Regina Leader: "The people of the West have every reason to organize to the limit and rise in their might in opposition to Robert Rogers. He has been the worst enemy of Canada, and more particularly of Western Canada, that ever secured a place of influence and power in the public life of this country. Looking over the years that he occupied a position in the government of Manitoba, the people of that province can today partly realize what his ascendancy there meant to them and how the whole political life of that Province was lowered to a plane which made Manitoba a by-word among the provinces. The people there, by painful experience of their own financial problems, know of the results of his reckless administration."

AN OPTIMISTIC OUTLOOK.

Sir Lomer Gouin, Premier of Quebec, is not only one of the ablest men in Canadian public life, but he is a well known student of commercial as well as political economy. He is very optimistic as to the future of Canada and believes it is up to the people of this country to go after big trade.

Asked recently to give his views on the outlook for business in Canada following the conclusion of a treaty of peace, Sir Lomer said:

"Canada has already entered upon a new era of commercial adjustment, so radical and so all-prevailing that we look in vain for the comforting guidance of precedent and experience. The war is over, victory has, like the sudden breaking of a welcomed dawn, revealed to the war-weary a world demanding the adoption and adaptation of altered attitudes and ideals, and above all else, requiring a far better scope for human activities, far wider and greater markets for the products of the soil and factory.

"It is, therefore, time to impress upon the brawn and brains and capital of the world the incalculable undeveloped wealth of Canada, in which the Province of Quebec is included, in her vast acres of fertile land, her vast acres of virgin forest, in her inestimable riches in opportunities for industrial development, and in her store of minerals; her endless opportunities for the worker and investor, the buyer and seller and the manufacturer in every line of business and industry, particularly for those in the war-devastated lands, who are now looking for a market to help them in the reconstruction of their stricken countries.

"There is no doubt but what the captains of Canadian industry are getting ready for the overwhelming rush of trade demands that Canada will be invited to share in, and the Province of Quebec, including the City of Quebec, must organize to meet the world-wide economic conditions created by the titanic war, thanks to divine providence, now concluded."

Wonderful development followed the conclusion of the civil war in the United States, and there is no doubt that Canada has ahead of it in the immediate future the greatest era of prosperity it has ever known in its history. New Brunswick is one of the richest provinces of Canada in national resources and will undoubtedly share in the great boon that is to come. At the end of another decade this province, instead of having 350,000 people, should have at least a round million.

Kansas City Times: Admiral Rodman's recommendation to the House naval committee (which by the way will have no say about it) that the surrendered German war vessels be wrecked, is one that a mere landsman will quite fail to get the bearings of. A battleship, it will appear to most observers, is a battleship, and can be used as such. It is a machine that takes some years to build and costs a pot of money. It was a goodish haul that the Allies made when the bottled and beaten enemy fleet came out with the white flag flying, and to destroy these useful trophies seems only less childish than to give them back.

New York World: Automobiles killed 969 persons in this state last year, as against 858 in 1917. In this city the fatalities were 526, an increase of 109 over the 1917 record. Meanwhile New Jersey motor-car killings

were reduced from 245 in 1917 to 197 in 1918, and this reduction was but part of a regular year-to-year progress toward safety. New York's record in this automobile particular is shocking. The speed maniacs and other reckless drivers are of course responsible for the larger measure of it. They drive directly into tragedy. But beyond the blame resting on them are faults of the laws and of law enforcement.

Satisfaction is expressed by the London Times in an editorial commenting upon the foundations of a "Inter-allied Fellowship of Medicine" which it says will unite more closely British, American and other Allied schools of medicine. Sir William Osler is president of the organization, and Sir Arbuthnot Lane treasurer. Steps will be taken to inaugurate in London post graduate courses in medicine similar to those already established at Paris, for the heads of Dominion and American army medical services. Officers on leave will be enabled to study medicine there according to the plan which has been outlined.

Mr. W. J. Dunlop, B. A., of the faculty of Education, in the University of Toronto, and editor of "The School," one of the best known of Canadian educational publications, has been appointed director of the Schools Section of the National War Savings Committee. He will conduct the work of promoting the War Savings and Thrift Stamps campaign throughout the schools of Canada.

An Ottawa despatch says that parliament has been summoned to meet for the despatch of business on Thursday, February 20th. The necessary order-in-council was passed after consultation by cable with Sir Robert Borden.

THROUGH OUR SIEVE

Mr. Zero is respectively but emphatically requested to stay out West.

Worry gives the undertaker more business than hard work ever did.

One reason why a man's life is so much fuller than a woman's is that he spends nearly three-quarters of it in hunting up things for a woman to do.

All fond relatives believe that the letters received from their soldier folk overseas are worth publishing—and I guess most of them are.

A successful woman is one who can lead a lot of men around in the latest dances without letting them know it, and can lead one man around by the nose without letting him suspect it.

A man has such a naive, irresponsible nature that when you say "It takes two to make a happy home," he thinks you refer to his wife and the cook.

A rookie in France writes that he hopes he will be sent to Archangel, having a desire to sleep through a six months night; but he fears that they would detail him right off for the first night's sentry duty.

PILLS.
MILBURN'S
LAXA-LIVER

Act as a stimulant to the sluggish liver, clean the furred tongue, sweeten the foul, obnoxious breath, and clear away all the poisonous accumulations from the system by causing the bowels to move regularly and naturally every day, thus preventing as well as curing constipation, sick headaches, bilious headaches, water brash, heartburn, and all diseases arising from a lazy slow or torpid liver.

They are purely vegetable, small and easy to take, and there is nothing of the griping, weakening and sickening effects of the old fashioned purgatives.

Mrs. John Kadey, Chipman, N. B., writes: "I have been using Milburn's Laxa-Liver Pills for some time and can recommend them to anyone suffering from heartburn and liver trouble. I tried other remedies, but they only relieved me for a short time. I always recommend Laxa-Liver Pills to all sufferers, as I think they are a valuable remedy."

When you go to your dealer and ask for Laxa-Liver Pills, see that you get the genuine "Milburn's." Price 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The first game of the series will take place next Monday evening. Considerable interest has been aroused in the Bowling league this season and a very interesting series of games is looked for.

The choir of the Methodist Church held a very enjoyable drive to Penniac last evening. The party which consisted of about twenty drove to the home of Mr. W. H. Allen where they were very hospitably received and everything possible was done to ensure their enjoyment. Mrs. Chas. Bubar, Mrs. Minnie Wade, and Mrs. George Allen assisted with refreshments and after a thoroughly enjoyable evening during which games, music and other diversions were participated in the gathering dispersed after expressing thanks to their host and his assistants for the efforts which had been exerted for their comfort.

A number of young ladies of the Main Street Baptist Sunday School held a meeting at the parsonage recently and formed a Young Ladies' Missionary Circle. The following officers were chosen for the current term: President Miss Frances Logan, Vice-President Miss Geraldine Reid, Secretary Treasurer Miss Edna Gilmore, Supt. Mrs. J. B. Daggett. A meeting of the organization will take place Wednesday evening at the home of Miss Geraldine Reid.
