# VALEDICTORY AT THE HIGH SCHOOL CLOSING LAST NIGHT

Important Suggestions Made by Leo Cain, Valedictorian, Including School Gymnasium and Alumnae and Alumni Associations—History of Class of 1919 Reviewed.

Leo Cain Valedictorian of 1919 of the Fredericton High School delivered the following valedictory at the closing exercises of that school last night:

There is a word of grief, a sounding token,

A word beguiled with bright tears,  
The saddest word fond lips have ever spoken,

A little word that breaks the chain of years.

Its utterance must ever bring emotion  
The memories it kindles cannot die,  
'Tis known on every land, on every ocean,

'Tis called—Good Bye.

These are the words which ring in our ears and are echoed and reechoed in the inmost chambers of our hearts as we, the class of '19 assemble for the last time in these historic halls of the Fredericton High School. The last three years of our lives have rendered these halls and all associations with them, forever sacred in our memory, and although there is pervading among us here tonight a feeling of happiness and joy, yet we assure you that beneath it all there is the sad realization that tonight we sever our last fond ties with the F. H. S.

It is the parting of the ways for the most of us. Some will advance to the dignity of the U. N. B., others to other institutions of learning throughout the province, while yet others will now commence their life work in the sphere for which they have fitted and appointed themselves, but we, as a body, will never again meet on the happy carefree grounds upon which we have so happily mingled for the past three years. On this, our last night together, we feel that a brief review of these years forever linked and associated with this institution would not be amiss.

### Early History

In August of 1916, we first entered the F. H. S. as students, a class of eighty odd pupils. The awe and wonder of the change from the Common Schools to the High School gradually wore off, and we shortly found ourselves settled down to our new field of work. We adapted ourselves to the new rules and regulations governing this institution and all, or at least the boys, looked eagerly forward to the sports. The football team of our first year was although not up to the old standard, a fast well trained team greatly handicapped at the start by the loss of our ablest players. But we did not begrudge them for they were called to take part in a greater game with a higher, more noble goal, than the twin sticks of the gridiron. In hockey practically the same conditions existed and though we put up a game struggle we did not win the league. The rest of our first year passed quickly and pleasantly enough to us all and June and our examinations were soon at hand. On closing night 24 students of the school we witnessed our first graduation. To us, at that time, our graduation seemed a very far distant event indeed, but time waits for no one and we were no exception.

### Second Year

We came back in the autumn to begin our second year; we do not say we were glad to come, but since we know it was necessary, we were glad that it was the F. H. S. to which we were returning. Looking around we missed the familiar faces of our friends who had graduated, but we welcomed heartily the new class just entering, the future class of 1920. This second year was marred almost at the beginning by the sad fatality which occurred at Rothesay and which robbed this school of one of its finest and

noblest boys and, we are sure, of a very distinguished graduate. His memory will, we trust, ever remain green at F. H. S. Another happy winter and joyous spring and then June were near at hand, when another class of students went forth to carve their initials and the script F.H.S. on the topmost pinnacles of fame. Then perhaps for the first time we realized that within one short year we too would be called upon to render an account for our stewardship at F. H. S.

### Senior Year

Our last year has come and gone; greatly broken up by the enforced vacation, caused by the influenza. Nevertheless, we wish you to understand that although we have been at a very great disadvantage and handicapped, the class of '19 is in no way inferior to any class which has ever passed out from these walls. Tonight our dreams of graduation are realized, in the words of the poet:

"Upon the mountain tops of Hope we stand,

Below the valleys of Decision roll,  
Beyond the vales by Freedom's breezes fanned,

We glimpse the peaks of truth that are our goal."

And passing in review we feel certain that this class has not been lacking in the fealty and esprit de corps, that has characterized other classes of this institution. The call to arms has not been unheeded by us, and out of our number we have representing us in khaki five stalwarts who heard and cheerfully answered the call of the Hallowed dead: "To you from falling hands we throw the torch. Be yours to hold it high." Fortunately they have been spared and we welcome them back, as those who have gone down into the Valley of Shadows and returned.

### Suggestions

But in making our exit we feel that there are some important suggestions which we advance for the deliberation of those concerned, and for the further renown and glory of the yellow and black. All will admit that from a purely mental educational standpoint this High School is equal if not superior to any institution of its kind in the province, or indeed in Canada. None of us would like to admit anything to the contrary; yet why is it that a trained observer is able to tell at a glance at the physique of the students that there is no gymnasium in connection with this school. This is a long felt want and more than that a necessity if the students of the F. H. S. are to rank as the physical equals of the high school students of other places. Great authorities everywhere maintain that to obtain the highest mental capacity, first the greatest physical proficiency is required. We dwell but briefly upon this subject as it has been discussed again and again but we urge that prompt and decided action be taken, and we feel that no stronger argument could be put forward to support our claim than that an expert has found the students of F. H. S., of a lower physical standard than the students of those institutions which have in their connections gymnasias.

### Graduate Societies

Another suggestion we make is in regard to the founding of a High School Alumnus and Alumna Society. Other High Schools have them and as a result bind their graduates together in close loyalty for and interest in these institutions. Much good work could be accomplished for the betterment of the School by them, and their meetings would be in general a revival of the old days together at F. H. S.

### Final Words

And now a few last words of farewell before we cast loose the ties that bind us to the F. H. S. and push off into the sea of the Unknown Future. To you, our teachers, and our true friends, the class of '19 extends its most sincere and most heart-felt gratitude for the efforts which so unceasingly and so unselfishly you have put forth to make us better fitted to assume our places as citizens of Canada. We are sure that under your instruction and supervision we have been taught the basal principle upon which rests the noblest type of manhood. While at times in our career at the F. H. S. we may have seemed insincere and troublesome yet we assure you that on looking back we
