

TORONTO UNIVERSITY HEAD SPEAKS AT BUFFALO, N. Y.

The War Did Much to Bring Together the People of Two Great English Speaking Nations—Tells of a Trip to the Battle Front—People of Eastern Countries will be Taught the True Meaning of Liberty.

(Buffalo News)
Sir Robert Falconer, president of the University of Toronto, was the guest of honor at the banquet of the Buffalo and Niagara Falls alumni in the University club last night. In his talk he reviewed what the university did during the war, told the plans it has for a memorial to its fallen graduates and undergraduates and described some of the things he saw on the western front last summer.

In bringing the two English-speaking nations together the war accomplished a thing that future generations will consider almost worth its agony, he declared.

"I went overseas in an American convoy and again on my journey it was impressed on me what a great movement in history this was," he said. "For the first time the movement was from the west to the east. How mighty have been the motives that wrenched the American nation from its accustomed ways and turned it towards the east. This was no superficial war.

"And then to see the Americans in England! What a revelation that war. The two great English-speaking nations were united in friendship. And that union will constitute the real league of nations whose mission it will be to point out the true democracy to the peoples of the east. The word liberty is on the lips of those people in Russia and Germany, but they don't understand the meaning of the word. But liberty has been the heritage of the English speaking peoples so long that it has become an inherent quality. We will teach the peoples of the east what liberty is."

Discipline Wins War

He went on to tell how he had been at Arras when the great Canadian attack of August 26 was in the course of preparation. All the converging roads into the city were congested with traffic—guns, men, horses, lorries—but all in perfect order. There was no confusion anywhere, he said. It showed that it was not brute force that won the war but discipline, he declared.

In the beginning of his talk, he said that the University of Toronto had 5308 men in active service, of whom 2900 were graduates and the rest undergraduates. Of these 550 had fallen in battle or died, a loss of one in 10, he said. At least six generals were graduates of the university, he declared. The university also equipped

and sent to Salonica, a hospital which came to be regarded as the finest thing of its kind ever seen in the east.

"It showed that the intelligent educated man grasps the situation much more quickly than others," he said. "The university men stepped into the breach. It was a great demonstration."

Soldiers Demand Education

The returned Canadian soldiers are demanding education, he said. Plans are being made to provide greater educational opportunities, he said.

"Overseas men are the real pick of the population," he declared. "They say that they are not coming back as returned soldiers, but as returned Canadian citizens. The men say that if we won't make a new Canada, then they will. In a modern democracy we cannot allow a fine brain to lie fallow. There must be fellowships and scholarships for the men who have returned and their children."

As a memorial to its heroes, the University of Toronto alumni now has under consideration he said, a plan to build a tower with chimneys, a memorial that should be very beautiful and not very useful. In the future, the names of the heroes could be read on bronze tablets at the base of the tower while every day the chimneys sounding across the campus, would be a tribute to their memory, he said.

BUNIONS NO JOKE

Not to the man who has to move about, but a slight application of "Putnam's" softens the thickest tissue and cures the bunion quickly. Just as good for warts, lumps, and callouses as Putnam's Painless Corn Extractor. Use no other, 25c. at all dealers.

WAR SAVINGS STAMPS GOOD INVESTMENT

Make Saving Easy and Pay the Investor Over 4½ per cent Interest, Compounded Half-yearly.

The paying of \$4 now for a War Savings Stamp and getting \$5 for it from the government in January, 1924, is a method of investing that appeals quite strongly to the average person. Nor is this surprising, for the money thus invested yields a little over 4½ per cent, compounded half-yearly. With a War Savings Stamp goes a War Savings Certificate to which the stamps are attached.

Obviously this is an excellent return when the nature of the security is taken into account. There is nothing safer in the world than Canada, and these stamps are backed by all the resources of the Dominion.

A person does not need to have \$4 in cash in order to take the first steps towards purchasing a War Savings Stamp. Thrift Stamps, which sell at 25 cents each, have been provided. When 16 of these have been purchased they may be exchanged for a War Savings Stamp. With the first Thrift Stamp purchased goes a Thrift Card, to which the Stamps should be fixed as soon as received.

After the 16 Thrift Stamps have been exchanged for a War Savings Stamp, the person doing so should start in again to buy Thrift Stamps, and thus begin saving for the second War Savings Stamp.

SOUR STOMACH MADE SWEET

Gas Belching, Bad Breath, and Digestive Troubles Helped Quickest By Dr. Hamilton's Pills.

Better patch up the weak spots. Give to the stomach the assistance it requires—or in other words, try Dr. Hamilton's Pills, which cure more more weak stomachs than any other medicine.

Dr. Hamilton's Pills put the kind of life into a weak stomach that enables it to digest and assimilate all kinds of food.

It's the people who feel half-sick—sort of tired and depressed—for those who have any ailment of the stomach, kidneys, or liver, that Dr. Hamilton's Pills are sure to benefit at once. Try them, 25c a box at all dealers, and insist on having only Dr. Hamilton's Pills. In yellow boxes only.

New York Herald: A church in Kansas City, Mo., is to give John Barleycorn a regular funeral, in a metal casket, with an undertaker, pall-bearers and all the trimmings. If there is no post-mortem, we suggest that the undertaker and pall-bearers be searched. If there is a post mortem there will be no need of a search. A whiff will be enough.

The Dominion Parliament has been summoned to meet for the despatch of business on February 20th. As the new Parliament Buildings will not be ready until 1920, the House will hold its sittings in the Victoria Museum.

WHY BELGIANS STILL NEED HELP

"In travelling through Belgium with the Belgian armies, I have been able to see the country recently tenanted by the Bochs in the condition in which they left it, and never was there such desolation anywhere. One cannot get away from signs of destruction, no matter where one goes, along the country roads or in the city streets.

Not only has property been destroyed and every means of livelihood taken away from the people, but the peasants, especially in the country districts, have been left destitute both of home and food. We travelled twelve miles yesterday through open country and as but one small instance of the vast plundering of the Germans, let me state that in all twelve miles not one solitary live animal did we see, and practically every tree had been felled, so you can imagine the dreary aspect of the scenery.

All the peasant women and children we met on our way, said a news correspondent, while they greeted us with cheers and received us into their homes with open arms, those that had homes, showed the greatest suffering from insufficient food and nourishment. They did not complain, but merely stated as a fact that they had not tasted meat for two months and

SOUNDS PLAUSIBLE.

It seemed that when Rastus and Sam died they took different routes, so when the latter got to heaven he called Rastus on the 'phone.

"Rastus," he said, "how yo' like it down thar?"

"Oh, boy, dis here aine some place," replied Rastus. "All we has ter do is to wear a red suit wid horns, an' ebbery now and den shovel some coal on de fire. We don't work no more dan two hours out ob de 24 down here. But tell me, Sam, how is it with you up yondah?"

"Mah goodness! We has to git up at fo' o'clock in de mawnin' an' gather in de stahs; den we has to haul in de moon and hang out de sun. Den we has ter roll de clouds aroun' all day long."

"But how comes it yo' has ter work so hard?"

"Well, to tell de truf, Rastus we's kind o' short o' help up here."

Some women dress to please men and some to worry other women.

And what has become of the old-fashioned man who used to butter his cake?

had lived largely on soup and coffee.

The cry of the Belgians today is for food and clothing and those who would help, no matter how little, should send their contributions to their committee, or direct to the Central Committee, Belgian Relief Fund, 59 St. Peter street, Montreal.

Thought It Was a Boil Doctor Said Abscess

Mr. Gleason R. Young, Kingscroft, N.B., under date of February 9th, 1918 writes us as follows: "About five months ago, a lump came on my jaw-bone. I thought it was a boil, and after it had been there quite a while it began to get larger. I went to a doctor and he said it was an abscess, and lanced it. He gave me a wash for it, so I went by his directions until it healed up, but it commenced coming again, and in about three weeks it broke itself. I thought it would get better, but it didn't. A neighbor advised me to get a bottle of Burdock Blood Bitters, so I sent and got a bottle, and by the time it was all gone, the abscess had disappeared, and now it is all better."

Burdock Blood Bitters will heal and dry up sores, ulcers, and abscesses, no matter how large or of how long standing. If you have never applied it to a cut, wound, sore or ulcer, just try it and see what soothing, healing, cleansing power it possesses. It takes out itching, stinging and burning, and promotes the growth of healthy flesh. So, too, when taken internally, by its power of eliminating all impurities from the blood and making that vital fluid rich, red and pure, it cuts off the origin and source of the foul matter that goes to make boils, pimples, sores, ulcers, abscesses and the like, and at the same time the purified and enriched blood creates healthy tissue where there was formerly, perhaps a sore full of pus.

Burdock Blood Bitters has been on the market for 40 years. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

War to Peace

Training the Invalided Soldier

WHEN the first Canadian casualties were announced every heart in Canada thrilled with the thought—"What will the country do to help these men overcome the handicaps they have suffered?"

Since that day Canada has been quietly developing a wonderful organization to help restore the strength and earning capacity of her invalided soldiers.

This work is in the charge of the Department of Soldiers' Civil Re-Establishment. It is divided into three classes.

Ward Occupations.

Soldiers who, on account of their injuries, are confined to wards or to their beds in hospitals are taught handicraft work of various kinds. This work is not meant to train a man in work by which he could earn a living. It is encouraged rather because it diverts the soldier's mind from his disability, and gives him light exercise. In this way it assists wonderfully in the soldier's recovery.

Occupational Therapy.

This work is conducted in hospitals. It is intended mainly to help in the cure of the patient. But it often serves as the ground-work for a course in Industrial Re-training. The following gives some idea of the breadth and scope of the subjects taught in these classes:—Mechanical drawing, woodworking, boot and shoe repairing, machine shop practice, gardening, poultry raising, civil service instruction, book-keeping, stenography, telegraphy.

Industrial Re-Training.

When a man is so injured by war service that he cannot follow the occupation or trade that he worked at before

enlisting, the Department trains him for a new occupation.

For this work, use is made of Technical Schools and Universities at fourteen centres throughout the Dominion. Here primary training is given by specially planned courses. This helps a man begin his actual re-training work intelligently.

Most of the re-training is given in actual factories and shops. Hundreds of large and small concerns have co-operated whole-heartedly in this work—placing at the disposal of the Department, without charge, their equipment and the services of many of their staffs.

Ninety-five per cent of those who have been granted "Industrial Re-training" courses by the Department have been successful in becoming self-supporting in a new trade or occupation.

These benefits are given by the Department to ex-members of the Canadian, British and Allied forces living in Canada, who come within the classes for which these benefits are provided.

During the period a man is being "Re-trained" he and his dependents are granted adequate pay and allowances.

To any one interested in the work of this Department information will be gladly given on application to—
