

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Dr. H. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

Before frying anything in egg, dip the mixture in bread crumbs, then in the egg, then again in the crumbs. One tablespoonful of cold water may be used with the egg to good advantage.

OF INTEREST
TO WOMEN

BARGAIN DAY WISDOM.

Every True Daughter of Eve Likes a
Sure-Enough Bargain.

To say you do not like a bargain, a real, true, sure-enough bargain, is to declare yourself no true daughter of Eve.

Bargains are the great leaveners—they appeal as much to the rich as to the poor, and one's fineness for them depends not upon one's financial need to take advantage of them.

At this time of year there really are amazing bargains, just waiting to be taken advantage of. For instance, reputable houses really do make great reductions in the prices of ready-made dresses, suits and coats.

Sometimes actually the price asked is no more than we would be obliged to spend for the goods contained in the garment. No reputable shop nowadays puts marked down tags on frocks, or suits when such reductions have not been made. The question is, which of these reduced garments are really worth buying and which were it better to leave hanging on the racks for the next buyer.

Now here is what experience should teach the buyer of season-end coats and suits and dresses. First, get that which is becoming, for the really becoming frock is never out of style.

Or at least there are always occasions when the becoming garment can be worn, whether or not it is this season's or last year's. So seek the color that is most favorable to you and avoid the one that is not especially so, no matter how smart you may think it appears.

Get the Moderate Style.

Then in general get the odd and unusual garment. This does not mean the extreme one, but the one that doesn't conform very much to this season's mode. If it is not marked too strikingly with the vintage mark of this year's extreme style, then next year it will not look passe.

And usually there are plenty of these unusual garments, for the very fact that a garment did not conform to the stereotype lines of the season is sometimes a reason why it was not sold. But avoid the extreme. That is, this year avoid the painfully narrow skirt. No one knows what skirt styles are going to do, but if the skirt is scant it cannot be altered. And in general, when you buy season-end bargains do not get the dress or suit that needs altering. Rather get the one that is becoming enough and interesting enough to do service whether or not it is in the first pink of fashion, for often in altering a garment we destroy the very line that the designer has spent her best abilities in achieving.

RANDOM REMINDERS.

Brown sugar is better than white sugar with cereals.

Be sure to have ironing tables of a comfortable height.

Vanilla should not be used to flavor dishes for sick people.

Darn stockings at heels, toes and knees before they are worn.

Potato salad can be carried in a school child's lunch basket.

Cotton the same shade is better to mend gloves with than silk.

Individual oyster pies are delicious and an agreeable change.

A good cover for a hot water bottle is crocheted of white cotton.

In making cake, eggs should have yolks and whites beaten separately.

Earth worms in flower pots can be destroyed by mixing a little pulverized tobacco with the earth in each pot.

A few drops of ammonia in the water in which silver is washed will keep it bright for a long time without cleaning.

USE TWO GALLON SAP PAILS.

In the gathering of maple sap, don't make the mistake of using pails that are too small. If you are getting new pails, get two gallon ones. Then your sap is not so apt to run over on the ground before you get there with the tank. Metal pails and tanks are bet-

Cook's Cotton Root Compound.

HEAVY LOSSES
BY THE HUNS

(Continued from page three.)

nearly 500.

Battleship Derfflinger was so badly damaged that she had to be reconstructed, a large quantity of armor and guns from the unfinished Hindenburg being used for that purpose.

The cruiser Moltke was hit by three large shells and was under repairs until August.

The cruiser Von Der Tann had one turret completely put out of action and another virtually rendered useless.

The light cruiser Elbing was so badly damaged that she was scuttled to prevent her falling into the hands of the British.

The light cruiser Rostek, after being damaged by gunfire, was blown up by her crew to prevent capture.

Only One Survivor.

Light cruiser Wiesbaden was reduced to a complete wreck by gunfire and was finally torpedoed. There was only one survivor of her crew.

The light cruiser Frauenlob was set on fire and wrecked by gunfire and was torpedoed and sunk. Only eight men of her crew survived.

Five destroyers are known to have been sunk, while others had to be towed into port.

A complete record of the British forces engaged in the battle shows 24 Dreadnoughts, eight battle cruisers, eighteen cruisers, eighteen light cruisers and 78 destroyers. The German force included 21 battleships, sixteen cruisers, 77 destroyers. It is clearly established, however, that of the ships which actually came into action the preponderance of force was held by the Germans.

ON THE MARRIAGE DAY

Romance ceases and history begins—and corns begin to go too when "Putnam's" is applied—it takes out roots, branch and stem. Nothing so sure and painless as Putnam's Corn and Wart Extractor; try "Putnam's," 25c at all dealers.

ter than buckets and barrels or casks. They are easier to keep clean.

Wood soaks up a certain amount of sap which turns sour with age, and tends to spoil the flavor of the new crop. But get out the old sap buckets if you haven't new ones ready. Make the most of the maple sugar season while prices are good.

PROGRESSIVE PHOTOGRAPHY.

"Photography is a strange art," the young man remarked.

"Because it develops negatives, 55 I presume?" queried the young woman with a queer accent on the word "negative."

"Not exactly that; but as an example, the other day I had my picture taken in my riding suit—not on a horse, you understand, but just standing in my riding outfit with my whip in my hand. And today I received a letter from the photographer stating that the pictures are all mounted and ready for me."

WHY BELGIANS
STILL NEED HELP

"In travelling through Belgium with the Belgian armies, I have been able to see the country recently tenanted by the Bochs in the condition in which they left it, and never was there such desolation anywhere. One cannot get away from signs of destruction, no matter where one goes, along the country roads or in the city streets.

Not only has property been destroyed and every means of livelihood taken away from the people, but the peasants, especially in the country districts, have been left destitute both of home and food. We travelled twelve miles yesterday through open country and as but one small instance of the vast plundering of the Germans, let me state that in all twelve miles not one solitary live animal did we see, and practically every tree had been felled, so you can imagine the dreary aspect of the scenery.

All the peasant women and children we met on our way, said a news correspondent, while they greeted us with cheers and received us into their homes with open arms, those that had homes, showed the greatest suffering from insufficient food and nourishment. They did not complain, but merely stated as a fact that they had not tasted meat for two months and had lived largely on soup and coffee.

The cry of the Belgians today is for food and clothing and those who would help, no matter how little, should send their contributions to their committee, or direct to the Central Committee, Belgian Relief Fund 59 St. Peter street, Montreal.

DID YOU EVER?

A minister, with two lovely girls, stood entranced by the beauties of a flowing stream. A fisherman happening by, and mistaking the minister's occupation, said: "Ketchin, many, pard?"

"I am a fisher of men," answered the preacher with dignity.

"Well," replied the fisherman, with an admiring glance at the girls, "you sure have the right bait."

HE OUGHT TO KNOW.

"You say this picture you bought so cheaply is worth \$10,000?"

"Yes."

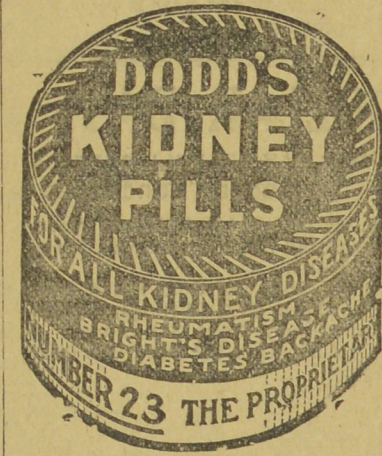

"Who told you that?"

"The artist."—Kansas City Journal.

WHAT SHE HAD.

Daisy (earnestly)—No, she isn't exactly pretty, but she has that indefinable something—

Harold (impatiently)—Yes, I know, My girl's old man has piles of it, too.—Tit-Bits.

THIS IS AN AGE
OF WEAK NERVESMen and Women Alike Suffer
from This Serious Ailment.

"No heart for anything" is the cry of thousands of men and women who might be made well and strong by the new, rich red blood Dr. Williams' Pink Pills actually make.

Misery day and night is the lot of hosts of men and women who are today the victims of weak nerves. Thin pale, drawn faces and dejected attitude tell a sad tale, for nervous weakness means being tortured by morbid thoughts and unaccountable fits of depression. These sufferers are painfully sensitive and easily agitated by some chance remark. Sleeplessness robs them of energy and strength; their eyes are sunken and their limbs tremble; appetite is poor and memory often fails. This nervous exhaustion is one of the most serious evils affecting men and women of today. The only way to bring back sound, vigorous health is to feed the starved nerves, which are clamoring for new, rich blood. This new blood can be had through the use of Dr. Williams' Pink Pills, which fact accounts for the thousands of cures of nervous diseases brought about by this powerful blood builder and nerve restorer. Through a fair use of this medicine thousands of despondent people have been made bright, active and strong among these is Bibiane Chiasson, South Beach, Que., who says: "I am a teacher by profession, and probably due to the close confinement and arduous nature of my studies I became much run down and suffered from extreme nervousness. The least noise would startle me, and my heart would beat violently. Indeed my condition was an unhappy one. I had often heard of Dr. Williams' Pink Pills as a cure for nervous troubles and decided to give them a fair trial. I am happy to say that this medicine completely restored my health, and I can confidently recommend it to all suffering from nervous troubles."

Dr. Williams' Pink Pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

PROGRESS THE WATCHWORD

Sir Edmund Walker, President of the Canadian Bank of Commerce, in his annual address to the stockholders of that great financial institution, said:

"Progress appears to be the watchword in New Brunswick. The Department of Agriculture has the whole-hearted support of the Government, and is giving the farmers of the province inspiring leadership. This is evidenced by a general increase in production, the amount of land cultivated in 1918 being 125,000 acres more than in 1917. Of this increase 33,000 acres were planted in oats, 34,000 acres (or 200 per cent increase) in wheat, and 13,000 acres in turnips and potatoes. The potato crop is estimated at 8,650,000 bushels, somewhat below the average, but 50 per cent. more than in 1917. The yield of hay was good and that of oats and wheat excellent, but of only fair quality owing to the bad weather which prevailed during harvesting. Reference was made in our report last year to the effort being made under government auspices to improve the quality and number of live stock. This policy has been continued, with specially good success in the case of sheep."

Have Your Job
Printing Done
At Home

The Mail now has every facility for turning out High Class Job Printing work and there is no longer any reason why manufacturers, merchants and others should send their orders out of town.

Give us a trial order and be convinced.

We have a new office and up-to-date machinery, all run by electric power, and can turn out work promptly and efficiently. If you have a job of printing call up No. 67 and we will do the rest.
