WASHING FABRIC GLOVES

Easier Than Washing Other Kinds-Never Put Them Into Hot Water.

bric gloves is as easy as rolling off the proverbial log—if that particular feat proverbial log—if that particular feat burn's Laxa-Liver Pills and you will Remove Tar from Cloth.—Rub it gloves made of cotton require practiproperly.

Mr. John R. Morrison, Grand River
"Several months will find that if you wash them carewear them until they are badly soiled, for then washing is doubly difficult.

You should never use hot water on use soap flakes to wash them in you highly course you should not use yellow soap or any strong washing materials.

A Soft Brush.

When gloves are much soiled it is a little difficult to cleanse them without some strenuous assistance, and we are tempted to rub the fingers on a use a rather soft flesh brush, though of course this tends to wear the gloves

fingers as you would scrub the fingers Bridge.

The Rinsing.

Now, when washing chamois gloves it is usual to rinse them in soapy water, but in washing fabric gloves one should be careful to rinse them thoroughly in perfectly clear lukewarm water, as any soap left in the fabric will, or may discolor them.

There is also a tendency sometimes to shrinkage and for this reason the gloves should be pulled lengthwise when taken from the water. Do not wring them with the hands, much less in a roller wringer. Lay them in a towel and then press them until much of the water is pressed out. Place them between the folds of a dry towel and allow to dry in a warm place.

A Little Salt.

A good thing when washing colored gloves, such as black or brown, is to add a little salt to the washing water, which keeps them from running.

Never wear gloves after washing till they are thoroughly dry, as a damp glove will soil almost instantly.

For summer wear, if you decide to wear white or light gray, get at least two pairs and alternate. Never wear one pair two days in succession, without washing, as they will become too hopelessly soiled at the tips to come clean without vigorous scrubbing.

### REMOVING STAINS.

Spread the stained part of the fa bric over a bowl, then pour boiling water on from a height so as to strike the stain with force. If the stain is still in evidence, try a solution of bor-

Wash the fabric first with cold water 16 Corner George and Northumber- then wash it with good mild soap and warm water.

> Sprinkle the stain with salt which has been moistened with lemon juice Let stand in the sun. If one applica tion is not enough, repeat until the stain disappears.

> > SAVE PRESSING WAISTS.

Hang your waists up by the bottom and you won't have to press them 31 Corner Queen and Regent Streets. wear much longer because pressing 32 Corner Needham and Regent them burns them. Don't fold them up and lay them in a drawer because they orders out of town. wrinkle right up again.

> A dress suit is something like a re volver—you hardly ever use it, but it is gratifying to know that it's there when you want it.

Peace is a tangible, active element in the life of a man who pays all his pills promptly.

### SPECKS FLOATING BEFORE HIS EYES

When specks start to float before the eyes, when everything turns black for a few seconds and you feel as if you were going to faint, you may rest assured that your liver is not working

The essential thing to do in all tightly closed room. It will kill alcases where the liver is slow, lazy or most all insect life and their eggs and torpid, is to stir it up by the use of larvae. a medicine that will clear away all the waste and poisonous matter from the system, and prevent as well as squaking, drive a peg into the middle doeskin gloves, washing so-called facer mulated many arrival.

| Make Leather Waterproof.—Saturate it with castor oil; to stop shoes squaking, drive a peg into the middle of the sole. accumulated mass which has collected

is really easy. Still, don't delude your-have no liver trouble of any kind. They will clear away all the waste is removed. them carelessly. Silk gloves and and effette matter which has collected
