

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. OF INTEREST TO WOMEN

WHEN A BLOUSE IS A WAIST.

"Blouse Week" Arranged for by the United Waist League of America.

In the fall there is to be what is termed "blouse week," arranged for by the United Waist League of America. It has brought up a conundrum in the trade. This is, when is a waist not a waist, but a blouse?

According to Executive Director M. Mosessohn, of the League, one manufacturer thinks he has solved it. He says if the article costs \$3 or less it is a waist. If it costs more, it is a blouse. He got this notion, he says, from a prominent clothing manufacturer who told him the difference between pants and trousers is that the former costs less than \$2 a pair, but that there is no limit on the cost of the latter.

HANDBAGS OF LINEN

Perhaps as a remnant of the craze and necessity for knitting bags, there are now linen handbags—they are obviously inspired by some of the lovely crash and linen knitting bags that we carried last summer. They are embroidered in color and decorated with beads and little puff tassels of some soft stuff, like chenille. One, for instance, in heavy cream gray linen—oyster gray, really—is embroidered with soft old blue. The handle is a string of big black jet beads and at each of the three corners of the bag—the bottom is cut in a triangle, so that there are three corners—hangs a big blue puff suspended from a big jet bead.

OPINION DIVIDED.

While predictions of short sleeves for fall in women's wear were freely made when preparations for the new season started, it is understood the designers are now revising their ideas. In the blouse line, for instance, there is a growing sentiment in favor of the longer sleeve, generally the three-quarter length. Some of the dress manufacturers state that opinion among buyers is about equally divided on the subject of sleeve-lengths, the longer sleeves selling in the more staple styles and shorter effects in the novelty lines.

GODET FULLNESS IN FROCKS.

Godet fullness is being introduced into new frocks by Paris dressmakers. The bodice extends far down into the skirt in long godet points and the skirt flares out between these flat godets in the new bouffant manner. The underskirt is very narrow and slim. Such a frock is of turquoise blue faille, in bodice and godets, the flaring skirt of gold tissues and the narrow underskirt of lace flouncing.

RANDOM REMINDERS.

A soft brown is excellent to use in brushing out the dust from under heavy furniture.

When making cherry salad, add a little whipped cream and cherry juice to the mayonnaise.

Never forget that the colder every thing is kept while making piecrust the better.

Add cooked macaroni, raisins and cinnamon to egg custard. Bake and serve with fruit.
