NAVIGABLE WATERS PROTECTION ACT.
R. S. C., CHAPTER 115

The New Brunswick Provincial Department of Public Works hereby gives notice that it has, under Section 7 of the said Act, deposited with the Minister of Public Works at Ottawa and in the District Registrar of the Land Registry District of Sunbury County, New Brunswick, at Oromocto, Sunbury County, N. B., a description of the site and the plans for the proposed new

MORROW BRIDGE,
Over Oromocto River, Parishes of Burton and Lincoln, Sunbury County, N. B.,

And take notice, that after the expiration of one month from the date of the first publication of this notice, the New Brunswick Provincial Department of Public Works will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans, and for leave to construct the said bridge.

Dated at Fredericton, N. B., this 3rd day of January, 1919.
P. J. VENIOT,
Minister of Public Works,
Province of New Brunswick.

WHAT DID SHE MEAN?
A doctor said to his wife: "You see, dear, I have pulled the patient through after all; a very critical case, I can tell you."
"Yes, dear, you are so clever in your profession. Ah, if I had only known you five years earlier! I feel certain my first husband—poor Robert—would have been saved."

WHY BELGIANS STILL NEED HELP

"In travelling through Belgium with the Belgian armies, I have been able to see the country recently tenanted by the Bochs in the condition in which they left it, and never was there such desolation anywhere. One cannot get away from signs of destruction, no matter where one goes, along the country roads or in the city streets.
Not only has property been destroyed and every means of livelihood taken away from the people, but the peasants, especially in the country districts, have been left destitute both of home and food. We travelled twelve miles yesterday through open country and as but one small instance of the vast plundering of the Germans, let me state that in all twelve miles not one solitary live animal did we see, and practically every tree had been felled, so you can imagine the dreary aspect of the scenery.
All the peasant women and children we met on our way, said a news correspondent, while they greeted us with cheers and received us into their homes with open arms, those that had homes, showed the greatest suffering from insufficient food and nourishment. They did not complain, but merely stated as a fact that they had not tasted meat for two months and had lived largely on soup and coffee.
The cry of the Belgians today is for food and clothing and those who would help, no matter how little, should send their contributions to their committee, or direct to the Central Committee, Belgian Relief Fund 59 St. Peter street, Montreal.

RULES FOR THE AVOIDANCE OF INFLUENZA AND CARE OF THE SICK

1. Live as much as possible in the open air, and have houses well ventilated. Admit all the sunlight possible.
2. Avoid all indoor assemblies, and travel as infrequently as possible.
3. If the disease appears in the family, put the patient at once to bed, preferably in an upper room, well aired, but so that the patient be not in a draft.
4. Keep patient by himself, permitting only the nursing attendant, the doctor and the clergyman to see him.
5. Have whoever enters the room to wear a mask of simple gauze over the mouth and nose. The same gauze should not be used for more than two hours, and then burned.
6. Insist upon the patient using a handkerchief to cover coughing or sneezing (paper ones will do); these should be burned at once after use.
7. Do not permit patient to mingle with his family or the public until all fever is gone, and until all discharges from mouth, nose and throat have dried up.
8. Patient, after recovery, should take particular care to avoid exposure to chills and dampness, as pneumonia is quite frequent under these circumstances and constitutes the gravest danger connected with the disease. Remain in house three or four days after feeling well, as this is a critical period after recovery.
9. Call a doctor upon the occurrence

of suspicious symptoms as unusual backache, headache, chills followed by fever, etc., as it is dangerous to depend upon household treatment in this disease.
10. Do not be over-anxious. That is do not worry respecting the danger of contracting the disease. Such worry renders one more liable to contract it. Follow the above preventive measures and the advice of the physician.
11. If, in the family affected, there be no suitable provision for proper isolation of the patient, it is strongly recommended that he be removed to some hospital, or other place temporarily established, for the proper isolation and care of those affected.

HARVEY NEWS 30 YEARS AGO

(St. Croix Courier.)
The events of the past week in this locality have not been remarkable. here was the capture of another bear, this time on the northern shore of Cranberry or Harvey Lake, by John Pass. We had seizing officer Davis from Brockway; we also had E. C. Freeze from Fredericton, looking after the adjustment of weights and measures, which is no more needed than the inspection of schools, the inspection of post offices, the inspection of hides or the inspection of Scott Act, particularly in country places. If a trader is inclined to give short weight or measure, can the inspection of weights and measures prevent? or would an inspection prevent a dishonest trader from tampering with the scales or measures the moment the inspector leaves? Why not have an inspector over all these inspectors to see that the public money is not squandered upon them?
We had a visit from Mr. Vickery, who is back for a time from Dakota, and who is trying to earn an honest penny. He sold a seventy dollar seal-skin coat to one party at a reduction, and valuable articles of fur to others very cheap.
We had a heavy rain storm Tues-

HEART PALPITATED COULD COUNT EVERY BEAT.

When the heart begins to palpitate it will beat fast for several seconds, then slow, then start to flutter, and a feeling of utter depression will come over your whole system, accompanied by weak, fainting and dizzy spells.
When the heart gets into this condition, you become weak, worn and miserable, and are unable to attend to either social, business or household duties.

Milburn's Heart and Nerve Pills will give prompt and permanent relief to all sufferers from any heart weakness or nerve derangements.

Mrs. Walter Grieves, Apsley, Ont., writes:—"I had been run down, and doctors told me I was anemic, but did not help me with their medicines. I could not sleep nights, my heart palpitated so, and I could count every beat."

I used to have such dizzy spells I would have to go to bed. I was not able to do any work for eight months. A cousin of mine had taken Milburn's Heart and Nerve Pills and told me what they had done for her. I took eight boxes of them, and now I am able to help every day with the work I am so thankful to tell others what they have done for me, so that they may try this great and wonderful remedy. I hope this may prove good to some one who is suffering the way I did."

Milburn's Heart and Nerve Pills, are 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

HIGH PRICE FOR ROOSTER

New York, Jan. 24.—The housewife who grumbles at paying 50c. a pound for a broiler should have been at the poultry show at Madison Sq. Garden yesterday, when a rooster brought almost \$100 a pound. Geo. B. Ferris, of Grand Rapids, Mich., bought the winning single comb white leghorn cock from M. F. Delano, of Vineyard Haven, Mass. This bird is to head an exhibition pen which will be shown over the western circuit. The bird comes from a long line of winners, and it was rumored that the Western fancier was willing to pay much more.

day and a large consignment of frozen herring from St. Andrews, the first of the season.

PROVINCIAL POULTRY SHOW
