick, Mr. Turgeon was a member of one of the most distinguished families of the province. His father, O. Turgeon, at present member of parliament for Gloucester, N. B., gave to the west four sons, Rev. Joseph Turgeon, a parish priest in South Dakota; Hon. W. F. T. Turgeon, Attorney General for Saskatchewan; J. G. Turgeon, member for Ribstone, Alberta, and the deceased Charlie Turgeon was a Bachelor of Arts graduate of Laval University, was a member of the Alberta Bar, refined, courteous, intellectual, his too short span of life made gloomy earth the better and no more sincere tribute was ever paid to the passing of a mighty man than the unshed tear that dimmed the eye of many an old-time friend among those who gathered by the open grave today.

A pathetic side of his early taking is the interest which centres around the young wife and little children left to mourn him. In his domestic life, as in all else, he was a man above reproach. (Edmonton Transcript.)

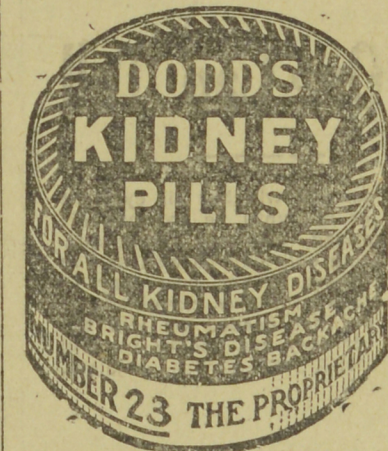

while yet damp rub a pinch of starch on the hands.

Knives can be cleaned in half the usual time if the knife board is warmed in front of the fire before being used.

To remove vaseline stains, sponge the goods with ether.

To remove paint or varnish stains: use turpentine for coarse fabrics, and alcohol for fine ones.

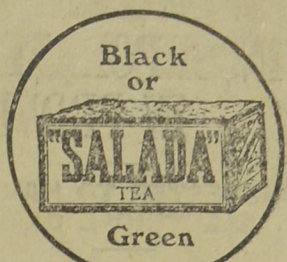

Padding should always be done on an embroidery hoop. Many needlewomen do not realize the importance of this, and make the padding over the fingers and use hoops for the rest of the embroidery, and then wonder why the finished work doesn't look well.

MURDER CASE
AT KINGSTON

Kingston, Ont., May 6.—The coroner's jury which last night, in the death of Daniel Gallivan, a returned soldier whose body was found in the ruins of a burned building here the day before, decided that he came to his death from a blow on the head by some person or persons unknown, and that death occurred before the burning of the house, which was occupied by John Gunn.

A hot time in the old town—and a hot town in the old time.
Adam was the first man who couldn't stand prosperity.

BRIEF BUT USEFUL RECIPES.

Restore Gilt Frames.—Rub with a sponge moistened with turpentine.

Drive Away Ants.—A little quicklime placed in the infested places.

Remove Tar from Cloth.—Rub it well with turpentine till every trace is removed.

Make Leather Waterproof.—Saturate it with castor oil; to stop shoes squaking, drive a peg into the middle of the sole.

Clean the Hair.—Wash well with a mixture of soft water, 1 pint; sal soda 1 ounce; cream tartar ¼ ounce.

Egg Stains on Spoons.—Rub with common salt.

Fruit Stains on Hands.—Wash the hands in clear water, dry slightly and while still moist strike a sulphur match and hold your hands around the flame.

Clean Gloves.—Pour a little benzine into a basin and wash the gloves in it, rubbing and squeezing them until clean. If much soiled, they must be washed again through clean benzine and rinsed in a fresh supply. Hang in the air to dry.

Clean Hair Brushes.—Dissolve a little soda in warm water and pour in a small amount of ammonia. Hold the brushes with the bristles downward and avoid wetting the back as far as possible; shake until the grease is removed; then rinse in cold water and put in the air to dry.

Remove Stains from Linen.—Wet the part stained and lay on it some salt of wormwood; then rub without diluting it with more water.

How to Remove a Rusty Screw.—Apply a red hot iron to the head for a short time, the screw-driver being applied immediately while the screw is hot.

Remove Mildew from Cloth.—Put a teaspoonful of chloride of lime into a quart of water, strain it twice, then dip the mildewed places in this weak solution and lay in the sun. If not effective the first time repeat.

Cure Mosquito Bites.—Put ten drops of refined carbolic acid into an ounce of rose water; shake well and apply. (If you hold your breath while a mosquito has its bill in you it cannot withdraw it until you breathe again.)

SIR LOMER'S
MESSAGE

Montreal, May 6.—While much could be done through co-operation, and the aid of one organization to another, the spirit of individual effort of mind and heart must ever be first and must not ever be forgotten, was a message that Sir Lomer Gouin delivered at the banquet of the council for the development and direction of technical education held last night, at the Montreal Technical School. It was the first official banquet and was under the presidency of Sir Lomer himself.

AND THE WAR IS TO BLAME.

(Philadelphia Ledger.)

The fact that there isn't a single sheet of unused parchment in the United States revives interest in the old English "guilds" with their trade secrets handed down from generation to generation. Because nobody in the world outside of a small group of English manufacturers knows how to treat chemically a thin layer of sheepskin so as to turn it into parchment, thousands of college men and women this year will have to content themselves with diplomas of linen.

TABLE OF WEIGHTS AND MEASURES.

4 teaspoons of a liquid equal 1 tablespoon.
4 tablespoons of a liquid equal ½ gill or ¼ cup.
½ cup equals 1 gill.
2 gills equal one cup.
2 cups equal 1 pint.
2 pints (4 cups) equal 1 quart.
4 cups of flour equal 1 pound, or 1 quart.
2 cups of butter, solid, equals 1 lb.
½ cup of butter, solid, equals ¼ lb. or 4 ounces.
2 cups of granulated sugar equal 1 lb.
2½ cups of powdered sugar equal 1 lb.
1 pint of milk or water equals 1 lb.
1 pint of chopped meat equals 1 lb.
10 eggs, shelled, equal 1 pound.
4 tablepoons of flour equal 1 ounce.
8 eggs with shells equal 1 pound.
2 tablepoons of butter equal 1 ounce.
2 tablepoons of granulated sugar equal 1 ounce.
4 tablepoons of butter equal 2 ounces or ¼ cup.

Wood's Phospholine.
The Great English Remedy.
Tones and invigorates the whole nervous system, makes new blood in old veins, cures nervous debility, mental and brain worry, leprosy, loss of energy, palpitation of the heart, failing memory.
