URGES SENATORS TO VOTE AGAINST THE LODGE RESOLUTION

A Letter From President Wilson Read by Democratic Leader in the U. S. Senate—Says Adoption of Lodge Resolution With Its Reservations Would Mean the Nullification of the Peace Treaty.

Washington, Nov. 19.—A letter from President Wilson advising Senators to vote against ratification of the Peace Treaty with the Foreign Relations Committee's reservations, was laid before a conference of the administration Senate forces today by Democratic Leader Hitchcock.

The committee's programme, the President wrote, would provide not for ratification, "but rather for the nullification of the treaty." The conference had been called to decide upon the final administration tactics in the fight for ratification, which is expected to come to an end today or tomorrow.

After the President's letter was read there were indications that unless a compromise could be effected, the administration Senators would line up almost solidly against ratification.

**PRESIDENT THINKS THE LODGE RESOLUTION
WOULD MEAN NULLIFICATION OF THE TREATY**

The President's letter, addressed to Senator Hitchcock and dated yesterday, follows:

"You were good enough to bring me word that the Democratic Senators supporting the treaty expected to hold a conference between the final votes on the Lodge resolution of ratification and that they would be glad to receive a word of counsel from me. I should hesitate to offer it in any detail, but I assume that the Senators only desire my judgment upon the all important question of the final vote on the resolution containing the many reservations of Senator Lodge. On that I cannot hesitate, for, in my opinion, the resolution in the form it is does not provide for ratification, but rather for the nullification of the treaty. I sincerely hope that the friends and supporters of the treaty will vote against the Lodge resolution of ratification.

**DEMOCRATS WILL HAVE NO OPPORTUNITY TO
VOTE FOR AN UNRESERVED RESOLUTION**

"I understand that the door will then probably be open for a genuine resolution of ratification. I trust that all true friends of the treaty will refuse to support the Lodge resolution."

The President's reference to an opportunity to vote on a "genuine ratification" resolution referred to the plans of the Democrats to get action on an unreserved resolution after they had voted down the Lodge proposal.

That plan apparently has been blocked, however, by the decision of the mild reservation Republicans to stand with Republican Leader Lodge against providing such opportunity.

LOCAL 'PHONE SERVICE TO BE IMPROVED

Expert Operators Sent from St. John to Instruct Operators in the Fredericton Exchange.

Active steps are being taken by the management of the New Brunswick Telephone Company to bring about an improvement in the telephone service in the Fredericton district, an official of the company announced today. With this end in view several expert operators have been brought here from St. John and they are acting as instructors at the local exchange as well as supervising the work and generally assisting Miss Gilbert, the chief operator. For some time the Fredericton exchange won the trophy offered by the management for the most efficient operators in the service, but lately the local exchange has suffered by the retirement of experienced operators from the service because of marriage and other reasons with the result that the number employed at this exchange with but brief experience has become far larger than under normal conditions. In the same way that the general of an army sends reinforcements to a weak part of his battle line the New Brunswick Telephone Company have sent expert operators to improve conditions.

THE PRINCE OF WALES SEEING THE SIGHTS IN OLD NEW YORK

Has Displayed a Boyish Eagerness to Become Acquainted With the City—Has Captured the Heart of New York by His Democratic Bearing.

New York, Nov. 19.—The Prince of Wales was up bright and early today to "see the sights." The warmth of his welcome here yesterday when he was made a freeman by Mayor Hylan, was unmistakable, and the Prince displayed a boyish eagerness to become acquainted with the city. His morning programme included a trip to the top of the fifty-four story Woolworth Building, an automobile ride through famous thoroughfares, visits to the stock exchange, the United States Sub-treasury Building, historic Trinity Church and the Chamber of Commerce.

To Visit the Horse Show.
The afternoon will be taken up with visits to the Academy of Music and the Annual Horse Show at Madison Square Garden. Tonight he will attend a dinner of New York societies and later will be the guest of honor at a ball in the home of Mrs. Whitelaw Reid.

By his democratic bearing the Prince has captured the heart of New York. He was greeted with unusual warmth everywhere he went. The crowds, showing a democratic disregard for royal dignity, saluted him with such remarks as "Hello, Prince," and "He's a regular guy."

The Prince is guarded by a detachment of 2,500 police and secret service agents, but there has been little for them to do.

Compromise Has Been Reached on Eight Hour Day

AWARD MADE IN THE CASE OF MINTO MINERS

Ottawa, Nov. 18.—The Board of Arbitration in the dispute between the Minto Coal Mine and its employees, has made its award. The board was composed of Chief Justice McKeown, R. B. Hanson, K. C., and John A. Walker, the latter of whom represented the employees and refused to concur in the report.

The report does not recommend any material increase in wages. The average daily earnings of the miners is \$4.78, rents averaging from \$2.50 to \$4 per month and fuel from \$1 to \$1.50 per month. The entire output of the company is tied up in long term contracts, some made previous to 1914. An increase of one cent per box to coal cutters is recommended. The request for the collection of union dues is not recommended.

International Labor Conference is Making Good Progress With Its Work—Reports of Stormy Scenes Among the Delegates—Canada Likely to Secure Direct Representation on Governing Body of International Labor Office.

Washington, Nov. 18.—Canada is likely to win her point and secure direct representation on the governing body of the international labor office. The issue is one of some weeks standing. The governing body controls the International Labor Office and direct representation in its membership is considered of prime importance. It consists of 24 persons. Twelve are to represent the government. The other twelve consist of representatives in equal numbers of the employers and workers' delegates at the conference and chosen by the bodies they represent in the eight states judged to be of chief industrial importance. Four of the governmental representatives are to be chosen by the International Labor Conference on its nomination of the committee of selection.

**CANADIAN DELEGATES AT THE CONFERENCE
PLAYING IMPORTANT PART IN THE PROCEEDINGS**

When the organizing committee of the conference prepared a list of eight states of chief industrial importance, Canada was excluded. The Dominion government immediately filed a protest, which is still on record and due to come before the council of the League of Nations at its first meeting. But so prominent has been the part played by the Canadian delegation at the conference that it is understood there is every likelihood of Canada being nominated as one of the four which the conference appoints. The matter is now in the hands of the committee of selection, which has not yet reported. Its nominations, however, are expected to exclude the Dominion. Should this be the case, the protest before the council of the League is unlikely to be pressed. But Canadian employers are less successful, the six employers' representatives on the governing body so far determined will be from Great Britain, Belgium, France, Italy, Czechoslovakia and Switzerland.

**COMPROMISE ON THE EIGHT HOUR DAY WAS
NOT REACHED WITHOUT SOME ANGRY SCENES**

Compromise on the Eight hour day has apparently been reached, although the special committee continues its labors. Nor has the present stage in the committee's work been reached without heartburning and angry scenes. Two labor delegates from continental Europe at one point flung themselves out of the committee room. They heatedly declared that they would have nothing more to do with the conference. They were through. But under the counsel of British and Canadian labor groups they returned to the committee room and were eventually successful in re-opening the discussion on the 48-hour week. The compromise, which, it is understood, has the support of the majority, both of employers and workers, is an extension of the suggestion made by Senator Robertson, Canadian Minister of Labor, a few days ago.

BIG SEIZURE OF LIQUOR AT ST. JOHN

St. John, Nov. 19.—What is easily the biggest seizure of liquor that ever has been made in St. John since prohibition came into force, and said by the authorities to be one of the largest and most important ever pulled off in the province, was brought about yesterday by inspectors when they visited the premises of William Weber, 71 Orange street. Besides the exceptionally large array of many brands of liquor the inspectors seized paraphernalia that gives evidence of home manufacturing of liquor.

In all about 683 full bottles, a cask of alcohol, two casks of rum, two casks of Scotch whiskey, several large demijohns more or less full, and about 7 jugs containing various brands, were taken. The retail value of the goods is roughly placed by the inspectors in the vicinity of \$10,000.
