NEW BRUNSWICK CARRYING ON.

No province of Canada held its end up better during the great war than did New Brunswick, and it is beginning to look as if this good old province was getting in shape for a very prominent part in the after-the-war development race. Figures recently made public by the Dominion Bureau of Statistics show that New Brunswick had made a substantial increase during the year in the number of live stock. It was shown that the province now has more horses, cattle, sheep, swine and poultry than in 1918, which is a pretty good indication that the farmers of the province are doing their bit in the work of development. Further evidence of this is found in figures recently made public by the Minister of Agriculture, showing most gratifying increase in the output of dairy products. While agriculture is the basic industry of New Brunswick, lumbering is not far behind and the remarkable activity being displayed in connection with this great industry at the present time must be very gratifying to those who have the interests of the province at heart. Lumbermen are taking hold this winter as they have not done for many years and if conditions continue favorable the output promises to be one of the greatest on record. Thousands of men are being steadily employed at high wages and if the present high price of lumber and lumber products continues, the operators stand to reap a handsome reward for their enterprise. The activity in the lumbering industry extends from the Restibouche, on the north, to the St. Croix, in the south-west, and all classes of people are being benefited from the boom.

New Brunswick is now better served with railways than ever before in its history. The International on the north has not only done much for the development of the lumbering industry, but has brought many new settlers into the province. The Transcontinental, extending from Moncton to Edmundston intersects a rich lumbering country and is rapidly building up a large freight traffic. By means of the road lumbermen who operate on the Southwest Miramichi, Cain's River, and other streams in the central part of the province are enabled to get their supplies into camp at much less cost than was the case in the old days. The Valley Railway, now in operation from Centreville to St. John, is proving a great boon to both lumbermen and farmers and is certain to play an important part in the future development of a most fertile district of the province.

With lumber and farm products selling at record breaking prices, there is not much wonder that a feeling of optimism prevails throughout New Brunswick. Prosperity abounds at the present time in all lines of activity and the outlook for the future is exceedingly bright.

It is rumored in St. John and Ottawa that Hon. J. B. M. Baxter, ex-Attorney General may join the Federal cabinet as the successor of Hon. F. B. Carvell. Mr. Baxter, accompanied by General McLean, M. P., and Senator Thorne, left for Ottawa on Saturday, and an announcement is expected in the course of a few days. The vacant portfolio was offered to Sir Douglas Hazen and declined but it is said that he strongly urged the claims of Mr. Baxter. It is said that Mr. Baxter will consult with Premier Borden and will then return to St. John to consult his friends. Mr. Baxter is a man of recognized ability, who has fought and bled for his party. His appointment would undoubtedly give satisfaction to many Conservatives in this province. He would no doubt welcome an opportunity to escape from his present political environment.

The Inter-church Forward Movement, launched some time ago, seems to be taking hold. All of the great Protestant denominations of Canada are behind the movement, and will in a few days launch a newspaper advertising campaign which will extend from ocean to ocean. The leaders of the movement are determined that the church will take its proper place in reconstruction and after-the-war de-

HEART SO BAD

Was Not Safe to Leave Her Alone.

Miss Eva P. Yatsman, Krugersdorf, Ont., writes: "I feel that I must write, and tell you of the great benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, wherever I was, that it was not safe to leave me alone at any time. At last I decided to resort to proprietary medicines and took several different kinds, but seemed to receive but little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will find relief."

velopment. They have found that the work of the church has been hampered by materialism and worldliness and believe that the time has arrived when energetic measures should be taken to lead the people into the path of right. The Inter-church Forward Movement deserves to succeed.

A Woodstock correspondent says that the United Farmers of Carleton at their approaching convention will nominate a ticket composed of two Conservatives and one Liberal for the provincial parliament. If it is the policy of the U. F. O. to cut loose from the old parties, why should they select Liberal and Conservative candidates?

THE COMMERCIAL CLUB

To the Editor of the Mail:

Dear Sir—I see by the press that a Commercial Club is to be started in this city. As the work this Club proposes to do is already covered by the Board of Trade and Retail Merchant's Association, I am unable to see the need of this Club. Why do not the promoters of the proposed club join one of the present organizations and take an active part in their work? It has been the writer's experience that the more organizations the less work accomplished.

In interesting political rumors were set afloat by the departure on Saturday of Senator Thorne, J. B. M. Baxter, K. C., and Brigadier General McLean for Ottawa. The story about town was that inasmuch as Sir Douglas Hazen had definitely announced he was not going into the cabinet, the plan was to have Mr. Baxter enter the government as the minister for New Brunswick. No one seemed to know whether or not Sir Robert Borden had definitely offered the position to Mr. Baxter or what portfolio was in view.

Money in Fur

New Brunswick guides, having got through with the hunting season are now busily engaged in trapping fur. Record breaking prices now prevail and the guides stand to reap quite a harvest. Mr. Adam Moore of Scotch Lake has engaged the services of a professional trapper and it is said that since the trapping season began he has gathered in furs to the value of \$1500.

Preached on Unity

At St. Dunstan's Church Sunday the pastor Rev. F. L. Carney preached upon unity and emphasized the fact that the Roman Catholic Church in all parts of the world in its services presented a unity which easily was discerned. Pursuing his theme the preacher dwelt upon the necessity for unity in the community and the family and expressed regret that on occasion such spirit did not exist.
