STANLEY

Stanley, April 10th—The young ladies connected with the Methodist Church held a social at the home of Mr. J. Sands on Wednesday evening. Games and music were indulged in till about midnight when refreshments were served. The next hour was happily spent by the young people discussing plans and prospects for the future.

The saw mill of Mr. T. Douglass, which has been under construction during the past winter has commenced operation. He is cutting some hardwood orders.

Mr. James Barry was in the village yesterday on his way to the headwater

# INTERESTING DISCUSSION ON THE ITEMS OF SUPPLY

Many Important Matters Were Discussed in the House Wednesday Evening—Some Information About the Labor Bureau—Dr. Crockett's Plea on Behalf of Education—Exhibition Grants Find Favor With the House.

MR. MICHAUD on the House resuming at 8 o'clock said he understood that most of the amount appropriated for colonization roads was to be spent in Restigouche County. He would like to see the grant increased and more attention given to the needs of other counties. He thought about ten thousand dollars could be expended in Madawaska where there were several settlements at present without suitable roads. He felt that the settlers were deserving of every encouragement and it was important that they should be provided with roads.

MR. MCGRATH said he had not understood from the Minister of Lands and Mines that nearly the whole amount was to go to Hazen and Grimmer Settlements, Restigouche County.

HON. MR. SMITH said that last year \$2,377 was expended in Restigouche, \$898 in Northumberland, \$2,000 in Victoria, \$1156 in Madawaska and smaller sums in other Counties. The distribution would be made on about the same basis this year. In Restigouche there were fourteen settlements in Madawaska ten, Gloucester four, Kent five and Carleton two. He said that colonization money was not supposed to be spent on roads already turn-piked but only on roads running through new lots. Each settler was supposed to contribute road work to the value of thirty dollars. He thought the time was coming when more money would have to be expended on colonization roads.

MR. MELANSON hoped that the Hon. Minister when apportioning the allowance would see to it that Kent County got its share and possibly a larger amount than last year.

MR. YOUNG said the County of York had not figured for several years in the grant for colonization roads. He referred to a new settlement at Napudogan where the people were without a road. He hoped the hon. Minister would give the matter his attention.

### The Labor Bureau

HON. MR. FOSTER on the item of \$1,000 for Labor Bureau said the matter had been discussed at the recent inter-Provincial conference. The proposal of the Federal authorities, was that the Provinces should contribute one-half of the expenses of the Bureau. He (Foster) had pointed out that conditions in New Brunswick differed from those in Ontario and the West and he did not think the Province should be asked to pay one-half the cost. The Minister of Labor agreed with him and it was finally decided that the Maritime Provinces should agree to pay for the establishment of the Bureau. Press reports sent out from Ottawa had stated that these Provinces were not co-operating in the matter but that was incorrect. The amount placed in the estimates was expected to pay New Brunswick's share of the cost until the close of the fiscal year.

MR. MURRAY (Kings) wanted to know if the Labor Bureau were to provide employment within the Province.

HON. MR. FOSTER said that they were to provide employment to both soldiers and civilians but they could deal with any demand which might come for labor from another Province.

MR. MURRAY (Kings) said he noticed an advertisement by the Moncton Bureau calling for three hundred laborers to go west. It did not seem to him to be quite the right thing.

HON. MR. ROBINSON said that the Bureau at Moncton was in charge of a member of the Great War Veterans Association and the appointment had been made by the civil service commission after consultation with the Provincial Government. The Bureau were all working under one system with the Head Office at Ottawa. They were to provide employment for returned soldiers and also for civilians. He had noticed the advertisement referred to by the hon. leader of the opposition and it had caused him some wonderment. He did not like the idea of the Bureau sending men to work in other Provinces.

MR. MURRAY (Kings) said that the labor Bureau should not be used as an employment agency to send men to the West. The Province had suffered from that sort of thing in the past. In calling attention to the advertisement he had intended no reflection on the agent of the Bureau.

HON. MR. FOSTER said that he intended calling the attention of the Ottawa authorities to the advertisement but had overlooked it. He would take the matter up without delay.

MR. SMITH (Carleton) on the item of \$8,000 for exhibition said that they were very useful in stimulating development along agricultural lines. A Woodstock delegation had asked the Government for a grant and he hoped that they would be treated as generously as possible. There were few more attractive spots in New Brunswick for an exhibition than that which had been secured by the Woodstock Agricultural Society and he hoped the Government would give their claim for assistance generous consideration.

### Exhibition Grants

HON. MR. TWEEDDALE said that the estimates for exhibitions had been made up before the Woodstock dele-

gation reached Fredericton. Many delegations had asked for grants during the war, but he had not recommended them to the Government as he did not think it advisable to take labor from the farms at a time when it was so badly needed. With the war over the applications for grants had been renewed. He thought it well to encourage exhibitions, but considered it unfortunate that efforts in the past had not been directed towards having one central exhibition. That plan had not been followed and it was too late now to think of a change. Fredericton and Chatham were to hold exhibitions during the present year and would receive Government grants. With regard to the application which the hon. member from the splendid Agricultural County of Carleton had referred to, he (Tweeddale) had not understood the delegation to say that they were sure of holding an exhibition this year. He had visited in company with the hon. Premier, the site of their proposed buildings and had considered it ideal. While the finances of the province were seriously strained it would be difficult to refuse a generous grant in aid of an exhibition in Woodstock and also aid in establishing buildings and grounds.

### Moncton Claims

HON. MR. ROBINSON said that exhibitions undoubtedly stimulated agriculture and he wished to say that Moncton had ambitions in that regard which should not be overlooked. They had tidal bores and their railways, but they had also expended \$30,000 on a site for exhibition buildings. They had not asked the Government for assistance but if the opportunity opened up they would certainly avail themselves of it. Moncton with its central location and splendid railway facilities was undoubtedly in a fine position to conduct a successful exhibition. As the representative of that growing City he wished to say that if there was any money going for exhibitions, Moncton would like to have its share.

MR. MURRAY (Kings) said he did not agree with the view of the Hon. Minister of Agriculture that one central exhibition would be the best. The central exhibition held in Toronto was largely industrial in character but successful agricultural exhibitions were held at London and other points. Good exhibitions in the past had been held at Chatham, Fredericton and other points in the Province. He would be sorry to see the grants combined in one central exhibition.

MR. SWEENEY said that from an agricultural standpoint Westmorland County was one of the best in the Province. The City of Moncton was ideally located for a Provincial Exhibition. They had not bothered the Government about the matter believing that the day would come when people would realize that Moncton was entitled to consideration from an exhibition standpoint. They had unsurpassed railway facilities and a fine agricultural district and could put on an exhibition which would be a credit to the Province. The exhibitions which had been held at Port Elgin in his County could hardly be excelled. He hoped the day would come when exhibition grants could be made larger and he trusted when that day arrived the claims of Moncton would not be overlooked. He felt sure that they could hold at Moncton an exhibition which would be an eye-opener to the people of other sections of the Province.

MR. SUTTON said that the Woodstock Agricultural Society had in 1912 disposed of their buildings to the St. John & Quebec railway. That of course, had destroyed their grounds and race-track. A mortgage had been paid off and they had purchased other property which had been found not altogether suitable. The trustees of the Connell estate had offered them a chance to establish buildings in Connell Park and the offer had been accepted. They proposed to expend \$40,000 on the buildings and grounds. The remarks made by the Hon. Premier on a previous occasion in regard to assistance to be extended by the government had not been clearly understood by some people.

HON. MR. FOSTER said that he had suggested that a grant might be made and payment of the same extended over a period of several years. If that were done it would enable the society to borrow against the Government grant.

MR. SUTTON, continuing, said the people of Woodstock had already subscribed five or six thousand dollars towards the project. He trusted that the Government would see their way clear to put an amount in the estimates this year as the society would need the money within six months.

MR. MCGRATH said that he trusted the people of Woodstock would note the fact that the Government would be in power a few years more and would act accordingly.

### Mr. Pinder's Kick

MR. PINDER on the item of \$300 contingencies for the Attorney General's Department said he did not see why such an item should be in the estimates. He noticed that \$41.50 had been paid out last year in connection with St. Martin's Railway. It must be considered that the Attorney General had a Deputy and in spite of that others had to be hired to do the work. He could not see why the St. Martin's Railway could not pay its own bills.

## Cured of Dyspepsia

BY USING

## Burdock Blood Bitters.

The symptoms of dyspepsia are so numerous and diversified in different individuals that probably no description could exactly represent them as they occur in any given case, but a few of the most prominent are a rising and souring of food, pain, flatulence and distention of the abdomen, a sensation of discomfort after every meal, which is sometimes followed by sickness and vomiting.

To get rid of dyspepsia a careful arrangement of the diet is necessary and due time must be given for the digestion of the meal.

You will find that Burdock Blood Bitters will help with this digestion. It does this by toning up the stomach in such a way that dyspepsia soon disappears.

Mr. Robt. Balwin, Winnifred, Alta., writes:—"I cannot speak too highly of Burdock Blood Bitters for curing dyspepsia, of which I have tried a good many doctors and proprietary medicines, so one day I thought I would try something different. I got a bottle of B. B. B. from our local factured only by The T. Milburn Co., Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

hon. member for York had had extensive experience in connection with railways but it was not necessary for him to burden the Committee with details. With reference to the item for contingencies in his Department he wished to point out that it was the smallest since 1911. In 1916 the amount had been \$519, 1915 \$398, and in 1914 \$449. In regard to the telephone in his residence, he wished to say that it was not made a charge against the Province. He felt that he had devoted as much time to the conduct of criminal business last year as any of his predecessors.

MR. PINDER said that the Attorney General lost sight of the fact that \$1800 was paid to his Deputy. He (Pinder) could not see the necessity of such an official. The Attorney General had overlooked the fact that \$478.34 was charged last year for prosecutions under the Intoxicating Liquor Act, services which he held should have been performed by the Attorney General.

HON. MR. BYRNE said that the Chief Inspector engaged the Counsel employed in prosecuting Liquor cases and the costs of the same was not a charge against the Department of the Attorney General.

### Mr. Tilley's Policy

MR. TILLEY said that he wished to make a few observations in regard to the expense of Executive Government. He regarded the present administration as top heavy. In using that term he did not have reference to the three members who did not hold office and only received a small remuneration. Nova Scotia with a population of 450,000 transacted its business with four paid Ministers. New Brunswick paid its Ministers \$12,900 a year in addition to \$10,950 paid out to Deputies. He did not see why the Hon. Premier could not act as Finance Minister. As for the Hon. Minister of Public Works they would probably have to keep him on the job. The Department of Agriculture and Lands and Mines could very easily be consolidated. The Attorney General could dispense with his Deputy and if paid a reasonable salary could devote his whole time to the work of the Province. There should be but four Ministers, decently paid and devoting their entire time to the affairs of the Province. The present arrangement he considered unfair to the Province and unfair to the members of the Govt.

MR. MCGRATH could not see why the hon. member should worry about the Government being too heavy so long as it was well balanced.

MR. MURRAY (Kings) on the item of \$4800 for contingencies to the Public Works Department asked for an explanation of the increase.

HON. MR. VENIOT gave a list of the items making up the amount including one at \$2500 for postage. He explained that all cheques passing through the Dept. were now sent out separately and it had added considerably to the postage account.

MR. BAXTER offered some criticism on the item of \$1600 for Lieutenant-Governor's contingencies. He pointed out that it was an increase of \$700 over last year. He was of the opinion that some of the items in the account were properly chargeable to the Lieutenant Governor himself.

### Plea for Education

MR. CROCKET on the item for Home Efficiency Clubs made a strong plea on behalf of education. He said he could not allow the opportunity to pass without expressing regret at the treatment that important Department had received from the Government. The establishment of technical schools was a step in the right direction, but too much stress was laid upon that feature. He thought more encouragement should be given to those who made education the business of their
