

A NUMBER OF DISEASES TRANSMITTED

(Continued from page Two)

and tidiness are the main-stays of safety.

Starve Them Out.

The problem of extinction is not nearly so simple or easy in the case of warehouses, shops, food factories, and, perhaps large hotels and boarding houses. In the latter two, however it is quite possible, with a little extra trouble and oversight to live altogether up to the principle readily obtainable in private houses, that is

say, the absolute withholding of food from the animal.

It must be admitted that this principle is not practicable in the case of ware houses, shops and so forth. In these cases the only thing to do is to make the building rat-proof. To accomplish this it is necessary to surround the foundation walls of the building to a depth of at least two feet with a shield of some material through which rats cannot gnaw.

Such material, it must be allowed is not so easy to name as at first sight would appear. Rats have performed astonishing feats as gnawing their way through obstructions. As is well-known lead water-pipes present little difficulties to them when in want of a drink, and well-substantiated but almost incredible tales are told of the animal

making his way, by means of his teeth through slate, solid concrete and vitrified brick.

Still these latter are probably rare exceptions, accomplished under exceedingly favorable circumstances, and must not, in the writer's opinion, be taken as practical reasons for the rejection of such material in rat-proofing. Rats rarely burrow deeper than from six inches to a foot, so that a depth of roofing two feet below the ground level should be fairly sufficient under ordinary circumstances.

Detailed information respecting the habits, natural history, the control and the extermination of these most dangerous and disgusting animals will be cheerfully furnished by the Department of Health, Fredericton, upon request.

WELL SATISFIED WITH BABY'S OWN TABLETS

Mrs. A. Berard, La Presentation Que. writes:—"I have used Baby's Own Tablets for my baby and am well satisfied with them. I have recommended them to several of my friends who have also used them with beneficial results." The Tablets are a mild but thorough laxative which regulate the stomach and bowels and thus prove of benefit in cases of indigestion, constipation, colic, colds, etc. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A woman seldom attempts to jolly her son by telling him that he is the very image of his father.

It is easy to understand why a little learning is a dangerous thing when you meet a man who thinks he knows it all.

The Soul of a Vision

So then—
My part is ended. Other men,
And women, too, still play their part,
With courage resolute and dauntless heart.

My broken comrade—
Seared by scars that time can not efface,
Is not the jest of fortune; for his aid
A nation's mighty forces doth provide.

And those who live—
To carry on our story down the years,
Face not their "quiet days" in bitter pain;
(Forgotten, now they've stilled the nation's fears)
Dwarfed by the lust of pride and selfish gain.

My Canada—
Thou fair land for whom great love
Inspired my youth to ancient sacrifice;
Grant that our serried ranks in realms above
May witness bear thee, worthy of the Price.

To Pay Debts of Honour

TO the Dead and to the richness of their dying, we must give pause, and in humility confess a debt beyond redemption.

Before the altar of their sacrifice, Canada is consecrated to make its dominion worthy. The Torch that illumines Victory so dearly bought, must burn eternally. Each year of peace must record an added lustre to our heritage.

But to those who have come back in suffering, Canada owes a debt which money can, in part, repay.

It is a Debt of Honour. Canada was pledged to the end, that the wounded and the sick be adequately cared for, until they were fairly fitted for the competitive existence of civil life.

For this purpose, our medical services, and our vocational training schools must be maintained until the need for them is no more.

These, then, are some of the purposes for which the Victory Loan 1919 is being raised. Other purposes are told about in other announcements.

As you read them, the conviction will grow upon you of the absolute necessity for the

Victory Loan 1919

Issued by Canada's Victory Loan Committee
in co-operation with the Minister of Finance
of the Dominion of Canada.
