

Women make fools only of men who supply the material.

Free speech is back again; some of it so free it couldn't be caught with a larina.

Wood's Phosphodine.
The Great English Remedy. Tones and invigorates the whole nervous system, makes new blood in old veins, cures nervous debility, mental and brain worry, loss of energy, palpitation of the heart, failing memory. Price \$1 per box, six for \$5. One will please, six will cure. Sold by all druggists or mail in plain pkg. on receipt of price. New pamphlet mailed free. **THE WOOD MEDICINE CO., TORONTO, ONT. (Trans. Atlas.)**

Have you noticed that a man with a thin thatch of hair is usually a friend of the derby hat?

Nearly all men would "do as they blam'd please" if they could make a living at it.

After all, the man who wants to drown his troubles is only one degree more objectionable than the man who wants to tell his troubles.

The statesman tries to lead the people into virtue. The politician capitalizes their failings.

Finest Thing Ever For Chronic Catarrh!

Gets Away From the Medicine Habit, Cures by Novel Method.

With the many remedies you have tried you surely know that no liquid medicine can cure your throat or nose. Even a gargle only bathes the entrance of the throat—it can't really get inside, nor can it reach the inflamed bronchial tubes.

With Catarrhoxone, it's so different from medicine-taking—you simply breathe its healing vapor, inhale its balsamic fumes, which carry cure and relief to the minutest air cells in the lungs, nose, throat, and bronchial tubes.

In this scientific way the soreness and inflammation is rapidly allayed, relaxed cords are toned up, the entire mucous membrane invigorated. Every trace of catarrh disappears, the disagreeable dripping of mucus in the throat, hawking, spitting, and stopped-up nostrils—all these sure signs of catarrh and bronchitis are permanently cured by Catarrhoxone. Large outfit lasts two months, costs \$1.00; small size 50 cents, trial size 25 cents, at dealers everywhere.

OPPOSITION CRITICS HEARD IN THE HOUSE

(Continued from Page Two)
mained ten days at the Capital and were promised a bond guarantee for those bridges. When War broke out the govt. said there was no money available, and the project was abandoned. The only feasible proposal then was to extend the road to Westfield and connect with the C. P. R. He thought it would be the proper thing for the govt. to memorialize the Dominion Govt. to take over the harbor of St. John as a national port, including the break-water.

He held no brief for the C. P. R., yet he felt bound to say that no agency had done as much for the port of St. John as that great corporation.

He was glad to see the hon. Minister of Public Health in his seat. It was only fair to him to say that with his well-known energy he had during the recent crisis discharged his duty faithfully and in the interests of the province. He had only one comment to make, when the crisis was at its height the Board of Health should have secured the services of every competent Nurse in the Province, and sent them out to the districts where their services were most needed. He wished to compliment the V. A. D.'s on the good service which they had rendered during the crisis.

In regard to Public Highways he could say that some roads were getting their share of public expenditure, while other roads seemed to be getting nothing at all. The hon. Minister had repaired a road at his request, but the work had been done at the wrong time and would have to be done over again next year. From a resident of Gloucester he had learned that there was lots of money available for roads in that county. His informant had stated that next year the hon. Minister intends to employ little black and red ants, each to carry one grain of gravel, and put them on the pay-roll.

He was glad to know that the govt. was endeavoring to enforce the Prohibition Act, but he would suggest to the hon. Premier that he ask the Chief Inspector, who seemed to be most efficient, to instruct his Lieutenants to use a little horse sense in its administration. He had been in a certain town not long ago and had met two of the inspectors, and while there a Commercial traveller, who had been sick, arrived at the hotel.

HON. MR. FOSTER—He represented my house.
MR. TILLEY said that would make it easier for him to complete his statement. The traveller had left his fur coat hanging in his room while he went out to transact some business. During his absence the inspectors searched his pockets and discovered a bottle of brandy. The man was haled to court and fined, he did not know how much.

HON. MR. FOSTER—\$50.00.
MR. TILLEY continuing, said the

SOME HOT SHOT FOR THE PURISTS OF THE OPPOSITION

Hon. Mr. Foster Tells How the Government Assisted a Returned Soldier to Retain His Home—The St. John Globe's Opinion of the Potato Politicians is Quoted—Hartland Paper's Statement About Hon. Mr. Tweeddale Retracted.

Following is the concluding portion of the great speech delivered in the House by Premier Foster on Tuesday in reply to opposition criticism:

That Soldier's Case.
Last night reference had been made by the leader of the opposition to a soldier assisted in land settlement by the Government and the remark made that the man had got no farther than England. If the hon. member wished to belittle that soldier he was at liberty to do so but he might remember that there were many higher in rank than that poor private that got no farther than England. The wife of that man had come to him and asked for assistance to stock their place in Saint John County and put a new roof on the house. The Farm Settlement Board considered the case and Mr. Gilchrist was rather opposed to any action. However, assistance was granted and there now was the amount of \$75.95 standing against the man for the security of which there were two pieces of farm machinery.

The leader of the opposition had referred to an article published in the Hartland Observer. The Speaker quoted from the current issue of the Fredericton Mail a statement from the Editor of the Observer which explained that the matter referred to was an error in transcription.

The Globe's Opinion.
HON. MR. FOSTER quoted as follows from the Saint John Globe October 23rd—A comment upon an article in the Chatham World—

"Why does the world ignore the fact that Hon. Mr. Murray's deputy in detailing the story of this potato loss, declared on oath that Hon. Mr. Murray was fully informed of all that was going on in connection with the potato transaction. Payment of the 'bad management' or bad luck deposit was made out of money collected from a contractor after that contractor had, by his own evidence, agreed with the Government leader to provide the money if given the contract. The evidence of Mr. Daggett directly connected Hon. Mr. Murray with the intricate unquestionable financial transaction involved in the repayment to the Province of a loss sustained by the Department over which he was directly responsible. For the loss itself, as well as for the method taken to recoup that loss, it is therefore fair and right to hold him accountable, and because the transactions, as told by the Government contractor who furnished the money, makes plain confession of a bargain, it is as fair and just to demand his resignation as it is to demand the resignation of Hon. Mr. Currie. These two gentlemen should resign. The case of Mr. Jones M. P. P. for Kings is somewhat different. He

Inspectors should use a little more horse sense. Had the man been a bootlegger he would have said to punish him to the limit. The Inspector should get after the men who are selling poison about the country. He (Tilley) did not support prohibition but he would support its enforcement. He was glad to hear the hon. Premier say that the Law would remain as it is until a referendum was taken.

He noticed that legislation was being brought down to provide for the transfer of the Jordan Memorial Sanatorium to the Military Hospitals Commission. Last session the House had appointed a Committee of five members to investigate conditions at the Sanatorium, and he trusted the bill would not be further proceeded with until the report of that Committee was laid before the House. He understood that the report was being printed. He felt sure that report would justify the position he had taken in the House, for the past four years. The Sanatorium had cost to date for upkeep the sum of \$238,000, and it was without a free bed, and he held was not serving its purpose.

He was much pleased with the Workmen's Compensation Act adopted last year, but he wanted to see the Lumbermen brought within its scope. Why should not the Lumbermen be brought under the Act. The lumbering industry was the biggest factor in the province today, but the govt. should not be afraid of it. They had been told not long ago by a St. John man that the lumbering would make or unmake governments.

But the hon. Premier should not mind that. Should he be compelled to take the grip with them he would find certain members to the left of the Speaker ready to stand behind him.

was the agent of the party campaign funds an untenable position for a member of the legislature. If he did not know how and why the money was raised, he at least knew enough to keep himself clear of dirty, entangling and embarrassing connections. The failure to do so has got him into a very nasty mess and one which makes his resignation as a representative both wise and necessary. The disclosure of how funds Mr. Jones handled and disbursed were raised is sufficiently degrading to make any self-respecting man want to end a humiliating connection. Unless political parties clean house after such exposure as the timber fraud and the potato scandal there can be no improvement in conditions which have made New Brunswick the by word of Canadian politics."

Opposition Ashamed.
Holding up the Hartland Observer article the Premier asked his supporters if there was anything there of which they were ashamed. The answer was "No." Holding up the Saint John Globe editorial he asked the members of the opposition if there was anything there of which they were ashamed. There was no answer. He asked the same question of Mr. Tilley and Mr. Campbell. There was no answer.
MR. TILLEY—"My hon. friend can hardly expect that I will make a speech at this time in reply to his query. When the time comes I will answer all the questions asked by my hon. friend, and will give the House my opinion."

Our Water Powers.
HON. MR. FOSTER, said he came to a serious matter. Canada found herself burdened by an enormous war debt which could be paid only by the industry of her people and the development of her natural resources. He was unable at this time to refer in detail to these matters but it was the wish and intention of the Government to assist the development of such natural resources of New Brunswick as water powers coal areas and oil shale deposits. He would leave all these matters until a later date and his friends opposite to the reconstruction of their party.

It being six o'clock the speaker left the chair, to resume at 8.30 p. m.

Among the aviators there seems to be a visibly indifferent feeling toward the good roads movement.

When making a cake try adding a tablespoon of vinegar with a level teaspoon of soda dissolved in it, instead of eggs. One can make delicious cakes this way, using no eggs at all.

NO CONSTIPATION NO PILES

We think without a doubt, that constipation is the most prevalent and at the same time one of the greatest troubles human nature is afflicted with, and causes more sickness than anything else.

Unless a free action of the bowels occurs at least once a day, constipation is sure to ensue, then comes the sore and uncomfortable piles, sick and bilious headaches, coated tongue, obnoxious breath, sour stomach, heartburn, water breath, and many other ailments.

Milburn's Laxa-Liver Pills will regulate the flow of bile to act properly on the bowels, thus removing the constipation and its allied troubles.

Mr. Dan Doucette, Eel River Crossing, N. B., writes: "Having been troubled for years with constipation and trying everything I knew of, a friend advised me to use Milburn's Laxa-Liver Pills. I used four vials and am completely cured. I can gladly recommend them to anyone who suffers from constipation."

Milburn's Laxa-Liver Pills have been used with the best results by thousands of people in that time, and we have yet to hear of a complaint as to their curative powers.

Price 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto Ont.

SOME POINTERS FOR THOSE WHO RAISE PULTRY

The following are pointers taken from the report of the egg laying contest at Mountain Grove Missouri:

Poultry do their part oftener than the poultryman.

Hens know the attendant as well as the attendant knows the hens.

Early moulters often prove to be lazy loafers.

Nature stimulates in the spring. Man should help in the fall.

Ninety eggs pay cost. The 150-egg hen is worth six 100-egg hens.

Males in pen reduce the total egg yield for the year.

Too much sunshine is just as bad as not enough.

The trapnest makes accurate pen records possible.

A sweet soil is just as necessary to poultry as for corn.

Medium weight hens of any variety are usually most profitable.

Early maturing pullets usually make good egg producers.

Reduction of yellow in shanks indicates egg production.

Color has little or no influence on egg production.

Incubation depends on the egg, incubator, building and operator.

The baby chicks is supplied with hours food when hatched.

Water is worth just as much as feed in egg production.
