WILL PRINCE OF WALES  
CHOOSE AMERICAN BRIDE

Speculation on the Subject is Rife in the United States—Uncle Sam's Girls Have Not Given Up Hope, Despite the Rumored Engagement of the Prince to a Daughter of the Duke of Devonshire, Governor General of the Dominion.

Boston, Sept. 22—Despite the rumor of the possibility of an engagement of the Prince of Wales to a daughter of the Duke of Devonshire, Uncle Sam has not given up hope that he will capture the prince for one of his fair daughters. The Boston Transcript, which has had a correspondent "sizing up" the prince in Canada, publishes the following speculation on the subject:

"There is still much speculation as to the possibility of the Prince of Wales taking unto himself a bride in the United States. With a certain class of Canadians and Englishmen such a match would not be popular. An American Queen of England does not fit in with their ideas at all but by a great portion of the population a marriage between the prospective king of England and an American girl would appeal as a tremendously spectacular event of far-reaching importance, not in any possibilities of formal alliance, but in the cementing of the friendship of the nations.

Like everybody else the Transcript's correspondent has been greatly impressed by the prince's personality, for he writes:

"Canadians after seeing the Prince of Wales for themselves are looking forward with keen interest to his forthcoming visit to the United States which is to take place at the conclusion of his Canadian tour at the end of October. It is freely predicted that he will make a hit, and that his associations with Americans will have a considerable influence in still further improving the relations between the two great branches of the Anglo-Saxon family. These opinions are based on first hand observations of the prince in action.

"His Royal Highness is, of course, hedged around by protectors and advisers, at the head of the list being Admiral Halsey, a middle-aged man with the spirits of a boy, who rarely lets the prince out of his sight and follows him with the pride and affection of a father. No doubt many of the incidents in the prince's tour are suggested by these advisers, whose role is not unlike that of a manager for any famous celebrity. They have however, been doing their job well. Up to the present no single false note has been struck, and the democratic attitude of the prince towards his people has been played up and emphasized on every occasion.

"Nevertheless, it is quite obvious the prince does not hesitate to take the bit into his own teeth and when he does his own self appear in quite attractive light. His real personal interest in the persons and events about him and nervousness as he approaches critical points in the day's proceedings are very human, and are things which have been endearing him to the Canadian people.

He has also shown himself to be much more than merely a nice boy. On various occasions he has spoken to large audiences extemporaneously sometimes making a sustained effort in quite precise English, and even on

one occasion he has disregarded the formal official address which has been prepared for him to read and has spoken from the heart. In these respects he has been acquitting himself in a way which few youths of twenty-five can equal."

## CHILDHOOD CONSTIPATION.

Constipated children can find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative, which never fail to regulate the bowels and stomach thus driving out constipation and indigestion; colds and simple fevers. They quickly relieved him and now he is in the best of health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A bronze mercantile marine war medal in addition, will be given men of the classes named who served at sea at least one voyage through a danger zone.

Come on, World, get busy and produce something. This country is tired of "divvying up" with you.

MONTHS IN  
WHICH SMARTEST  
ARE BORN

London, Sept. 26.—Men born between January 1st and March 31st are stronger, taller and superior in intelligence to those whose birthdays fall in other months, according to researches completed by Dr. Marcello Boldini, one of Italy's greatest scientists. This view is also borne out by the researches of another Italian scientist, Dr. Rovere, who found that the proportion of children of inferior intelligence is lowest among those born in January and February and highest in August and September.

## TACT.

"Would you marry a man for his money?"

"Well, I can't say positively; but if I were to I should take good care not to let him know that was the reason."

Don't tell a woman you are willing it is deplorable, but a girl can get her first kiss but once.
