Years Ago—Police Magis-
trate a Son—Interment
at Boston.

Limerick received news yesterday morning that his father Joshua Limerick was very low and later received a telegram stating that he had passed away at his home in West Somerville, Mass. The deceased was a son of the late Arthur Limerick of Fredericton and was well known in this city. For many years he was one of Fredericton's chief contractors and builders and several fine buildings among them the Fredericton High School were built by him. He took an active part in civic politics and several times represented Queen's Ward at the City Council as an alderman.

EVIDENCE FOR CROWN GIVEN IN KING CASE

FOUR WITNESSES ON
YESTERDAY AND TODAY

Damaging Statements Made
by Crown Witnesses—
Sharp Cross-Exam-
ination.

The case of The King vs. James King, in which adultery is charged was continued this morning before Judge Wilson in the York County Court. This afternoon the case again went on. Considerable interest is taken in the proceedings by the public and a large number of spectators is in attendance at the sessions of the court.

Witnesses Examined

The complainant in the case ex-Coun. David Carson, was the first witness called Tuesday afternoon. His evidence was general in character and was to the effect that the accused had frequently been at the home of the witness.

Mrs. Abigail Monroe mother of Mrs. David Carson next went on the stand. Her evidence concerned the visits of King to the home of the complainant and of the witness finding the accused and Mrs. Carson in a compromising position after her attention had been called to the matter by the children. The evidence of this witness in general was damaging to the defence. It was completed this morning.

James Burke son-in-law of the complainant also was on the stand this morning. The chief point of his evidence also was of seeing the accused and Mrs. Carson in a compromising position at the home of the complainant. Upon cross-examination the witness admitted that he could not see the persons referred to but identified them by the color and pattern of the clothing.

Kenneth Carson son of the complainant also gave evidence this morning. He told of seeing his mother and the accused in a compromising position at his home. On one occasion he had called the accused an "Indian" because he was about the house when the father of the witness was away from home. Witness also told of the accused and Mrs. Carson going up the road from Allandale Road in King's car. Witness and his aunt followed in a car driven by his aunt and found the first car standing by the roadside in the Shogomoc woods with the defendant standing beside it and Mrs. Carson sitting in it. Witness and his aunt then returned to his grandfathers house. Mrs. Carson and King did not come back until midnight, several

WILL ASK FOR MORE ADEQUATE FIRE PROTECTION

MINISTER OF LANDS AND
MINES WILL TAKE ACTION

C. P. R. and Other Privately
Owned Lines Have Fewer
Fires—Wild Cat Boun-
ties Lower.

It is probable that Hon. E. A. Smith Minister of Lands and Mines at an early date will take up with the Canadian National Railways the matter of better fire protection for forests along the various lines of railway operated by the Dominion government. Up to the present time the Canadian Government Railways have not come under the Railway Commission in the matter of fire protection with the result that the number of fires along the Intercolonial and other government operated lines has been greatly in excess of that of fires along the C. P. R. and other privately owned railways which are required by the Railway Commission to provide protection to the forest lands through which their lines run.

Illogical Situation

At present there is a most illogical situation the Federal government through one department requiring rail ways to provide adequate protection against fire originating from locomotives and in another permitting the National Railways to go without providing fire protection of any adequate kind.

Change in Bounties

In the payment of bounties for wild animals during the last year a curious situation has arisen in the Department of Lands and Mines of New Brunswick in the fact that the wild cat bounties were much lower in the aggregate than in the year before. The reason for this is not known and it is not believed that there has been any noticeable reduction in the number of wild cats. On the other hand the total paid out in bounties on porcupines, hawks and other small animals has increased. For them the total was \$962 and for wild cats \$771. In the year before \$1,200 was paid for wild cat bounties.

Fire at North Devon
