

BREAKS A BAD COLD IN A JIFFY! TRY IT

You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store.

PLAYING THE PART.

The trenches were dreary in the extreme after the long-continued rain fall.

"Hurry up out of this, my gallant soldiers," was the cheery call of the sergeant to his waist deep and rain sodden men.

"Soldiers!" came the derisive answer from one of them. "I'm not a soldier; I'm a bloomin' bulrush."

BIG PROGRAM MAPPED OUT

Paris, Jan. 4.—The peace conference according to the "Petit Parisien" will proceed as follows.

First—A conference of the four great powers.

Second—Representatives of Belgium and Serbia to be admitted for a survey of the general situation.

Third—Admission of the other Allies for conferences on the problems interesting them.

Fourth—Presentation of conditions successively to Germany, Bulgaria, Turkey, German-Austria and Hungary and the signing of the peace preliminaries.

Fifth—A general conference con-

INFLUENZA IN EGYPT.

Epidemic Equally Deadly in Warm and Cold Climates.

Cairo, Egypt, Jan. 4.—It is officially computed that 41,000 persons died in Egypt, outside of Cairo and Alexandria as a result of the recent influenza epidemic.

Wittenberg, Prussia, Jan. 3.—The Luther Museum here has been looted by robbers. The thieves secured many valuable coins and a number of costly books, including some famous Babylonian bibles.

It was in the University of Wittenberg that Martin Luther as a Professor taught philosophy early in the sixteenth century.

cerning the questions of a league of nations, freedom of the seas, limitation of armaments and related topics.

WILL USE WAR MACHINERY

London, Jan. 3.—Mr. Colegate, Secretary of the Engineering Trade Committee interviewed by the "Daily Chronicle" today, declared there will be practically no waste in adapting the bulk of war machinery in Great Britain to requirements of commerce. He says the Ministry of Munitions is buying, selling and transporting machinery from useless districts to productive areas, and this work will go far to ease certain aspects of the housing problem.

The new productive scope of the machinery is enormous. The big pre-war firms are not only already engaged in fulfilling pre-war orders for such things as motor lorries, but are also carrying into effect schemes for the production of agricultural machinery, sewing machines, watches, clocks and cheap motors.

The man who is really good often has a sad look that is discouraging.

INJURED MEN MAKE COMPLAINT

Toronto, Jan. 4.—Injured returned soldiers who were in the wreck at Edmundston, N. B., and who arrived here last night, said that the treatment given them by the inhabitants of the country was not at all cordial.

"They absolutely refused to have anything to do with us, neither offering food nor shelter. We had to shift for ourselves until the hospital train arrived from Quebec 150 miles away," said one man.

London, Jan. 4.—Germany's newest battleship, the Baden, with a displacement of 28,000 tons, and of the very latest type, will be surrendered at a British port in a few days in accordance with the terms of the armistice, according to announcement here.

Is it because of the spirit of peace that a girl seldom disagrees with a young man just before Christmas?

Pimples Broke Out All Over Face, Arms and Neck

Pimples are a sure sign that the blood is not in its proper shape. While the skin is the seat of the irritating, unsightly pimples, the real disease is in the blood.

Medicated lotions and powders may allay the itching and irritation, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and the skin permanently injured by their use. The disease is more than skin deep; the entire circulation is poisoned.

Burdock Blood Bitters quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions.

B. B. B. cures permanently because it leaves none of the original poison to ferment in the blood and cause a fresh attack.

They mean an extremely weakened Alta., writes:—"Last summer I was greatly troubled with pimples breaking out all over my face, arms and neck. I was advised to try Burdock Blood Bitters, and after taking two bottles, the pimples had almost all disappeared. I shall always recommend this remedy to anyone afflicted with skin troubles."

B. B. B. is manufactured only by The T. Milburn Co., Limited, Toronto Ont.

Soldiers Home

Coming Campaign

War Work and After-War Work of the SALVATION ARMY

"FIRST TO SERVE—LAST TO APPEAL."

If one institution in the Empire was prepared for war, it was the Salvation Army. For fifty-three years it has been relieving distress wherever and whenever the need arose.

The Salvation Army has always been organized on a military basis—inured to hardship, sacrifice and service. It is always in action, day and night.

When the War came, intensifying human suffering and the need for bodily and spiritual help in a thousand ways, the Salvation Army was ready.

The twelfth day of the war found the Salvation Army at work behind the lines in Belgium. It has maintained 197 huts, 96 hostels and 40 rest rooms; 1,200 uniformed workers and 45 ambulances have been in service at the front—in addition to taking care of the needs of soldiers' families here at home, assisting the widows and orphans, and relieving distress arising from the absence of the soldier head of the family.

Hostilities have ceased, leaving vast and complex problems, and these problems arise notwithstanding all the Repatriation work the Government has undertaken, in addition to the granting of pensions. Above and beyond what other agencies are accomplishing, there are thousands of cases of urgent human need among soldiers' families that the Salvation Army is trained and equipped to meet—provided the financial help is forthcoming. Hence—

The Salvation Army Million Dollar Fund

JANUARY 19th to 25th

While it could do so, the Salvation Army has carried on without any general appeal. Now the crisis has arisen, because our three hundred thousand soldier boys are returning. The budget for essential work during the coming year has been prepared. A million dollars must be raised to continue the after-the-war activities, which include:

Hostels for Soldiers

Salvation Army hostels are vitally necessary for the protection and comfort of the soldier at the many stopping places between France and his home here in Canada. These hostels—or military hotels—provide good food, clean beds, wholesome entertainment at a price the soldier can afford to pay. In addition to hostels already in operation, many more are needed near stations and landing places, from Paris, through London, Halifax, St. John, right through Canada to Vancouver. If the boys do not have the hostels, WHERE would they go?

Care of the Wives, Widows, Dependents and Orphans of Soldiers

Scores, and hundreds, of cases could be cited where soldiers overseas have been comforted by the assurance that the Salvation Army had stepped in to relieve their families from dire need. For instance, a mother with six children is discovered—no fuel, weather freezing, food and funds exhausted by sickness and other troubles. They are taken to the Salvation Army Emergency Receiving Home for a few days until their home is made habitable once more. Widow of soldier sends for help; Salvation Army workers cope with immediate necessity—send mother to Maternity Home, three children to Emergency Home. Winter and 300,000 boys returning increase the demands on the Salvation Army, whose personal help alone is of avail.

The service of the Salvation Army, founded on sacrifice, demonstrates the true Christian spirit. It is directed to the extension of the Kingdom of Christ. For two generations the Salvation Army has stood out and out for God.

It approaches practical problems in a practical way and achieves results. It co-operates with all—overlaps none. It recognizes neither color, race, nor creed. No organization does greater work at less cost. To carry on its great work among the 300,000 returning soldiers and their families, it must have financial help. On its behalf members of the Dominion Government, business men, and returned soldiers endorse this appeal for funds.

"Let Your Gratitude Find Expression in Service."

THE SALVATION ARMY MILLION DOLLAR FUND COMMITTEE

Headquarters: 20 Albert St., Toronto

Keeping the Family Unit Intact—Home Visitation

The women of the Salvation Army on their visiting rounds accomplish the apparently impossible. Is the discharged soldier out of a job? They find him one. Is the wife sick, the home-work piling up—are the children neglected? They nurse the wife, mother the children, wash and scrub. Is there need for food, fuel, clothes or medicine? They are supplied. Influence is brought to bear to guide the older children. Whatever can be done to keep the home intact, is joyfully done in the true spirit of the Master.

When the Soldier Needs a Friend

As long as a Canadian soldier needs the comforts the Salvation Army can offer, he will find them available. The Salvation Army Lassie will be there with the hot coffee, the pies, chocolate, magazines, writing materials, and always the spiritual comfort for which the boys feel the need over there. The Salvation Army Lassies have heard and carried out the last wishes of many a man who has made the supreme sacrifice. Until the last homeward-bound soldier is happily re-established in civil life, will you not help the Salvation Army to combat the discomforts and evils that beset his path?

FUTURE OF BELGIUM AMONG THE NATIONS

Belgian Parliament Wants a
Stronger Guarantee of Neu-
trality Than a "Scrap
of Paper."

Paris, Jan. 4.—The famous treaty which Germany designated as a "scrap of paper" will come up for early consideration before the peace congress. This is the treaty made in 1830, when the great powers of Europe recognized Belgium as being separate from Holland and guaranteed the neutrality of Belgium.

It was the disregard of this neutrality and the invasion of Belgium by the German troops which brought Great Britain into the war. The Belgian parliament recently adopted unanimously a resolution asking for establishment of the independent sovereignty of Belgium and the abandonment of the guarantee of neutrality. The resolution adopted by the Parliament was in response to the speech from the throne made by King Albert when he re-entered Brussels.

After expressing gratitude to the nations aiding in the deliverance of Belgium, the resolution says:

"The tragic and glorious hours which Belgium has experienced, give it the right to free itself from the ties which in the past limited its sovereignty and enervated its international action. Belgium will thus pass to the rank of the great powers which are mistresses of their own destinies."

Incidentally, Germany's designation of the treaty as a "scrap of paper" involves the general question of establishing some means of guaranteeing the inviolability of treaties.

A FUSSY RABBIT.

While out motoring an auto party cided to have a meal in the open. One of them went into the village store to get the things necessary for a Welsh "rabbit."

"I want a pound of cheese and large square crackers for a Welsh rabbit," he told the storekeeper.

"I have the cheese," was the reply, "but I ain't got no arge crackers; how would some small ones do?"

"Sorry, but we must have large ones for the rabbit."

"Well you know best, of course, but that there rabbit of yours seems a mighty fussy eater for an animal."

Toronto Globe.—The opening for the development of poultry and eggs is very great. Mr. P. C. Elford, the Superintendent of the poultry division of the Experimental Farm of Ottawa, figures as follows:

If every farm in Canada maintained a flock of 100 chickens, which is well within the limits of what is possible, and in every city, town and village did its share in keeping only ten chickens in each backyard and garden, we could produce 700,000,000 dozen of eggs per year for export over and above domestic consumption and eat twice the number of eggs we do now, at that. At 40c. per dozen our egg exports would pay the interest on the national debt, and wipe it out entirely in less than six years.

Honest, now, what kind of a world would this be if everybody kept their New Year resolutions?

Cheerfulness is the prevailing note of the Paris hotelkeeper, it is reported, despite certain shortages. No shortage will be apparent in the bill.

A man's wife is something like the Equator, in a subconscious way he knows she's there, of course, but he can look right at her without seeing her.
