

Children Cry for Fletcher's

## CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Charles H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

*Charles H. Fletcher*

Sports silk in the heavy materials are seen in the shops. The most popular sports costume of late is a skirt of white silk jersey worn with a bright colored waist.

## OF INTEREST TO WOMEN

## CLEANING CLOSET.

A good many houses are planned with never a thought for a convenient closet in which to keep brooms, dust pans, brushes and other paraphernalia of cleaning day. This is truly a great mistake; because so long as you don't have a special closet to put these things in you are going to spend a certain amount of time trying to find a convenient place for them somewhere else, for at best they are unwelcome guests in any place not specially planned for them.

So if you are planning a new house or about to remodel an old one remember this—make place for the brooms and brushes and other cleaning things. It will make cleaning day a lot easier and it will keep you from fretting about something that can so easily be put out of the class of things about which you have to fret.

Of course it is nice to have two sets of cleaning things—one upstairs and one downstairs; and then there should be two closets. But with most housewives a double equipment of this sort is out of the question. If you have a chance to select the most convenient place then for the closet have it fairly near the back stairs, if you have a back stairs, so that the broom can easily be got from either upstairs or downstairs.

Plan to have nothing else in the closet but things actually used in cleaning. You probably have always two brooms, a new one for finer work and an older one that you use less carefully. Have in the closet then two broom clamps. They can be bought for about 15 cents apiece and are fastened on the wall with nails and then the broom slips in the metal spring in the holder and is thus kept off the floor of the closet. It is always an inconvenient thing to try to hang brooms up because the strings in the top get worn out and soiled.

For dustpans and dust brushes, however, you should have a row of convenient nails. Sometimes the brushes are provided with metal rings, so that they do not need strings. It is a good idea to have a little shelf placed six inches or a foot from the floor along one side of the closet and on this place cans and bottles of floor oil and other similar supplies. They should not be placed directly on the floor. Do not place cleaning cloths on the floor or on this shelf.

## HOUSEHOLD HINTS.

If a teaspoonful of mutton tallow is added to starch when boiling it will prevent iron from sticking and also give a gloss to clothes.

Cream which is too thin to whip may be made to do so by the addition of an unbeaten white of egg.

Meat should never be put in cold water except in making soup, as cold water draws out the juices.

Flour, meal, powdered sugar and soda should be sifted before measuring. A cupful is measured level; do not shake down.

Delicious sandwich filling is made by running through the meat chopper half of a Spanish onion and one small green pepper. Mix a cream cheese with salt and paprika and add to the chopped mixture to form a paste which should be spread on thin slices of bread.

## WOMEN WILL KEEP WAR JOBS

The number of women who will be thrown out of work by the ending of the war is not so great as is imagined. About one and a half million extra women have been employed in the United Kingdom since July, 1914, but the number of killed and disabled men amounts to about one million. Therefore there remain 500,000 women workers who will be displaced.

Their displacement will come gradually and they will not be thrown on the labor market at once, for one-third of the increase in women's labor consists of dilutes. Until the men come back they will remain at their jobs.

In the mean time many new spheres have sprung up for women. They will continue making tools and machinery they will be employed in subsidiary ship-building industries, they will do their share in the chemical trades; and also, there are two quite new branches of work open to women of the United Kingdom—the manufacture of pianos and toys, both of which in-

## INFLUENZA LEAVES THE BLOOD THIN, THE NERVES WEAK

The Danger from the Disease is Seldom Over When the Acute Stage is Passed—Tonic Treatment Strongly Recommended.

Doctors have agreed that Spanish influenza is really a severe form of the grippe which became known in this country a number of years ago under the French name of "la grippe" and which has been epidemic several times since.

The danger from grippe is seldom over when the characteristic symptoms, the fever, the catarrh, the headache and the depression of spirits pass away. The grippe leaves behind it weakened vital powers, thin blood, impaired digestion and oversensitive nerves—a condition that makes the system an easy prey to pneumonia, bronchitis, rheumatism, nervous prostration and even consumption. Too much stress cannot be laid on the importance of strengthening the blood and nerves during convalescence. Until the blood is built up there can be no complete recovery of strength and health.

## COULD HARDLY CRAWL ABOUT

Among the many victims of la grippe who proclaim the value of Dr. Williams' Pink Pills is Mr. Amos Kaulback, of Petite Riviere, N. S., who says:—I was taken down with a severe attack of la grippe, or influenza. After a time the early symptoms of the trouble left me, but I did not regain my usual strength, and I had always been a strong man. There were times when I felt I could hardly crawl about, and I was so run down I could scarcely go about my business. I continued taking medicine but it did me no good. Then I found the trouble was affecting my digestion and the disagreeable feeling from this added to my general misery. I was finally advised to take Dr. Williams' Pink Pills, and I decided to try them. I had only been taking the pills a few weeks when I found my strength returning, my appetite improved, and still continuing the use of the pills a few weeks more found me restored to my old-time vigor. I can most strongly recommend Dr. Williams' Pink Pills to all who have passed through an attack of influenza, as a safe medicine for renewing their strength."

## REGAINED FLESH AND STRENGTH

To rebuild the blood, to strengthen the weakened nerves and to get back the lost flesh and strength is the problem of the victim of an attack of influenza. How Mr. Charles Darling, of No. 14 Week street, Bath Me., accomplished this is best told in his own words.

"My doctor treated me successfully for the grippe," he says, "but he did not seem to help the after-effects of the disease. I had headaches nearly all the time, my strength was nearly spent and I often had to lie down and rest. I was pale and lost in weight and had a dull, languid feeling most

of the time. My blood was very thin and poor and my stomach troubled me.

"One day I got a box of Dr. Williams' Pink Pills at the drug store and after taking them for about a week I noticed my health was better. My headache was relieved and I was getting stronger. I continued their use and have a better appetite and can eat anything I want. I no longer have that tired feeling, my color is normal and I am gaining in flesh."

Dr. Williams' Pink Pills for Pale People contain just the elements needed to build up the blood and restore the lost color and vitality. New energy circulates through the system with the enriched blood, the heart stops its alarming palpitation, color returns to cheeks and lips. Nothing more is needed except sunlight, good air, proper food and rest.

## WEAK AND RUN DOWN.

Miss Irene Bootes, Portsmouth, Ont., says:—"I take much pleasure in recommending Dr. Williams' Pink Pills, because I have proved their worth in my own case. Last winter I had a severe attack of la grippe and it left me weak and all run down. I had severe pains in the chest and under the arms, palpitation of the heart and attacks of neuralgia which left me with the feeling that life was scarcely worth living. I was taking doctor's medicine, but it did not help me, and I was much discouraged. I was advised to try Dr. Williams' Pink Pills and began their use only on the principle that I would try anything that might better my condition. I had only been using the pills a couple of weeks when the pains began to leave me. Gradually my strength returned, my appetite improved, and in a little more than a month I felt my old-time vigor had returned. I am sincerely

glad I was persuaded to try Dr. Williams' Pink Pills, and I shall always have a good word to say for them."

## HELPED HIM WONDERFULLY.

Following an attack of grippe, Mr. William Fielder, of No. 132 First Street Albany, N. Y., suffered from stomach trouble. He says:

"I was very much run down after having the grippe and lost both in weight and strength. My stomach was often sour and was very weak. A dull aching pain in the back of my head caused me much distress. An article in the paper brought my attention to Dr. Williams' Pink Pills and gave them a trial. Before the first box was finished I felt stronger and kept on with the remedy. I am feeling good, and my stomach is as strong as it ever was. I have gained in weight and strength and no longer suffer from headaches. Dr. Williams' Pink Pills certainly helped me wonderfully and I am glad to recommend them."

## GRIP VICTIMS NEED A TONIC

The debility that invariably follows the grippe is not a disease of any one organ. It is a general condition of unfitness. It must be met by a remedy whose good results will be quickly generalized throughout the entire system. In fact, it must be corrected by building up the blood which, when rich and red, carries renewed health and strength to every part of the body.

Dr. Williams' Pink Pills are a tonic, not a stimulant. They build up the blood and not only cure the disastrous after effects of grippe, but are also a specific for all troubles due to poor blood, such as anemia, rheumatism, indigestion, women's ailments, and the generally worn out feeling that affects so many people. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

## MORAL VALUE OF SONGS TO A PEOPLE

Some wise man once said: "Let me write a people's songs and I care not who writes their laws." It has also been said with truth, "A man is known by the songs he sings." Practically everyone sings or entertains song in his mind, and therefore, practically everyone is influenced more or less by songs.

Hymnology is a vital part of the history of Christianity. The ancient Hebrews were pre-eminently a singing people. The early Christian church was a singing church. Singing is growing to be more and more a vital part of church worship of the individual. It is fitted to be the medium of lasting education, for nothing fixes words in mind as do rhyme, rhythm and melody.

The making of secular and sacred songs has come to be a recognized form of industry, much of whose product must be classed as pot-boilers, written by those who have a fatal facility for rhyme and a bent for sweet and soppy song Church worship is plagued to a marked degree by the introduction of shoddy books.

But troublesome as these poor church songs may be, they are but a drop as compared with the spring freshet of mushy music—"popular" so called—that now flows over the land and makes a mental marsh of the field of song. The writers of many of the rhymes of these songs have majored on the eternal boy-and-girl situation, mauled over in all the simpering variations suggestable to a rag-time mentality; and the composers have

**Wood's Phosphodine.**  
The Great English Remedy.  
Tones and invigorates the whole nervous system, builds new blood in old veins. Cures Nervous Debility, Mental and Brain Worry, Loss of Energy, Fatigue, Headache, Dizziness, Memory. Price \$1 per bottle, six for \$5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. Name printed on wrapper. THE WOOD MEDICINE CO., LONDON, ENGLAND.

industries are being wrested from the hands of the Germans.

The outlook for women is cheerful.

## Discharged Recently

Among the returned soldiers discharged recently at the District Depot is Corp. John Cain of this city. Corp. Cain enlisted in this city with the 36th Field Battery and served in France for some time. He was finally invalided home with trench rheumatism. Corp. Cain is to leave in the near future for St. John where he will be given a course in vulcanizing.

The old reliable remedy for rheumatism, neuralgia, sore throat and sprains.

## Best Liniment Made

"R. A. E. LAUNDY, EDMONTON, writes:—I fell from a building and received what the doctor called a very bad sprained ankle, and told me I was not to walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best liniment made."

Minard's Liniment always gives satisfaction. For any ache or pain it gives instant relief.

Minard's Liniment Co. Limited

Yarmouth, N. S.

clothed it in song scandalously scant in melody. Those who consume this stuff consume much suds for little nutriment.

Wholesome fun and wholesome love may well be embodied in song. They have been for years past and they should be for longer years to come. Much that we now have is already classic and permanent, and will abide when the poor welter of contemporary commercial song shall have been raked up, baled and sent to the paper mill for regrounding. But the evil that the cull music has caused will not be so easily wiped up; for a youth's mind cannot entertain trash and wisdom to a full degree at one and the same time. It would have been better if the singing of this war period had been done with the classic popular songs and hymns already in hand; and only a choice few of the new war songs added to the Nation's repertory.

## AMERICA'S GREATEST OF FUR MARKETS

(From the Baltimore American.)

For more than a century St. Louis has featured as the leading fur-trade market of the United States. Even when St. Louis was just a frontier fort and nothing more as indicated on the maps of 1800, it was an important fur-trade station. The beavers, the buffalos, the bears and even the bobcats have grown fewer and fewer in the region that sent fur to St. Louis for trade and barter a hundred years ago, but still fur dealers from all over the country go to the fur auctions held in the Mississippi Valley metropolis each springtime.

St. Louis accumulates the furs in quantities that score into million-dollar values, but where do they come from? There was a fur auction held last Wednesday—the third day of a continuous auction market of furs, during which three days furs to the value of \$2,300,000 were "knocked down" to the bidders. One of the transfers in the Wednesday sale consisted of the skins of 20,000 "housecats," and these housecat fur went like hotcakes at from ten cents to ninety cents each. The housecat, like the rabbit, is a fur-bearing animal of immense potentialities; and cat fur, like rabbit fur, can be artistically handled and possibly be made to look like ermine. The furs that are annually auctioned at St. Louis seem, however, to be gathered over a wide range—a range that extends to Asia, Africa and Australia. It is mentioned that 80,000 civets (an African animal), and that 118,000 ermines (mostly Russian) were sold on Wednesday.

The older a lamb grows the more sheepish he becomes.

But few men can stand prosperity when it comes.

Somehow the simple fact that a woman married him always seems to convince her husband that she could not attract any other man—and the simple fact that a man married her always seems to make a woman suspect that he is trying to attract every other woman.
