NEW ARMISTICE TERMS ARE HANDED TO THE GERMANS

The Whole Aspect of Demobilization has Undergone a Sudden and Vital Change—One Report Says That War is Liable to Break Out Again at Any Moment—Huns Asked to Make Restitution for Ill Treatment of Prisoners.

London, Jan. 15—The Central News declared that as a result of the allied discussions in Paris, the whole aspect of demobilization has undergone a sudden and vital change, this being shown in the drastic conditions demanded of Germany for a renewal of the armistice.

"On authority of an unimpeachable character," says the Central News, "it can be stated that a situation exists in Europe, under which war may break out again at any moment. The allied war council has arrived at a decision which means that the British people have mistaken the appearance of peace for reality. This decision means that the new British ministry must revise the whole scheme of army demobilization."

"The decision is that Great Britain in proportion to its military strength must maintain an army of occupation on the Rhine front for many months. If the rapid increase in demobilization recently announced were continued, there would in a few months, be no army in France to undertake the obligations which by common decision of the Allies, have been placed upon British shoulders."

What New Terms Are

London, Jan. 15—The new armistice terms to be presented to Germany by Marshal Foch are unofficially stated here to include the following:

First—Retribution on the Germans for the murder and ill-treatment of Allied prisoners.

Second—The machinery and goods stolen by Germany from France and Belgium to be at once given up. It is pointed out that France alone has 500,000 men who will be out of work until this machinery is returned.

Third—German gold, amounting to more than £100,000,000 to be moved from Berlin to a safe place, probably Frankfurt, and protected from Bolsheviks.

evism in Germany en route. Certain other property to be surrendered.

Fourth—Germany to give over her shipping, of which she is believed to have 4,000,000 tons, to carry food supplies to countries in Europe in need of them.

Fifth—Any U-boats on the stocks to be handed to the Allies for their disposal or to be destroyed, and no more submarines to be built.

Seamen Demand Compensation

London, Jan. 15—In the absence of a definite policy from the Allies concerning the manner in which Germany shall make compensation for the dependants of submarine victims among seamen, the executive committee of the International Federation of Seafarers has evolved a plan by which the officials hope to force the peace negotiators to act. The committee has called an international conference in London on February 24, at which the British delegates will present a resolution providing that the seamen will not man any ships going to or coming from an enemy country until the proper compensation is agreed upon.

J. Havelock Wilson, president of the International Seamen's Union, said to the Associated Press today:

"It seems that the British statesmen and those of other nations have been too busy to think of the seamen in preparing for the conference, so, we will take the matter into our own hands in the hope of emphatically bringing to the notice of the peace delegates the necessity for taking care of our people."

"I have no doubt that the conference will adopt a resolution providing that no food shall go to Germany until these dependants are compensated."

The leaders of the seamen, including Andrew Furuseth, of the United States expect that the February conference will adopt a universal wage scale.

RESTRICTIONS ARE REMOVED FROM EXPORTS

Washington, Jan. 15—Issuance of a new export conservation list, effective tomorrow and covering only about 50 items was announced today by the War Trade Boards. Arms and ammunition, coal and coke motion pictures, films, quinine and its compounds and jute yarn and jute nitrate bags are the only important commodities other than food on the new list. The kinds of foodstuffs enumerated have been materially reduced.

Commodities not on the conservation list, it was explained, require no individual export licenses for shipment to the United Kingdom, France, Belgium and Japan and their colonies. To other destinations export licenses in most cases will be granted freely.

Two Doors Found Open

Evidently there is a plentiful supply of coal in some places of business to keep off the cold air as two merchants last evening left their store doors open all evening for an airing.

Officers Elected

Joseph Walker, H. A. Smith, Archibald Fraser and C. L. Sypher were elected to the Board of Trustees for three years; G. W. Hodge, T. G. Loggie, A. H. VanWart, A. S. McFarlane, Fletcher Peacock, W. M. Burns, G. R. Perkins and J. B. Dickson form the remainder of the Board.

C. A. McVey and E. B. Yerxa were elected auditors for the ensuing year. The different organizations of the Church including the Trustee Board, Session, Women's Missionary Society, Ladies' Aid, Benevolent Society, Mission Band, the Guild, Heather Club, Christian Endeavor Society and Sabbath School presented their reports. The reports showed all the organizations of the Church to be in a prosperous condition and altogether the year 1918 was a good one for St. Paul's Church despite adverse conditions due to the ban placed on public gatherings by the Board of Health.
