TUESDAY, APRIL 15, 1919

CANADIAN JOY RIDERS.

Lieut. Col. Pratt, Conservative M. P. for South Norfolk, Ont., who has taken occasion to flail Argyll House, both in the Ontario Legislature and out of it, recently passed on some hot shot to those who participated in the newspaper excursion to England and France last year. He reminds his hearers that at the time the "printers' picnic" was in full bloom in London, and at the front, the crisis of the war had been reached. He says:

"When these gentlemen went on their Empire-saving tour overseas at the generous expense of the British taxpayers, petrol was worth its weight in gold; even generals were giving up the use of their cars in view of a very real danger that there might not be sufficient of the vital fluid to permit the maximum offensive by our armies. Food was scarce and the rationing system was being worked to the limit in order to provide the bare necessities of life for all. And yet these gentlemen burned up hundreds of gallons of petrol, even to the extent of going on joy rides in aeroplanes, and were using up the most expensive automobiles and tires. They lived on the fat of the land and all through their trip traveled de luxe, as none of them in their private capacity was likely to have ever done before, or are likely to do again. Their tour extended even to the north to see the Grand Fleet, under the same royal visit conditions."

As the Toronto Saturday Night puts it, Lieut. Col. Pratt might well have added what numerous Canadian officers have stated times without number, and that was that while those on the fighting line were unable to obtain sufficient gasoline for the bare requirements of the service, such, for instance, as providing enough petrol to keep light cars and motor cycles in running order, the lines were jammed day after day with sight-seeing Canadian "joy-riders," who "utilized," to quote one of the commanding officers, "more petrol in a day than would have kept my division supplied for a week. As it was, men summoned on outpost and other duties at distant points, had to walk, where they should have ridden had there been sufficient petrol. It was not only a great hardship on the troops, but prevented us from attending to our legitimate functions."

Mr. Tilley tried his hand at leading the grand old party in the Legislature last evening, when a bill to amend the Workmen's Compensation Act was under discussion. Leader Murray treated the efforts of the ambitious member for St. John City with silent contempt, while Mr. Baxter pulled up stakes and quit the chamber. Mr. Tilley played a lone hand for some time and as usual got nowhere. Somehow or other a majority of those who sit on the opposition benches seem to have gathered the impression that Mr. Tilley has a great political future behind him.

The Prohibition bill which was passed by the old government in 1916 in a last desperate effort to escape from the inevitable, was under review in the House for a time last night. It was given some hard knocks by Dr. Campbell and Mr. Potts, members of the opposition, and, strange to say, ex-Attorney General Baxter, who fathered the original bill, and therefore is responsible for those provisions so often described as harsh and un-British, had not a word to say in its defence.

Mr. Nickle's motion praying that the King confer no more titles on British subjects in Canada, was before Parliament yesterday and provoked a lively debate. During the discussion, Mr. Fred Pardee, former chief Liberal whip, practically announced that he was all through with union government. By a close vote, Mr. Nickle's motion was referred to a special committee.

Buffalo Express: On the ship coming from Europe Charles M. Schwab heard that 154 negro soldiers on their

way home were flat broke. He staked them to \$1 each and told them: "You needn't pay this back if you don't want to; suit yourselves." Up to the last report 138 had sent Mr. Schwab his dollar.

Ontario's expenditure for the financial year ending October 31, 1920, has been set at \$13,814,258 in the estimates brought down by Hon. T. W. McGarry, provincial treasurer, in the Ontario Legislature yesterday. The total represents an increase of \$2,203,130 over estimates for 1919.

The report of Dr. G. C. Melvin, chief medical officer, shows that there were 26,686 cases of influenza in New Brunswick during the months of October and November. Of the total, Fredericton had 715 cases during those months and Marysville 180.

The province of New Brunswick has debentures to the amount of \$2,282,000 falling due during 1919, and legislation for a renewal bond issue is now before the House.

According to an Ottawa despatch, it rather looks as if the call for a Liberal convention had sounded the death knell of union government in Canada.

THROUGH OUR SIEVE

Don't tell all you know; keep a little for seed.

As a rule, the more a man chips in the more he has to shell out.

Pursuit of happiness may degenerate into pursuit of distraction.

The recording angel probably does not pay any attention to the lies a man tells when he is in love.

A goat hat, in a man's opinion, is one that does not get shabby two months before it is time to buy a straw one.

The former Crown Prince Frederick William of Germany fell off a bicycle and sprained his wrist. Since he got out of the war nobody sees to it that he doesn't get hurt.

What they seem to be in urgent need of just now in Russia is better marksmanship among the would-be assassins who shoot at Trotsky and Lenin.

The 51-story Woolworth building and a chain of 800 nickel and dime stores are pointed out as a great monument to the late F. W. Woolworth, and to the adage "take care of the dimes and the dollars will take care of themselves." Of course, but if all of us took care of the dimes, there would be no Woolworths.

Lemons Whiten and Beautify the Skin! Make Cheap Lotion

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost of one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smootheners and beautifier.

Just try it! Make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen, and bring out the hidden roses and beauty of any skin. It is wonderful for rough, red hands.

Your druggist will sell three ounces of orchard white at little cost, and any grocer will supply the lemons.

Late W. H. Jonah

The funeral of the late William H. Jonah took place this afternoon at 2.30 o'clock. Rev. G. C. Warren assisted by Rev. Z. L. Fash conducted the service. The pall-bearers were Thomas Sansom, Charles Hern, R. B. Wallace, R. B. VanDine, Arthur Porter, and R. Wickett. The mourners were George Jonah, Robert Hagerman, Albert Rogers, Austin Jonah, the Earl of Ashburnham, J. Peck, Leaverett Gunter, and Herman Hagerman and son. A quartette composed of Messrs. Dryden, Cooper, Holder and McLean sang a number of favorite hymns of the deceased. Interment was made at the Rural Cemetery.

Send Flowers.

Easter with its message of hope and love is with us again and spring comes smiling through the wood, and what can better express every degree of sentiment, regard and friendship the whole world over than flowers. The language of flowers is known to everyone rich and poor, old and young. Say it with flowers. The quality of flowers is now at its best in roses, sweet pears, violets, carnations, etc. at Ada M. Schleyer, florist, 325 Charlotte St. Phone 17.

HER FIVE CHILDREN Had Whooping Cough at the Same Time

Whooping cough is one of the most dangerous diseases of children, especially to those under five years of age. It first starts with a fever and cough sneezing, watering of the eyes and an irritation of the throat. Later the coughing increases, the child becomes livid in the face, the eyes appear as if they would burst from their sockets, and suffocation seems imminent till relief is brought by the "whoop."

On the first sign of whooping cough we would advise the use of Dr. Wood's Norway Pine Syrup. This famous remedy will clear the bronchial tubes of the collected mucous and phlegm, and in this way ease the racking cough and in a short time make it disappear entirely.

Mrs. Walter McLaughley, North Battleford, Sask., writes: "I have five children, the eldest thirteen and the baby two years old. They all had the whooping cough at the same time. I tried two or three cough remedies, but none gave the same satisfaction as Dr. Wood's Norway Pine Syrup. A home where there are young children should never be without it. I will highly recommend it to those who want a quick cure."

There are many imitations of Dr. Wood's Norway Pine Syrup, so be sure you get the genuine by insisting that the package is put up in a yellow wrapper; three pine trees the trade mark; price 25c. and 50c. and manufactured by The T. Milburn Co., Limited, Toronto, Ont.

NASHWAAK PULP & PAPER CO. BILLS FARED BADLY

(Continued from Page 3)

wanted the rights of riparian owners sufficiently protected. The site of the dam would be restricted to a certain portion of the river and to his mind should not be above the present railway bridge. He also wanted a fish-way placed in the dam as the salmon were returning to the river.

Mr. Winslow said the company had in mind the establishment of a pulp mill at Marysville in addition to its mill at St. John and wanted the ordinary rights which would be given to a company.

The Bill was allowed to stand.
Heron Lake Bill

The Committee took up consideration of the Bill to incorporate the Heron Lake Water Company, Ltd.

Mr. Winslow who appeared on behalf of the bill explained that the company wished to supply water from Heron Lake, Parish of Douglas to Marysville and other towns. To do this it would want the right of purchase of the lake and of conveyance of water through private land. As far as the opening of roads and streets was concerned the company was prepared to adopt the amendment prepared by the Minister of Public Works which would govern that matter and protect the public.

No Hated Stock

Mr. Baxter suggested that there be no preferred stock in connection with this as it was a public utility and that the issue of stock be subject to approval of someone in authority.

Mr. Hanson said he represented the Town of Marysville. The Town did not oppose the bill but wanted sufficient safeguards. Above all it wanted to guard against too much water in the stock.

Mr. Winslow said that in view of the opposition which had developed he would ask leave to withdraw the bill.

Gaspereaux Plentiful

There is an exceptionally large run of gaspereaux in St. John harbor at the present time. Yesterday several boats brought in more than 3,000 fish each. Some of the fishermen are asking three cents a piece for the fish. There will be no shad fishing this year because of the close period enforced by the government. The gaspereaux have not yet reached this part of the river. Pickarel are being caught however.

TENDERS FOR ROSE

Tenders will be received until FRIDAY, the 18th instant, 12 o'clock noon, at the City Clerk's Office, City Hall, for five hundred (500) feet double-jacket cotton rubber-lined fire hose; samples to be submitted.

G. R. PERKINS,
 City Clerk.
