## MODEL CATS.

From a want ad.: For Sale—Two highly-bred cats. Niagara strett; at home evenings.

Thick, Glossy Hair,  
Free From Dandruff

Save your hair! Double its beauty in a few moments—try this!

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily get a small bottle of Knowlton's Danderine at any drug store or toilet country; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

JACK BRITTON  
WON BY K. O.

Canton, Ohio, March 17—Jack Britton, of New York, tonight knocked out Ted Lewis, welterweight champion of the world, in the ninth round of a scheduled 12 round bout here.

## MOVIE QUESTIONS

What Would the Villain Do Without

- A mustache to twine,
- A cigarette to light,
- A pistol to flourish,
- A glass of liquor,
- A hero to fight?

Would an Ingenue Be One Without

- Curls an da baby stare,
- Someone to fall in love with?
- Could a Vampire Vamp Without—
- A form-fitting gown,
- Long jet earrings,
- An elaborate negligee,
- A couch on which to recline?

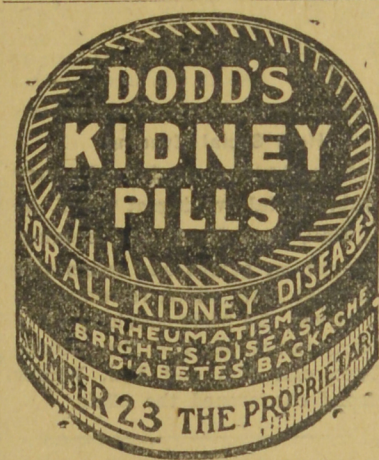

Is He a Hero Without—

- A girl to rescue,
- A villain to foil,
- A fortune to make,
- A heroine to marry

Making a great sacrifice?

Moths have great admiration for the tender sentiment which prompts a woman to fold away clothes rather than let the poor wear them.

If the human race had studied the weather as much as it has cursed the weather without thinking, in all these thousands of years, some plan might have been evolved to change it.

A BILL TO AMEND THE  
HIGHWAY ACT OF 1918

Election of Road Supervisors to be Suspended for a Time—

Change is Made in Order to Meet Changed Conditions Because of the Proposed Federal Grant to Highways—A Section of the Act to be Repealed.

Following is the full text of the bill to amend the Highway Act, 1918, now before the Legislature:

Whereas, the Parliament of Canada, at its present session, proposes to grant aid to the several provinces of the Dominion for the construction and maintenance of trunk highway roads;

And Whereas the proportion of the proposed aid to be granted to the Province of New Brunswick will be required to be expended under the direct control and supervision of the Department of Public Works of the said Province;

And Whereas a considerable mileage of roads now included in the Branch Road Divisions under the said Highway Act may be classified as secondary trunk roads, upon which part of the money received under the authority of the Act of the Parliament of Canada may properly be expended;

And Whereas, under the provisions of the said Highway Act, 1918, the expenditure of money on roads included in Branch Road Divisions is under the supervision of the supervisors elected by qualified ratepayers, and is not under the direct supervision of the Department of Public Works;

1. The provisions of sections 6, 7 and 8 of the Act 8 Geo. V., Chapter 8, being "The Highway Act, 1918," so far as the same provide for or relate to the election of Branch Road Supervisors by the duly qualified electors of each Branch Road Division, are hereby suspended until such time as the suspension shall be removed by order of the Lieutenant-Governor-in-Council, and during the time of such suspension all road supervisors shall be appointed by the Minister of Public Works, and all the provisions of the said Act relating to the duties to be performed by, and all powers vested in, Branch Road Supervisors, to have been elected under said suspended sections, shall apply to and be performed by supervisors appointed by the Minister of Public Works, and for all the purposes of this Act the supervisors so appointed shall be substituted for the supervisors to have been elected under said suspended sections during the suspension hereinbefore provided for.

2. The meeting of qualified ratepayers to be called by the Minister of Public Works shall be held on the third Monday in the month of April, 1919, and on the third Monday in the month of April in every year thereafter; provided, however, that during the suspension provided for by the preceding section, such meeting shall only be called for and shall decide by resolution only whether or not labor shall be performed in lieu of money payment for taxes; and further provided, that if, for any cause, the qualified ratepayers of any division shall fail to assemble on the day appointed, or shall fail to decide the question of the performance of statute labor, the performance of statute labor may be permitted in any division.

(1) Nothing in this Act shall prevent the ratepayers of any road division, at any regular meeting thereof, from making an order to carry out the provisions of sub-section (6) of section 37 of "The Highway Act, 1918."

3. Sub-section (6) of section 19 is hereby repealed and the following is substituted in lieu thereof:

(6) The Secretary-Treasurer of each municipality shall, not later than the tenth day of each month, forward to the Provincial Secretary-Treasurer all moneys received by him for road taxes from the collectors of rates.

4. Section 34 is hereby repealed, and the following is substituted in lieu thereof:

"34. Such roads shall be laid out not more than twenty-four feet in width, and the person applying for the same, with his servants, employees, teams and sleds, shall have a right of way over said road only from the date on which said road is laid out to the tenth day of April following the date of laying out such road; provided, that the said applicant shall not enter upon the use of the said road until the payment of damages, if any, and the owner or owners of the land over which the said road is laid out may close up the same against the applicant during the remaining portion of the year."

5. No log hauler, traction engine, propelled by steam or otherwise, used in drawing heavily loaded sledges, carts, drags or vans, shall be operated upon any of the highways of the province unless the owner or owners shall have first secured a written permit from the supervisor of the road division in which such log hauler or traction engine is to be used; and before such permit shall be granted by such supervisor the owner or owners of said log hauler or traction engine shall deposit with said supervisor a good and sufficient bond to the Minister of Public Works and his successors in office, in an amount satisfactory to said supervisor, conditioned to reimburse the Province of New Brunswick for any expenses necessarily incurred in repairing all damages to the said highway caused by the use of such log hauler, traction engine or other motor thereon.

6. Any person operating any log hauler or traction engine on any highway, without first obtaining the permit provided for in the preceding section, or without depositing the bond as required by the said section, shall be liable to a penalty for each offence of not less than ten dollars and not more than fifty dollars, to be recovered under the Summary Convictions Act, Chapter 123, Consolidated Statutes, 1903. Such penalties, when recovered, shall be paid to the County Treasurer and credited to the road fund of the parish in which the offence was committed.

7. The Lieutenant-Governor-in-Council is hereby authorized to pay such remuneration to secretaries or secretary-treasurers of the several municipalities, for services under the Highway Act, 1918, and amending Acts, as in the opinion of the Lieutenant-Governor-in-Council may be reasonable. Such remuneration to be paid out of the County Tax Fund.

ALMOST BLIND  
FROM HEADACHES

It is hard to struggle along with a head that aches and pains all the time. Headache seems habitual with many people; indeed, some are seldom, if ever, free from it, suffering continually, and wondering why they can get no relief.

In nine cases out of ten, persistent headaches are due to poisoned blood, the blood being rendered impure through some derangement of the stomach, liver or bowels.

The reason Burdock Blood Bitters makes permanent cures of all cases of headache, is because it starts the organs of elimination acting freely, and the poisons and impurities are carried off from the system, purified blood circulates in the brain cells, and instead of pains and aches there is revived mentality and bodily vigor.

Mrs. Geo. Monck, Arden, Ont. writes: "I have been troubled a great deal with sick headaches, and at times would almost go blind, and have to go to bed. I tried different kinds of medicine without any benefit until I was advised to use Burdock Blood Bitters. After taking it, I have not been troubled since."

B. B. B. is a purely vegetable remedy, and has been manufactured for the last forty years by The T. Milburn Co., Limited, Toronto, Ont.

NO HIGH COST  
WORRIES ARCTIC  
EXPLORERS

(Chicago News.)

Far north in the midst of the 1,000,000 mile area known as the "land of inaccessibility" lies the Utopia of the low cost of living. Up there, in those Arctic regions of white silence, meat and fish are plentiful and may be had at a reasonable cost. In fact, all you need is a rifle, a cartridge, a steady hand and—bang! you have 125 pounds of meat—penguin meat or musk-ox—with no butcher to charge you the limit your pocketbook can stand.

Vilhajalmur Stefansson, the famous explorer, told about this Utopia when he arrived in Chicago today. However, it wasn't from a desire to induce Chicagoans to flee from the high cost of living and emigrate to the far north that he told about it. It was merely to upset one more of the pet theories of geographical savants, who claim one cannot live on the products of the arctic.

"All you need is one outfit of clothing and something like twelve rounds of cartridges and you can live in luxury for a year up there," said the explorer. "On most of the islands we discovered there was animal life and nearly everywhere there was life in the waters. We figured 125 pounds of meat to each cartridge. After our clothes were worn out, we clothed ourselves with the skins of seals and of animals. So you see we lived quite cheaply, yet luxuriously."

## War News 2 Years Old.

The Stefansson expedition left America in 1913, and the explorer and his men remained in the arctic for almost five years, returning to New York last October.

"When did you hear about the war?" Mr. Stefansson was asked.

"One year and two weeks after it began" was the reply.

"Didn't you miss your daily papers and all the news of what was going on in the world while you were away up there?"

Mr. Stefansson smiled. "No, I can't say I did. On the contrary, it was quite a relief being so far away from the 'madding crowds.' It was—let me see, how shall I describe it—well, as if you were on a train and weren't continually bothered with the telephone."

## Submarine Would be Valuable.

The explorer then discussed wireless, aeronautics and the latest submarines in arctic exploration work. He said he believed wireless might come in handy on occasions, but there was no actual need for it. The submarine he ranked over the airplane and dirigible as an asset in his work.

"In a submarine it would be possible to penetrate hundreds of miles farther into the arctic regions," he declared. "You can, if necessary, travel 100 miles under water and my experience has taught me that the average ice floe is not more than 25 miles in diameter. The airplane and airship are, from a scientific standpoint, less valuable, because one has little opportunity to make scientific studies from the air."

When Father is awakened suddenly to realize that the baby is crying, he is also wide enough awake to see that mother is up and caring for it.

## Wholesale Dry Goods and Woolens

House Furnishings  
For Everybody
